# **WEEKLY MESSAGE: December 3, 2025**

**COSOLARGY INTERNATIONAL**  
THE SACRED TEACHINGS OF LIGHT

## HEAD OVERSEER'S WEEKLY MESSAGE

Wednesday, December 3, 2025

This past Saturday's readings were from the Testament of Levi and the Second Prophecy to the Americas, Chapter 35: On the Existence of Divine Reason (pp. 231 – 238). Click [here](#) to read the first scriptural reading, and click the audio button below to hear the reading from our Second Advent scripture.

Once again, please feel free to ask me any questions by calling 775-786-7432 or emailing me at [messages@cosolargy.org](mailto:messages@cosolargy.org). I am always at your service.

In Light+,

Gene

# Always Try to do Your Best

*“Strive always to be the best in your calling, whatever it may be, and let not your energy be consumed in the envy of another’s achievements. Strive always to improve your own abilities, so that you may*

*take your place among the masters of your craft.*

*“Seek not to take advantage of your competitor by any underhanded methods, but overcome his opposition only through*

*your own superiority. Thus, even though you fail, nevertheless the blow will be softened by the retention of your honor.*

*“Success is good and desirable, but of itself, it plays little part in the development of the soul. It is the manner, in which success or failure is met that leaves its impress there.*

*“Consider carefully the causes of success in others; what they can attain is not beyond your reach. Be not one of those who marvel not when others remove mountains but consider it beyond themselves to carry a pebble.*

*“Diligence will always be duly rewarded by the wise master.”*

*-The Kolbrin Bible (MPR:23:14-18)*

## **Improve Yourself**

The quote suggests that we should strive to be the best in our chosen field, whatever that may be. That is both unrealistic and not beneficial, especially with goals that are not spiritual. Not everyone can be the best in an earthly profession, and trying to do so can lead to frustration and disappointment. In addition, it has us competing against each other when we accomplish much more by working together towards goals that benefit all. Instead of competing against others, we should strive to improve ourselves. When it comes to spiritual development, we want to continue to develop always, but we must each do so at our own pace and by helping others rather than competing with them.

## **Success is Good**

The quote says success is good, but it doesn't help develop the soul. That depends on what you are successful at. If your success is in spiritual growth and development, then it definitely helps the soul. Even earthly goals can benefit the

