**The Wise Man Has Doubts, The Fool Never Does**

**A wise  
man never  
knows all;  
Only a fool  
knows  
everything.**

-African Proverb

**fb/david avocado wolfe**

*“The wise man is less presumptuous than the fool. He has many doubts and changes his mind, for as wisdom grows, knowledge alters.*

*“The fool fixes his mind in obstinacy; he is stubborn, and doubt does not disturb his placidity. He knows all things, except his own ignorance. The wise man is aware of his imperfections and continually strives for improvement. The fool forever counts his own small talents and is content. He boasts of his achievements in things which are of no account.*

*“Thistledown floats on water for all to see, but a gemstone sinks below the surface. So does the fool shout his abilities to the wind, while a wise man keeps them hidden within himself. The goose brings forth its egg while at rest, and the tail of the peacock is displayed while it stands still. The deep, still pool holds the biggest fish, and the resting cow gives the most milk. So it is with the quiet man, who within himself, produces a fountain of strength at which lesser men drink and find refreshment and courage.*

*“The heart of a fool flutters at a vain hope, but the wise man puts it behind him. Fools snap at one another, but wise men agree in peace.*

*“Let reason rule all your desires, and let not your hopes reach out beyond the limits of probability. Thus, the chances of success bear down in your favor in the scales of fate, and your heart will not be burdened with disappointment.”*

*-The Kolbrin Bible (MPR:20:15-19)*

## **Changes His Mind**

When a wise man or woman is presented with new information about something they thought they knew, they are willing to listen and change their mind when appropriate. They do have to consider the source of the information. If the source is unreliable, then so is the information.

## **Obstinate Fool**

The fool, on the other hand, stubbornly sticks to his beliefs no matter how much evidence there is to the contrary. He also does not consider the source of the information, and accepts statements from dubious sources.

## **Imperfections**

The wise person is aware that they are not perfect (nobody

is), so they strive for improvement. More significantly, the wise person seeks improvement in their spiritual Self, not just the physical. The fool rarely seeks improvement, and when they do, it is in physical matters that are far less important than spiritual growth.

## **Floats on Water**

The fool loves to brag about his abilities, even if they are not great and are not truly things that matter. The quote compares that to a thistle floating on water. The gemstone, which represents the wise person, sinks. That is saying that the wise person doesn't brag about his abilities, he simply does what he knows how to do and continues to learn how to do more.

## **Live in Peace**

Wise people live together in peace. Even if other people speak a different language, practice a different religion, or have a different skin color. The wise person knows such things are superficial and should not be used as excuses to hate others. The foolish people look for anything that makes others different, and uses those things to hate them, refuse to help them, or even start wars with them. God never wanted people to hate each other. He wants all of us to live together in peace. The wise people strive to live according to God's Law, the fool makes up his own laws to live by.

COSOLARGY INTERNATIONAL  
THE SACRED TEACHINGS OF LIGHT

## COSOLARGY NEWSLETTER OCTOBER 2025

Greetings!

Welcome to our monthly bulletin with information of interest to friends of Cosolargy International. In this issue, we bring you up to date with current and future events and provide a little background on our founder, the late Gene Savoy Sr, and his explorations into solar cultures, along with some uplifting words of inspiration.

If you are curious about the solar techniques and activities of our Community, contact us by using the Contact Form on the [Cosolargy International website](#). It will be forwarded to the appropriate representative for your area.

In these trying times, if you would like to have a prayer said for you or others, click the Prayer Request button at the end of this newsletter.

### The Origins of Cosolargy

#### *Quotes from Gene Savoy, Sr.*

"Again the Voice spoke, and it was like the sounding of a loud trumpet: 'The Hebrew Prophets, through whom God spoke, wrote: "behold, the day cometh that shall turn as a furnace, and all the proud and wicked will be like stubble. And the day that cometh shall burn them up, saith the Lord of Hosts, that is shall leave them neither root nor branch. But unto you that fear my name shall the Sun of Righteousness arise with healing in its rays, and you shall go forth leaping as calves to pasture. And you shall tread down the wicked, for they shall be as ashes under the soles of your feet in the day that I am preparing, saith the Lord of Hosts."

"And did not Jesus, my beloved Brother of Light, answer as recorded in the Books, when questioned about this future event? "The coming of the Son of Man will be like lightning coming from the east and flashing in the west. Wherever the corpse is, there shall the vultures gather. Immediately after the tribulation of those days, the sun will be darkened, the moon will not give its light, and the stars shall fall from the sky, and the Powers of Heaven shall be shaken. And then the signs of the Son of Man will appear in Heaven and all the people of the earth will beat their breasts, and they will see the Son of Man coming in the clouds of Heaven with great power and glory. And He shall send angels with with the sound of a loud trumpet to gather His Chosen from the four winds, from one end of Heaven to the other,""

**“New details about  
Betelgeuse’s companion star”**

Betelgeuse is a famous bright red star in the constellation Orion the Hunter. It's famous in part because it will one day *explode*. Late last year, scientists announced Betelgeuse likely has a companion, which has since been confirmed and nicknamed *Betelbuddy*.

On Wednesday, researchers from Carnegie Mellon University said

their observations show the companion star is not what they expected.

## **“New study says water in Venus’ clouds surprisingly abundant”**

- **Venus' clouds contain droplets that are highly acidic.** Scientists thought they were mostly sulfuric acid with some water. But is that true?
- **A new analysis of data from the Pioneer Venus 2 mission** in 1978 shows the droplets have less sulfuric acid and much more water than previous estimates, along with oxidized iron.
- **Venus' clouds could therefore be potentially more habitable** for microbes than scientists have long thought.

**“Webb glimpsed doomed star before it exploded”**

Astronomers have captured the most detailed glimpse yet of a doomed star before its death.

The star came to our attention when we saw it explode as a supernova on June 29, 2025, in a galaxy 40 million light-years away. And this galaxy, NGC 1637, had already been imaged by the James Webb Space Telescope. So astronomers were able to study this imagery to identify the supernova's source star, or *progenitor*.

It's the 1st time Webb has identified a supernova progenitor. And it revealed the doomed star was a red supergiant, cloaked in an unexpected shroud of dust.
