

“A Promising New Method for Detecting Supernovae at Record Speed”

Supernovae are among the most energetic phenomena in the Universe, and definitely one of the most spectacular! These events take place when a star has reached the end of its life cycle and undergoes gravitational collapse at its center, exploding and shedding its outer layers in the process. For astronomers, supernovae are not only a fascinating field of study, shedding light on the evolution of stars, but are also a means of measuring distance and the rate at which the Universe is expanding.

“Baby planet carving a path around its star”

What appears to be a ripple in space actually depicts a

newborn planet eating its way through its dusty cradle as it orbits its host star. This image, taken with ESO's Very Large Telescope ([VLT](#)) in Chile, is the first clear detection of a baby planet in a disk with multiple rings.

These so-called protoplanetary disks surround young stars and appear as disk-shaped structures of gas and dust.

“Cool Gemstones And Fiery Grime: Blazing Rainbow in Space Hints at Earth's Origins”

The glorious guts of a dying star are the means by which

astronomers are hoping to discover the very earliest origins of how our planet was born.

In the midst of the Butterfly Nebula NGC 6302, located some 3,400 light-years from Earth in the southern constellation of Scorpius, astronomers have found compelling evidence of dust crystallizing as it cools from hot gas.

Services for the Week of September 13, 2025

Saturday, September 13, 2025

10:00 AM COMMUNION

Chapel of The Holy Child

Lector: RF Ted Staver

Cantor: Dea. Paige Hubbard

Reader: Rev. Jim McDermott

Sunday, September 14, 2025

SUNRISE DIVINE SERVICE

The Cathedral Church of the Americas

Leave: 5:30

Gate: 6:20

Service Starts: 6:34

Sunrise: 6:49

Concelebrants:

RF Robert Petrovich

Rev. Bruce Kanzelmeyer

Assistant: Barbara Whitney

OPEN-AIR COMMUNION

Church of The Christian Churches: *Rev. Jim McDermott*

Church of The Americas: Rev. Jim McDermott

Wednesday, September 17, 2025, Noon

Chapel of the Holy Child

RC Rob Roy

Friday, September 19, 2025, 9:00 AM

The Chapel of the Roses

**WEEKLY MESSAGE: September 10,
2025**

COSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

Wednesday, September 10, 2025

This past Saturday's readings were from the Gospel of Philip and the Prophecy to the Races of Man, Chapter 63: An Unfulfilled Prophecy Revealed (pp. 403 – 412). Click [here](#) to read the first scriptural reading, and click the audio button below to hear the reading from our Second Advent scripture.

Once again, please feel free to ask me any questions by calling 775-786-7432 or emailing me at messages@cosolargy.org. I am always at your service.

In Light+,

Gene

**Let each of us Leave an
Impression on the Earth**

*What Legacy
Will You Leave
Behind?*

“Each man’s life should leave its impress on Earth, and each man should depart a better man for having lived. Repine not

for lost opportunities, for opportunity does not perish at death. Do your best here and

you will do better elsewhere. Be wise here, and you will be wiser in another place.

“Earthly success is not the measure of a man’s achievement, for a gain here may mean a loss elsewhere. An earthly loss may mean a spiritual gain; the scales are always just.

“When in old age you say, “Alas that life is short,” then consider the way you abused and wasted it in your youth, is not your reward fitting? Remember that the paths to pleasant old age are chosen in youth.

They are the paths of simplicity, moderation, cleanliness and virtue.

“Consider the ruthlessness of rulers, the greed of the rich and

the willfulness of the powerful. If these dare to enslave the Earth and wreck misery upon the people, knowing they can enjoy the fruits of their oppression but a brief span of years, what would they not set out to achieve were their span of life doubled or were they immortal?

“Therefore, the Great God in His wisdom has ordained the proper span of man’s life. If, then, you think life is short, why dissipate it so and why waste the precious days? Is it not economy, which makes a man rich, and not abundance?

“The wise man lives fully all his life, and he is always conscious of being alive. The fool is always beginning to live, and the weakling shrinks from it and seeks forgetfulness in comfort. Those who half

live are already half dead.”

-The Kolbrin Bible (MPR:4:33-38)

Leave an Impression

It is a good thing to leave an impression behind when our earthly life is over, provided that impression is positive. To leave an impression as a criminal, a liar, or a greedy person is not desirable, yet many choose to do so. As spiritual people, we should leave an impression of one who has helped people and the planet itself become more spiritual, as is God's desire. At the very least, we should leave an impression of one who is kind, loving, generous, and helpful.

Repine Not

We should not fret over our mistakes or missed opportunities of the past, but instead, seek to do better in the present and the future. Very few of us have been spiritual since birth. We may have even gone through a period of being very materialistic. But if we learned our lesson and became more spiritual, we need not worry about the past. It is possible that we will have a karmic debt to pay, but it is possible that our good deeds of today will wipe out those debts. Also, as the quote says, if you do your best here, you will be able to do even more good in the afterlife.

Earthly Success

What most people consider success on earth is not true success at all. Having a lot of money or material possessions is not true success. Having political power is not real success. Those things are gone when you depart the earth, and wasting your time on them means you will probably do little to develop true success, which is the awakening and developing of the spiritual faculties. Earthly success is fleeting; spiritual success makes one immortal.

Span of Life

While it can be argued that if spiritual people lived longer, they could do more good, it is also true that if evil people

lived longer, they would do more evil. Unfortunately, at this time the evil people in the world outnumber the good, so it is a good thing that physical life is limited to 120 years, at most. It is possible that in the future, when we become more spiritual, that may increase quite a bit. And it is not so much how long you live as how you live that matters. Sometimes, those who accomplish great things live short lives. So don't be a fool and hide from life; embrace life, and use it as an opportunity to grow spiritually.

