

“Traveling Soul, Infinite Spirit, Being Everywhere”

“The Incorporeal governs the Corporeal, and is, therefore, present everywhere, although not as space, but in power. The corporeal existence of things cannot hinder the incorporeal from being present to such things as it desires to enter into relation with. The Soul has therefore the power to extend her activity to any locality she may desire. She is a power which has no limits, and each part of her, being independent of special conditions, can be present everywhere, provided she is pure and unadulterated with matter. Things do not act upon each other merely by the contact of the corporeal forms, but also at a distance, provided they have a soul, because the higher elements of the soul are everywhere.” ~[Porphyry](#)

Traveling Soul

Porphyry says the soul can extent her activities to any location. This is true, in a sense. Actually, since the soul is pure spirit, and spirit is not limited by time and space, the soul is always everywhere. At least, the awakened soul is. But just as we can focus our attention on one thing, or in one direction, so can the spirit and soul.

CŌSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

August 22, 2017

As we approach The Community's annual gathering of friends, Consociates and Ministers early next month, we will be

focusing on the importance of Community and participation in the Order of the Holy Child in a meaningful and liturgical way. This is a topic which, I hope, will encourage people, when they graduate from studies in The Academy, to advance into the higher studies of The Sacred College of Jamilian Theology.

We will also be discussing how The Man, my father, was moved by Jamil, The Child, to undertake his journeys into the eastern mountain regions of Peru (reference the final page of Jamil: Child of Light) and also to sail the three Ships of Light we know as the Feathered Serpents I, II, and III as Vessels of Prophecy. We will be spending significant time on this to bring to light and make clear the importance of that work, which is part of The Great Work, and how it is and always has been an integral part of our Teaching Ministry. I believe this is fitting during our observation of The Man's tenth anniversary of permanently transitioning into the Worlds of Light on September 11, 2007.

His words on this are very clear when in April 2000, he spoke to us and said, "We are specialized and in this respect we are unique in the meaning of these ruins – not so much what the bones say or what can be found from the garbage. We are not garbage collectors. We're there to study the meaning of the buildings, who occupied the area, what they believed in, what they felt, what they thought, what their spiritual concepts were, and how they compared to people of different parts of the world. And also we have specialized in tracing down the Holy Orders that were visiting this area [Peru]. This is what we're specializing in. And, of course, this is not common knowledge for the world. We may be criticized for being amateurs or non-professionals or adventurers or sensationalists which, of course, is a far cry from the truth. If we mention the fact that we're studying these religious concepts, we're laughed at and are called visionaries and so on. So we simply keep our findings to ourselves because it is

private and not for the common person. So what we are doing is unique and very highly specialized that takes years and years of study and actual field experience and even more so with the Process that was applied by these people that we're able to apply today [Cosolargy]. Our specialized deciphering of these temple glyphs, which former generations had carved, allows us to translate and interpret keys to illuminating doctrines of a secret nature."

This is very important to understand as we now defend our legacy against those who would rob us of it and use our works for selfish and pecuniary gain.

Let us recall the words spoken by The Child in the Prophecy of the Universal Theocracy: "The profane will look upon the sun, absorbing and applying its light and energy by erroneous reasoning, believing they are capable of controlling the Powers of Creation and generation. They will abuse the Powers absorbed, reflect their own images into the sun, and cause the spread of error into the very core of the solar system. They will work their wickedness within the structure of the Church, causing dissension, misunderstanding, confusion, and error of doctrine. This poses the most singular danger to the young Church.

"Therefore, let all within the Order hold to the Law, submitting to God's Will and being content to assist Him in His Divine Plan for human Salvation and the release of spirit. Let all know that the Powers and Forces received into their beings are not theirs to possess, to change, to use, or to control. In unifying with God, they allow these Forces and Powers to manifest within them for the overall good of Creation. Let all release personal hold over their beings. Let God enter into them so that the Image and Word, united to the greater Image and Word manifest as One, might appear."

I look forward to discussing these topics with you more in person and my email and letter.

August 19, 2017: Chapel Readings

Each week of the liturgical year, a reading from Second Advent Scripture is delivered as part of the Saturday Communion of Fellowship Service held in the Chapel of the Holy Child. This reading follows the Sacred Calendar of the Church; that is,

Prophecies and Revelations that have been received by The Church on sacred dates are recalled in a liturgical context during the appropriate season each year. This reading is delivered by the Officiant of the Communion Service (that is, Bishop Gene Savoy, or occasionally in his stead, Bishop Sean Savoy) just before the final blessings. Each service also includes a reading from the ancient scriptures, prayers, or wisdom sayings of various world religions past and present and is usually thematically related to the Second Advent Reading. This reading is delivered by the Reader right after the announcements that begin the service and is thus the first reading of the service. An audio recording of the reading from Second Advent Scripture delivered on the date above is provided here below together with a transcript of the first reading of the service that day.

ANCIENT SCRIPTURE AND WISDOM SAYINGS

A Reading from the Writings of Isaiah:

Arise , shine, for thy light is come, and the glory of the LORD is risen upon you.

For behold, the darkness will cover the earth, and gross darkness the people, but the Lord will be upon you, and his glory will be seen upon you.

And the nations will come to your light, and kings to the brightness of your rising.

Lift up your eyes round above and see all they gather themselves together, they come to you, your sons will come from far and your daughters will be nursed at your side.