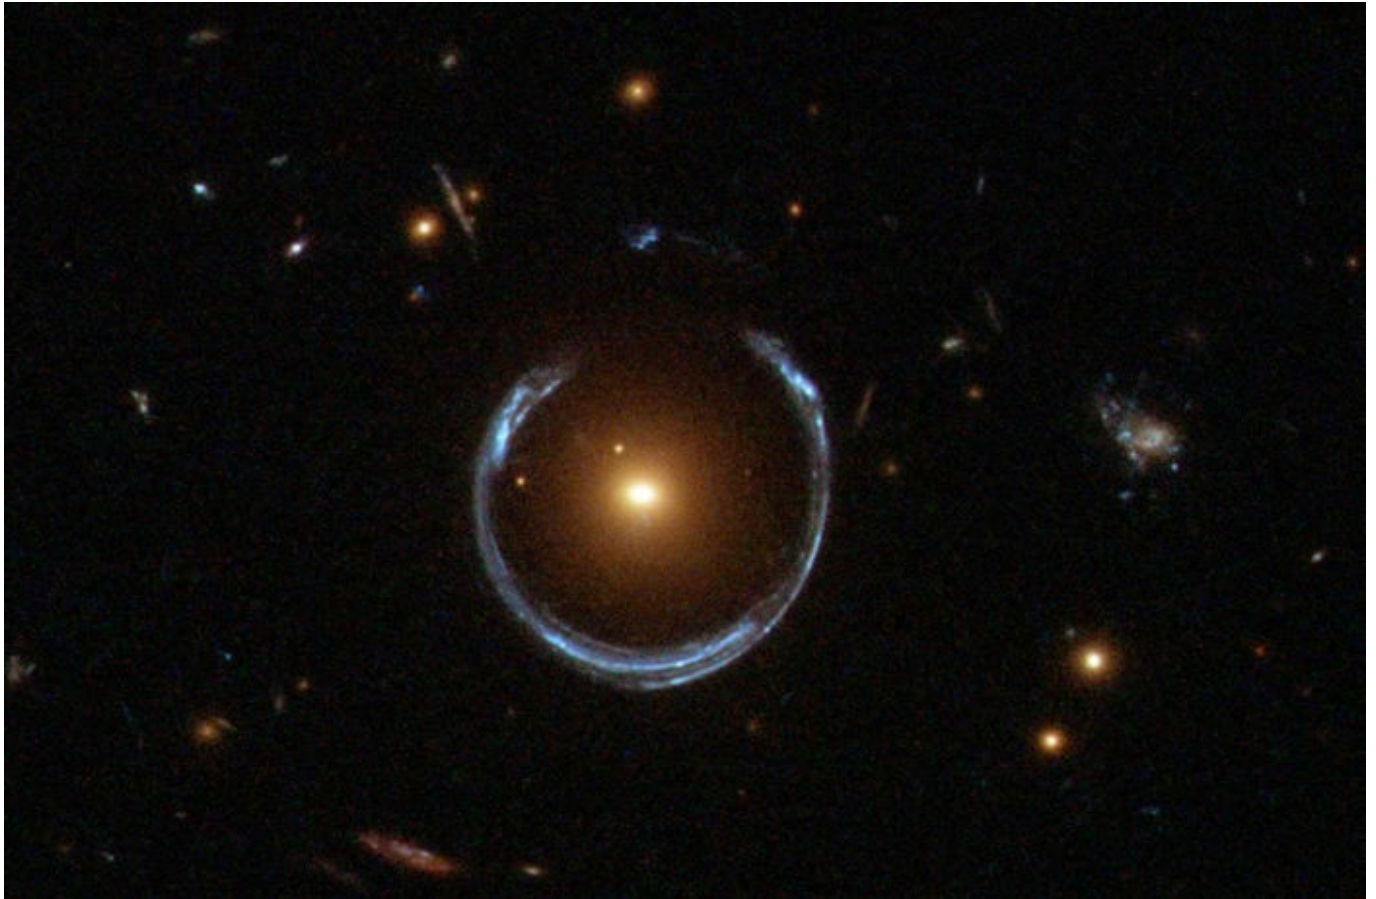

soul if they are done with love and by always obeying the Law of God. The quote does say that it is the manner in which success or failure is met that leaves an impression on the soul, and that is true. If you realize that your success is not just because of your own efforts, but also because of your God given gifts, then you will have humility with your success, and that is good for the spirit. On the other hand, if you meet failure with anger, you harm your soul if you meet failure instead with the idea that you can succeed on another day, and don't allow anger to take over, then your failure will not harm your spirit.

## **When Others Remove Mountains**

Jesus said that with faith the size of a mustard seed, a person could command a mountain to move, and it would move. While that is true, it is also true that the contrary thoughts of others prevent us from doing such things. Eventually, some of us will become Spiritual Masters and will be able to perform such deeds, although literally causing a mountain to move seems pointless to me. But it is known in spiritual circles that highly developed spiritual people have been able to turn away tornadoes and block wild fires. As we change and become more spiritual, the world around us is also changing in the same direction. We will reach a point where we will all be able to work what is now considered miracles, because there will be no materialistic people to counter those events. So while you probably can't move mountains now, you should always try to do your best in whatever you do.

# “Machine Learning Discovers Quasars Acting as Lenses”

Quasars acting as strong gravitational lenses are among the rarest finds in astronomy. Out of nearly 300,000 quasars catalogued in the Sloan Digital Sky Survey, only twelve candidates were identified, and just three confirmed. These systems are exceptionally valuable because they allow astronomers to precisely measure the mass of a quasar's host galaxy, something that is normally impossible given that the overwhelming brightness of the quasar itself drowns out its surroundings.

