

August 12, 2017: Chapel Readings

Each week of the liturgical year, a reading from Second Advent Scripture is delivered as part of the Saturday Communion of Fellowship Service held in the Chapel of the Holy Child. This reading follows the Sacred Calendar of the Church; that is, Prophecies and Revelations that have been received by The Church on sacred dates are recalled in a liturgical context during the appropriate season each year. This reading is delivered by the Officiant of the Communion Service (that is, Bishop Gene Savoy, or occasionally in his stead, Bishop Sean Savoy) just before the final blessings. Each service also includes a reading from the ancient scriptures, prayers, or wisdom sayings of various world religions past and present and is usually thematically related to the Second Advent Reading. This reading is delivered by the Reader right after the announcements that begin the service and is thus the first reading of the service. An audio recording of the reading from Second Advent Scripture delivered on the date above is provided here below together with a transcript of the first reading of the service that day.

SECOND ADVENT PROPHECY AND REVELATION

A Reading from the Prophecy of the Universal Theocracy,
Chapter 87: "The Voice of India" (pp. 851-863).

ANCIENT SCRIPTURE AND WISDOM SAYINGS

A Reading from the Gospel of John:

Father, glorify me in your presence with the glory I had with you before the world began.

I have revealed to you those whom you gave me out of the world. They were yours; you gave them to me and they have obeyed your word.

Now they know that everything you have given me comes from you.

For I gave them the words you gave me and they accepted them. They knew with certainty that I came from you, and they believed that you sent me.

I pray for them. I am not praying for the world, but for those you have given me, for they are yours.

All I have is yours, and all you have is mine. And glory has come to me through them.

I will remain in the world no longer, but they are still in the world, and I am coming to you. Holy Father, protect them by the power of your name—the name you gave me—so that they may be one as we are one.

While I was with them, I protected them and kept them safe by that name you gave me. None has been lost except the one doomed to destruction so that Scripture would be fulfilled.

I am coming to you now, but I say these things while I am still in the world, so that they may have the full measure of my joy within them.

I have given them your word and the world has hated them, for they are not of the world any more than I am of the world.

My prayer is not that you take them out of the world but that you protect them from the evil one.

They are not of the world, even as I am not of it. Sanctify them by the truth; your word is truth.

As you sent me into the world, I have sent them into the world.

For them I sanctify myself, that they too may be truly sanctified.

My prayer is not for them alone. I pray also for those who will believe in me through their message,

that all of them may be one, Father, just as you are in me and I am in you. May they also be one in us so that the world may believe that you have sent me.

I have given them the glory that you gave me, that they may be one as we are one:

I in them and you in me. May they be brought to complete unity to let the world know that you sent me and have loved them even as you have loved me.

“Always Shining Sun that Brings Higher Consciousness”

"The Sun has always shone and is shining, but at times we see it, while at other times we do not see it. That is however a temporary condition, a changed environment depending either upon the position of the Earth, or upon ourselves. The Sun is always shining for those whose consciousness is always awake. Get up in the morning when the Sun is rising; look at God and you will find the way." ~Beinsa Douno

The Always Shining Sun

"Douno states that the sun has 'always shone and is shining.' That is true if you interpret 'always' as meaning since time began, or since the universe was created. He says that we sometimes see it, and sometimes don't. This is partly due to the rotation of the Earth giving us day and night. At night, the sun still shines, just not on us but on the opposite side of the planet. But that is all dealing with the material sun.

"Beyond that material sun is a Spiritual Sun, and that is the

Sun Douno is really talking about. That Sun, while concentrated in the area around the physical sun, does not really occupy space and time. Therefore, it is always shining on us, it is the Always Shining Sun.”

2017 CONVOCATION: Japanese Buddhist Tradition and Cosolargy

Notice: the schedule of events for this year’s convocation have significantly changed. Please check the new agenda attached.

You are invited to the 2017 Convocation

ATTEND THE 2017 CONVOCATION TO EXPERIENCE:

“Japanese Tradition and Cosolargy, Part II: How Japanese Culture Blends with Cosolargy”

by Yukinori Matsushita

We are developing a Religious Service in Japan based on Japanese culture. There is one technique called “Kuji-in”. Kuji simply means “nine syllables” and refers to a variety of mantras that consist of nine syllables.

The syllables used in kuji are numerous, especially within the realm of Mikkyo Scholars. They have stated that kuji is of Taoist origin. I will speak on the Secret usage of Kuji-in. Also I will speak on other activities concerning the Japanese Community.