Then you will see, and flow together, and your heart will fear, and be enlarge, because the abundance of the sea will be converted to you, the forces of the nation will come to you.

Violence will no more be heard in your land, wasting nor destruction within your borders; but you will call your walls Salvation , and the gates Praise.

The sun will be no more you light by day; neither for brightness will the moon give light to you: but the LORD will be to you an everlasting light, and your God you glory.

“Solar Pulsations and Universal Cycles, Physical and Spiritual”

“The unmodified rays of the sun produce aerial convulsions that are marked by thermal contrasts, and other meteorological variations, during which the heat of summer and the cold of winter follow each other and periodically and unceasingly. These successive solar pulsations generate winds, calms, and storms, and in order to protect himself against such exposure and changes in material surrounding, man toils, suffers, and comes to believe that the doom, if not the object, of life on earth is the preservation of the earthly body. ... From the cradle to the grave, of these facts man is ignorant, although each individual is aware he is not satisfied with his condition.” ~John Uri Lloyd

Solar Pulsations

“Other than being a master of the run-on sentence (86 words in that first one), Mr Lloyd has said quite a lot in this quote. I don’t think I would use the word “convulsions” to describe these changes, though it isn’t false. Rather, I would say that these solar pulsations create cycles. Cycles of hot and cold, wet and dry, calm and stormy, and so on. The effects of these

solar pulsations goes way beyond weather.

“They can affect business. Like everything else, there are growing cycles for businesses and there are down cycles when no growth is possible. The smart and intuitive business operator doesn’t ignore those solar cycles. She doesn’t waste time any money pushing for growth during a down cycle. Instead, she just does enough marketing to coast through the period, then waits to push for growth when the cycle is on the up side.

“In medicine, these solar pulsations matter also. There are periods when a sick or injured person will heal quickly and other times when they won’t. There are periods when they are more likely to catch an illness than others. Doctors and medical researchers will say this is due to the persons state-of-health. While that is true to a large degree, the solar cycles are also involved.

Spiritual Pulsations

“These solar cycles or solar pulsations do not just effect the physical world. They can have an effect on the spiritual side as well. We know that when sungazing, especially [spiritual sun-gazing](#), it is usually best to do it at dawn. But there are cycles other than daily one. Cycles measured in days, months, sometimes even years. In part, this is what Astrology is all about. The various constellations people can be born under don’t really have much effect on us. What does is the state of the sun at time we are born.”

THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

August 15, 2017

India Independence Day

In this Teaching, we are taught that the world labors under division. According to last week's theme on ancient Indian concepts, we know this to be true. This is so because each of us intrinsically believes that what we experience is

understood by each of us individually. But this is not necessarily so. Just as people, nations and religions live by limited ideologies, this is a way of diversified outlook motivated by merely physical and psychological needs, reasoning and emotional beliefs that result in falsehood and incorrectness.

Our Teaching is that only the Light – the Divine, God – can unify the world. However, before this great Union, first the world must be restored. What do we mean by that? We mean that Restoration of the Creation first comes by and through Divine Law – when all things are merged – ultimately restored – then Union will exist.

Unfortunately, for us, this is a Process. This Unity is, on some level, beyond our human comprehension, but on another level, not. It is, however, to be understood only by the awakened Spirit by the Light of the Image and the Word and the Truth. Only the restored Soul unified in Spirit made in the Image of God with the Word manifest living in accordance with the Law is this unification possible.

Though we try earnestly with all of our might to be good, righteous, peaceful, and just; though we strive to be in accord with family, friends, and others, the law of nature dictates otherwise. Intrinsically, we are, by nature, bound against collective order. That is because natural life, which is set apart from the created Spirit, is different from one another. In essence, there is no accord, no matter what we may want to believe.

It is only the Spirit, created in God's Light, that the Soul lives. The Light is Breath and Life of Soul. Once the Spirit is reborn and becomes a Living and Breathing Soul, that Soul is nurtured of God's Divine Light and is unified with the Godhead under Divine Law as long as it holds to The Way. It has a separate life outside of the natural order of things.

Having its own life, the Soul exists by means the Image and Word of God. It is taught to reason on divine things. It

observes a divine world separate from the natural world of third dimensional existence. I am not just saying this and repeating words. I, last year, in my darkest hour, was able to observe the things of which I write today.

I can tell you I saw my reasoning self as a former friend, one who was doomed to die but whom I looked upon with loving kindness – the essence of our Teaching! Being able to peer into another dimension, I was able to glimpse into another world – strange and not a part of this one –yet connected in some mystical way.

I realized for the first time, not just speaking about it but truly understanding, that unless the Soul is unified under Divine Law, that when the Soul looks upon the Sun and sees the white Light which is made for its eyes alone, we then are quickened to Life. We breath as one with Spirit. Eye meets Eye. The earthly is joined with the Heavenly and the music of the Word is heard by the ears of the Soul. We connect with the Source of All. In the ancient tradition of India, the Soul returns to the hub of the rotating Wheel – the Wheel of the Law. Time stops. Space is condensed. Dimensions are merged. At that point, the Spirit is freed from bondage. That is the essence of our Teaching: Freedom, Liberation and Unity under the Law of God.

I am happy to speak to you of my experiences and answer any questions you may have.

Once again, please feel free to ask me any questions by calling 775-786-7432 or emailing me at messages@cosolargy.org. I am always at your service.