# **“Our solar system is moving 3 times faster than expected”**

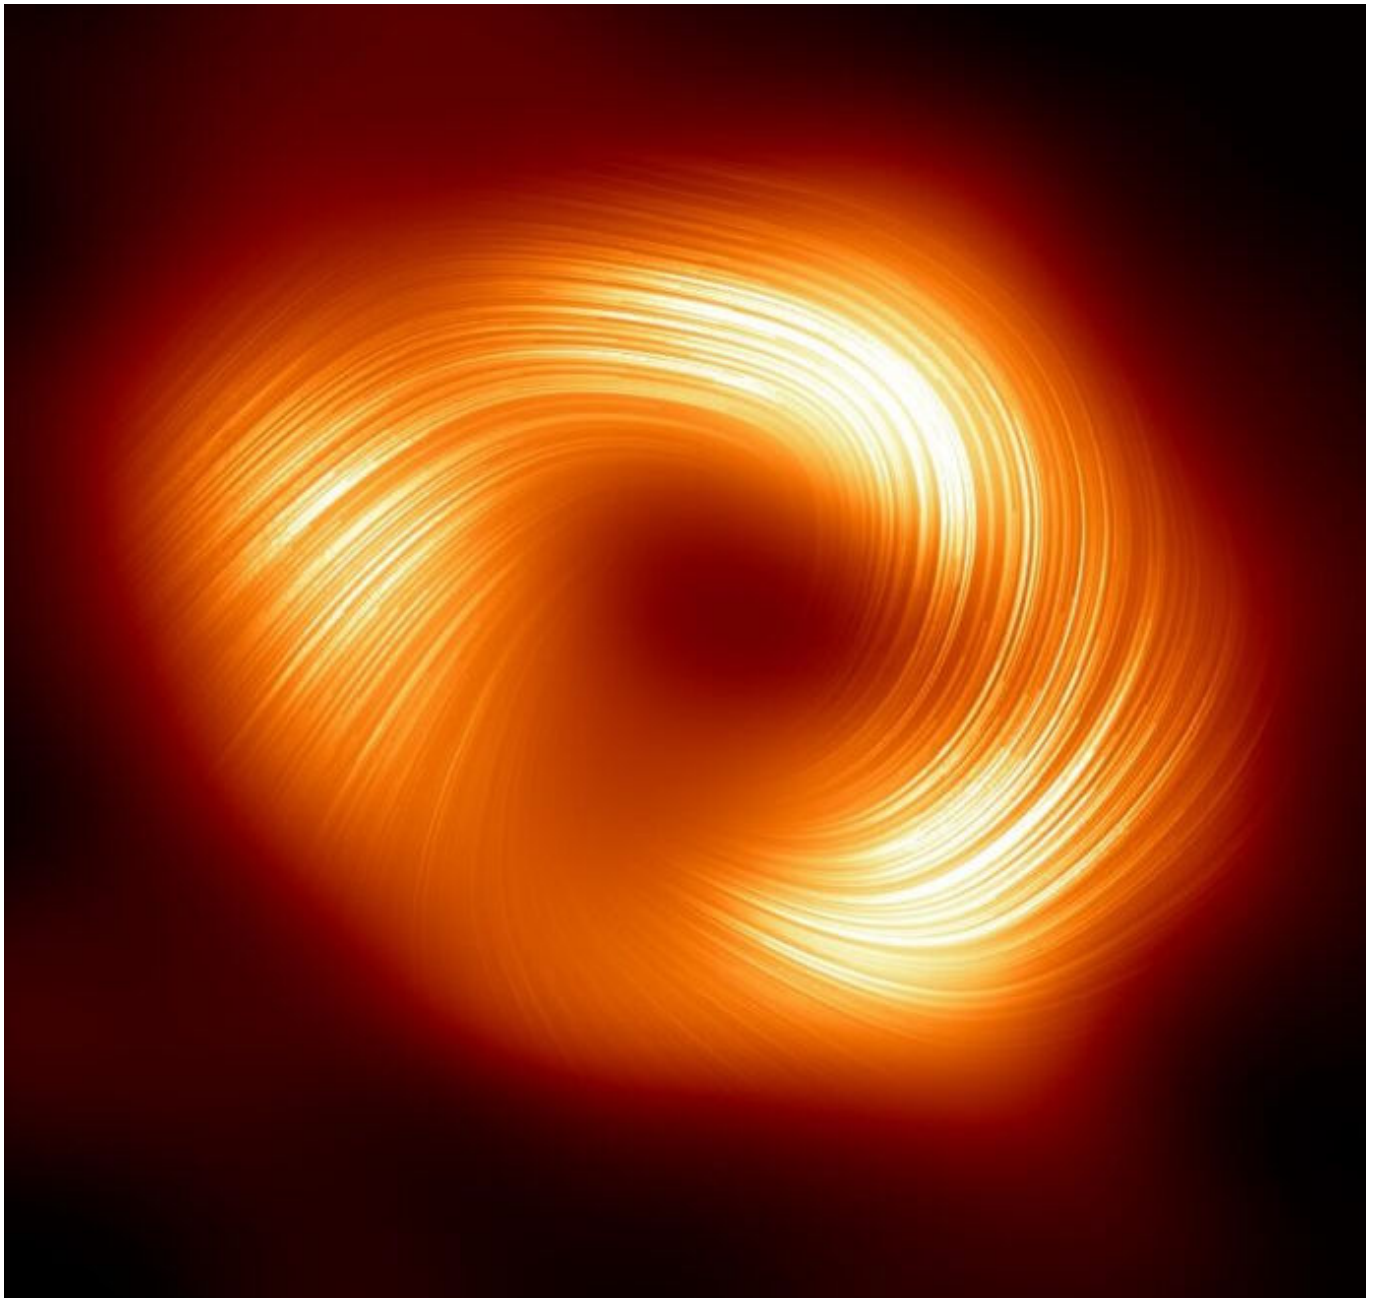

Our solar system was thought to be moving at about 515,000 mph (828,000 kph) through space as it orbits the center of our Milky Way galaxy. But a new study from researchers in Germany suggests the solar system is moving more than 3 times faster than that.

Lead author Lukas Böhme said: *“Our analysis shows that the solar system is moving more than 3 times faster than current models predict.”*

**“Could black hole shadows  
reveal new theories of  
gravity?”**

A [black hole](#) is a region of space where gravity is so strong that not even light can escape. And, as bizarre as these objects may seem, they *are* predicted by Einstein's theory of relativity. But black holes also feature in other competing theories of gravity, too.

And now, an intriguing new study says black holes could one day help us test – and likely disprove – these alternative theories.

The study focuses on a part of a black hole known as its *shadow*. This is a region around twice the size of the event horizon – the point of no return – where the black hole's gravity pulls light in, making it appear dark to us.