Another topic will be “DO”. We can find how Japanese people used to live The Way as Solar adepts in the way of Do. There are many different kind of DO. For example, Sa-Do(Tea ceremony), Ka-Do(Flower arrangement), Aiki-Do(Martial art) and so on. They are all simple form of actions turned into what I call DO-nization of those activities. The main purpose of the all the Do-nization is the development of Consciousness, or our effort of our side to attract THE MOST HIGH to guide us to

his way(The Way to God). I would like to talk about how all the DOs were originally meant to develop Consciousness and the initial training for the Solar Adepts while in the world.

WEEKLY MESSAGE: August 7, 2017

CÔSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

August 7, 2017

This week, my mind has been on India. As you may know, my wife, Radheka, is finishing a three-week sojourn in the southern Indian states of Kerala and Karnataka finishing a two-year course in Ayurvedic medicine. The thoughts reminded me of my trip some eight years ago to that country which I found to be a place of contradictions – extreme beauty on one hand and extreme ugliness on the other – a country of significant religious and spiritual traditions, as well as a country of intense materialism and poverty.

As I reminisced, I also dwelt on the teachings of the Mahatma Gandhi and a few of his principles – Truth (*Satya*), Nonviolence (*Ahimsa*), and Purity (*Brahmacharya*). I was also led to reexamine the concept of a corrupt world, one which the Mahatma knew well. Much like the early Christians, ancient Indian concepts regarded society as being primarily dominated by greed, recklessness and cruelty; rulers and nations constantly contending for power and oppressing the people.

Yet the ancient Vedic and Puranic teachings envisioned a future age when the Supreme Creator would intervene in worldly affairs and eventually bring peace and harmony among all peoples and nations. This was to be an age of Universal Justice and Virtue when God would end the eternal struggle caused by human and natural disorder. He would use the very Powers of Creation to stabilize the Universe, an event described in the symbolism of the Brahman religion.

The allegory of these scriptures, the Vedas and the Puranas, specifically, reveals that the Mahapurusha would set into motion the Cakravarta, the Sun of Heaven, whose rays would be a sign of God's intervention in the world when at its dawning the sun would begin to spin as a wheel. At this time, the whole of Creation would be unified under its all-conquering and indestructible rays.

Complimenting ancient Brahmanism, as successor to the Buddha, the Maitreya would instruct the whole world under the sun in

the sacred doctrines of the release from bondage. This Enlightened One was to be a seer-child, a miraculous infant, who would be known by seven signs and thirty-two markings. The Child would proclaim the Advent of the Wheel of the Law which would be set in motion at the time of his appearance on earth.

Once set in motion, the Wheel of the Law would begin a New Age on earth by sending forth rays of Sacred Fire, in turn to set in motion the "cakras" or sun-wheels within the spiritual bodies of those seeking enlightenment. Thus, illuminated by the living of the Law within the luster of redeeming Light, the enlightened would possess divine eyes to see the True Light and divine ears to hear the True Law spoken by God. The devotee would become an image of the Celestial Image manifest in the Heavens.

This would not occur by living man's laws or holding to outworn religion or by the reading of scripture or being convinced of the validity of faith by belief but rather by the Intellectual Light and Truth of the celestial agency of the Wheel of the Law. The Law would invalidate all other laws, for they would have no reality or meaning in the Age of the Great Appearance of the Cakravarta. The Appearance would usher in a Golden Age of superior enlightenment in which justice, peace, virtue, love and stability will prevail. All earthly opposition, human or otherwise, would be overcome by spiritual transformation effected by the Giver of Light. Upon looking on the Image of the Divine and hearing the Law, a person becomes a divine image incarnate.

The Age of the Wheel of the Law has been set in motion with the appearance of the Child, Jamil, as the foretold Maitreya. We all yearn for the great day of Universal Justice and Virtue. In the meantime, we continue our daily devotions and reflections sustaining the Cakravarta, which is, the Sun of Righteousness.

I am always at your service.

ANCIENT SCRIPTURE AND WISDOM SAYINGS

A Reading from the Rig Veda –A Hymn to Surya, the Sun:

*His bright rays bear him up aloft, the God who knoweth all that lives,
Surya, that all may look upon him.
The constellations pass away, like thieves, together with their beams,
Before the all-beholding Sun.
His herald rays are seen afar, refulgent over the world of men,
Like flames of fire that burn and blaze.
Swift and all-beautiful art thou, O Surya, maker of light,
Illumining all the radiant realm.
Thou goest to the hosts of Gods, thou comest hither to*

mankind.