**“New X-ray scans track
violent solar winds
threatening Earth’s
satellites”**

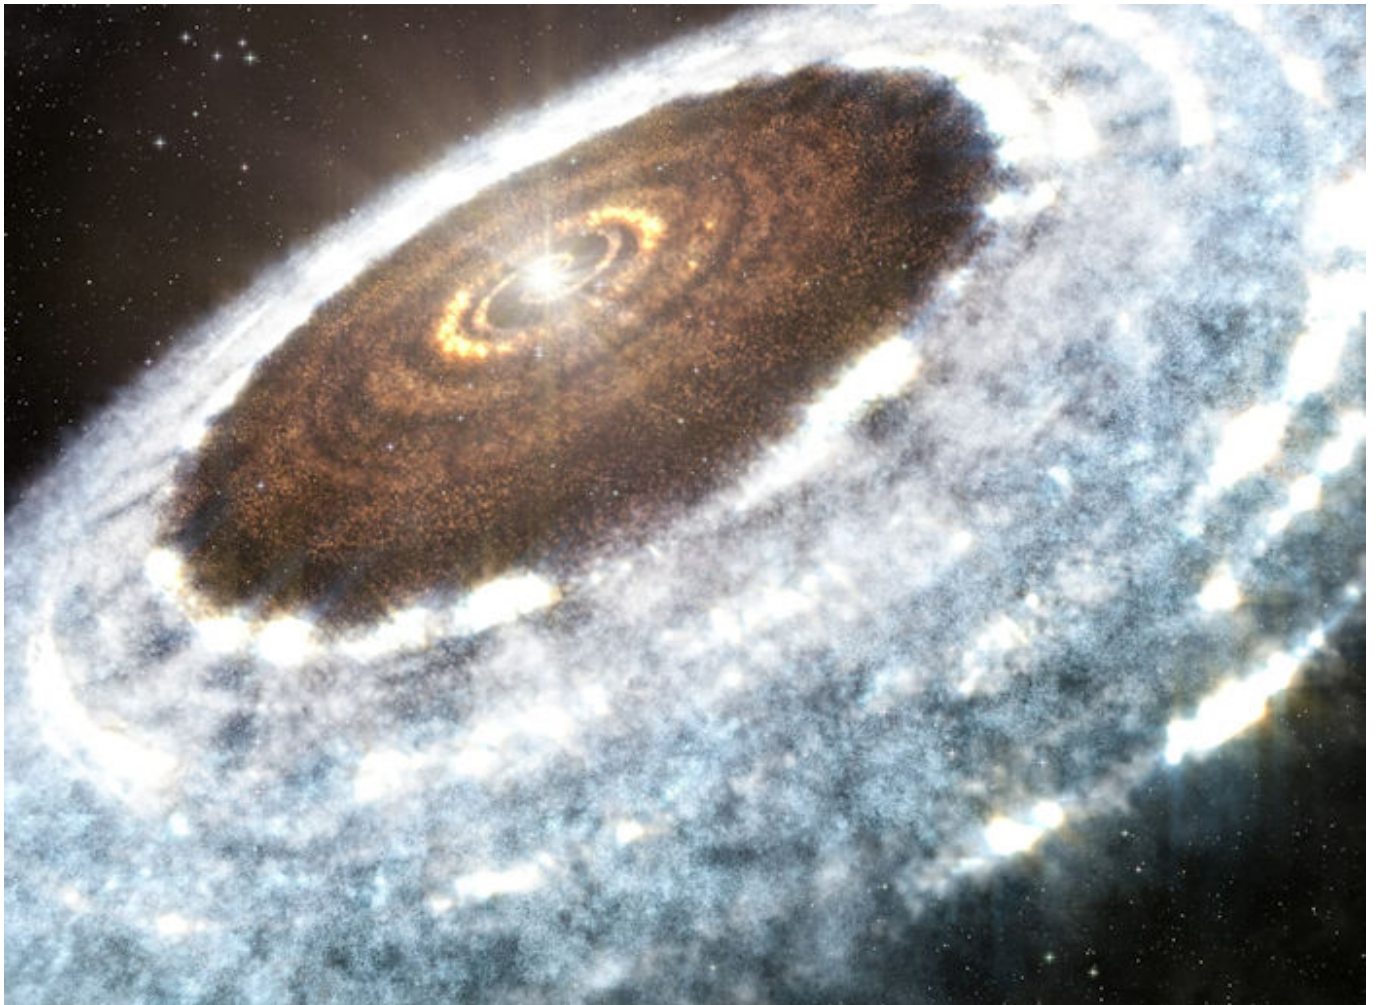

High above Earth, where space and the planet's magnetic field meet, powerful forces collide. Streams of charged particles known as the [solar wind](#) constantly flow from the Sun toward Earth. Most of the time, these particles are deflected by a protective magnetic bubble called the magnetosphere. This invisible shield keeps our atmosphere safe and protects satellites, GPS systems, and astronauts from dangerous solar radiation.

“Scientists detect the

building blocks of life surrounding star V883 Orionis"

In a star system far, far away—well, about 1,300 light-years from here—a young star just spilled the chemical tea on the origins of life. V883 Orionis, a fiery infant star surrounded by a swirling disc of dust and gas, has become the latest cosmic celebrity for revealing a hidden stash of complex organic molecules—some of the very building blocks that may have kick-started life on Earth.

“All of the first stars might not have been massive”

- **The first stars were thought to be massive**, short-lived, and composed of only hydrogen and helium.
- **New studies suggest** that in the early universe conditions may have also allowed the formation of lower-mass stars, which could still exist today.
- **Cooling by molecules** like H₂ and helium hydride may have enabled smaller gas clouds to collapse, forming lower-mass stars that still exist today.