*Hither all light to be beheld with that same eye of thine
wherewith thou lookest*

Upon the face of men.

*Traversing sky and wide mid-air, thou measureth out with they
beams our days; the Sun seeing all things that have birth.*

*Seven Steeds harnessed to thy car bear thee, O farseeing One,
God, Surya, with the radiant hair.*

*Surya hath yoked the pure bright Seven, the daughters of the
car, with these,*

His own dear team, he goeth forth.

*Looking upon the loftier light above the darkness we have
come to Surya,*

God among the Gods, the light that is most excellent.

*Rising this day, O rich in friends, ascending to the loftier
heaven,*

Surya remove my heart's disease, take from me my sickly hue.

BOOK REVIEW: Matrix Energetics and The Physics of Miracles

Matrix Energetics and The Physics of Miracles
by Richard Bartlett, DC ND

Dr. Richard Bartlett is a chiropractic and naturopathic doctor who formulated a system of healing based on his personal experiences with clients. This system is known as Matrix Energetics.

In his book he writes that we have generally been taught that our bodies are made of solid matter, but we are actually made of high-energy photons and information fields of possibility held in patterns of wave interference, quantum particles or fields of consciousness and spirit— a realm where the laws that we have been taught govern this world do not exist. Instead, we have orbits of probability potentials of

transformation and becoming. Because of this, he advises: "Let go and let God" and "the less you do, the more you have." He also states that all diseases can be cured but that not everyone wants to be cured on an unconscious level.

His Two-Point process for healing is a measuring tool that helps you access, or plug into, what he calls grids of manifestation. As a healer, he says, you look into the patient's eyes and notice what you notice. You do not need to understand the whole complexity of the problem. This is the observer effect at the quantum level, often called quantum entanglement. "The act of focusing at this level, where everything is made of light energy, causes what you observe to behave differently," he states. When you are observing, he goes on, you collapse the particle-based arrangement of your world into its intricate patterns or wave fronts of light. You can feel and sense this happening. "Through this process, not only do the things that you focus on change, but you change and transform as well." By "doing nothing" and not trying to "fix" anything during this process, you are entering into a transformation. "Things no longer happen to you. Instead, you begin to take responsibility for your creative use of universal energy."

Here are two of Bartlett's techniques that he shares in the book:

Two-Point:

Touch one point on anything (with either hand). It could be a guitar or a car or a shoulder or a knee. Notice how it feels; it may feel stuck, hard, or rigid. It does not have to be painful. (Note: This may be done on animals, as well, or actually on anything). That is what you are going to choose to notice. Now you have your first point. All you are doing is noticing something. Now, take your other hand and just place it on your leg or any other object of your choosing; any other point in a different area will do—it does not matter where—or until you find something that feels like it makes that first

area harder, more stuck, more rigid, or like it is being pulled together like with a magnet. That is what you are looking for. That is where you have actually performed the measurement aspect of what Matrix Energetics teaches with the Two-Point. Now slide the other hand along the leg or object you have chosen until you almost feel a stick where you have a point that suddenly seems to draw those points together. That is an artificial or arbitrary set-up measurement, but it allows you to play the virtual game. Now, having connected those two points and realizing at the level of quantum physics that the act of measuring causes a change in your measurement, you “let go” as if you were dropping a pebble into the pond. Do not let go of the object. You must imagine that you are letting go of the physical. You then feel this expansive wave between those points. Do not try to visualize an outcome. This will keep you from collapsing the wave into a new pattern and will keep you on a physical level. This technique takes practice. You are not trying to fix a problem. You are viewing inside of yourself a holographic pattern of photons. Now let go of all of your concerns and affairs. Imagine yourself spiraling up into the air without a care in the world. Then you will note a change. The area between the two points will probably feel softer and less rigid. Be prepared for any kind of release from the patient (or yourself), e.g., crying, laughing, etc.

Matrix-Energetic Healing Time-Travel Technique:

1. Do the Two-Point Technique

2. Using the age of your patient, begin counting backwards in five-year increments while holding the two-point position.

3. Set your intent so that the quantum change will activate when you “arrive” at the event,

age, or time frame that you wish to interact with. You do not have to actually know the correct age of the event, because as you approach the approximate time reference, you will

begin to feel that the two points that you are holding start to soften and change beneath your hands.

4. Be prepared for any kind of release.

5. Reassess your two-point procedure when things have been processed by the patient and repeat the process to resolve the pattern more completely. (Note: Moving forward in time is called entropy. Moving backward is called negentropy.)

Example: A lady named Frannie lost the tip of her finger when she was two and a half years old. She is now seventy-three years old. Taking her back to the time before the finger was cut off healed her frozen shoulder.

Matrix Energetics Distance Healing may be done with two-point on an acupuncture mannequin

or even on a stuffed animal. (More information on Bartlett and his system can be found at MatrixEnergetics.com. or on [YouTube](https://www.youtube.com).)

“Thought Echoes Control the World We Live In”

“The first thing that Love requires is this: When you meet someone, find at least one lofty trait in his character for which you can love him.

“Think good for others! When a man thinks good for others, he thinks good for himself.

“The echo of every thought of yours will come back to you. You will hear it one day. If you keep in your mind the bad energy about somebody, it will make an imprint in your brain and you will resemble that man. To keep people’s good traits in your mind and not criticize anyone is a sure method for

developing Love....

"That which you love in man is the inner, the invisible thing. That thing is the real thing.... Divine Love is love toward the man himself." ~Beinsa Douno

Thought Echoes

"Yes, all thoughts echo back to us and have an effect on us. They also echo to others and have an effect on them. Likewise, their thoughts echo off us and effect us. To a certain degree, the spiritual adept can learn to block many negative thoughts. Most of us can only counter them with positive ones."

WEEKLY MESSAGE: August 1, 2017

CÔSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

Tuesday, August 1, 2017

August 1st in The Community's Sacred Calendar is an auspicious day denoting the New Light of God and confirming the Active Principles of Divine Law. This morning, at the Consecrated Sanctuary, we performed Sunrise Divine Service and experienced a grand array of sunbeams shining through the clouds of rose-colored splendor. It was magnificent!

Last week, we touched on the Four Newly Created Intermediary Lights – these being 1) the Enlightening Image of God's Presence; 2) the Word of God's Will; 3) the Image of the Divine Presence and the Word of the Divine Will incarnate in the sun marked with the Cross of Enlightenment; and 4) the Image of the Eight Appearances and the Word of the Eight

Aspects marked with the Cross of Enlightenment as a signal call to all Spirits on earth.

The Four Intermediary Lights are sanctified by the Four Willful Acts of Divine Love, Goodness, Mercy, and Grace. The idea being that a New Communion, non-existent before the manifestation of the Lights, is established between Spirits and the Godhead. God communes with these Spirits giving them Life of Soul. The Soul is thereby nourished by the transfiguring Image and becomes knowledgeable by means of the translatable Word. Thus, generation of man and woman is restored by the redemptive power of God's Great Light! This is an event that has been longed for by hundreds of generations which has now come to pass on our times.

God has impregnated the sun at His Second Advent ushering into the world Divine Reason that is accessible to all. God's Light is now the sole intermediary between matter and Spirit. We must evolve to a creative understanding of God's Redeeming Light shed to and for all living things as a Divine Act of Love. But, that Love needs to be returned to God by the human Spirit. This is key component of The Teaching.

As God has created the Four Intermediary Lights, He has also fixed the Four Tables of the Law in the Tabulary of Light. These are: 1) the Spirit of The Law; 2) the Substance of The Law; 3) the Seals of The Law; and 4) the Calendar of The Law. These are described further in *The Book of God's Revelation*. **But, in essence, those who acknowledge the Divine Order of the New Creation and who consent by free will to be governed by God and the Light will exist in a State of Union with Divine Law.**

The essence of the last two weeks' messages have been very theological in nature. There is a theme, however, to be expressed at this time of year based upon the Sacred Calendar: 1) the Four Newly Created Intermediary Lights; 2) the Four Willful Acts; 3) the Four Tables of The Law; and 4) the Twelve Principles of Divine Law, which we have not yet touched upon. The main idea here is that all of these concepts have to do

with the four higher Force Centers of Consciousness, Intellect, Being and Form, and the eight lower Force Centers as spiritual qualities needing to be nurtured in conjunction with sacred geometric and numerological evolution.

I urge you to refer to the book for further reading and also to write to me if you have any questions or if I may clarify any of these points. I look forward to communicating with you again next week in writing and in Spirit.

Once again, please feel free to ask me any questions by calling 775-786-7432 or emailing me at messages@cosolargy.org. I am always at your service.
