COSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

COSOLARGY NEWSLETTER JUNE 2025

Hello Gene,

Welcome to our monthly bulletin with information of interest to friends of Cosolargy International. In this issue, we bring you up to date with current and future events and provide a little background on our founder, the late Gene Savoy Sr, and his explorations into solar cultures, along with some uplifting words of inspiration.

If you are curious about the solar techniques and activities of our Community, contact us by using the Contact Form on the [Cosolargy International website](#). It will be forwarded to the appropriate representative for your area.

In these trying times, if you would like to have a prayer said for you or others, click the Prayer Request button at the end of this newsletter.

The Origins of Cosolargy

Quotes from Gene Savoy, Sr.

"From the events that have transpired, we know that the Spirit of God+ manifests in different forms--as Christ-like Beings+ who live among us for a short time and direct us to the Godhead+. Christs are all one, undivided. It is only their human nature that separates them in certain times and places. These things we have learned. We have gathered here to return the remains of the outer form of the Child+ [Jamil] to the earth. The inner personage has returned to the Worlds of Light+ whence he came, forever freed from the power of death. Yes, the spirit will live on. This you must all believe.

Reflect Greatness on Earth

“Be ever above price. One worthy of the greatness you reflect on Earth, one ever above mundane things. Be as the sun, whose brightness seeks out every nook and cranny and pours light into their hidden gloom. Be one who shines among men to lighten their days. Spread uprightness and honesty

across the two lands, as the sunshine spreads brightness and warmth. Cover the land with goodness, as the rising waters cover it with fertility. Fill the land with strength, as the north wind fills it with contentment.

“Guard Your heart, as a father guards his daughter, as a mother guards her baby, for it is the stronghold of integrity. Be vigilant concerning every deed, for the eyes of men are ever upon you, the life you live is not yours alone. You are the image, which men will imitate, and you are before every eye. The blowing wind will open its ear at your windows and spread wide its report. The flowing waters beside your door will uncover their eyes and carry what they behold through the land. Your position makes

you a supporting pillar of the government; if the pillars be rotten, the roof crashes. Your responsibilities will beset your life with care; the road you journey is stony and encompassed with pitfalls and thorns. The cup you drink will be more often bitter than sweet.”

-The Kolbrin Bible (Man:34:15-16)

Worthy of Greatness

The greatness this quote is dealing with is not political or business greatness, but spiritual greatness. As we awaken spiritually and develop our spiritual faculties, we are obligated to help others do the same in various ways. One way is simply by reflecting some of that Spiritual Greatness, or Light. We do that in two ways. In a more general way, we send some of our light out into the world filled with thoughts of peace, joy, love, and other positive attributes. The second way is to send such Light to specific individuals who request it, or who we know need such help. As the quote says, be like the sun sending out Light into every nook and cranny.

Above Mundane Things

The spiritual student must be above mundane things in order to develop spiritually to any significant degree. That doesn't mean that we must dress in rags and live in a cave. We can have a reasonable amount of material goods, such as a proper house and clothes, as long as we don't get so attached to those things that we start putting them ahead of our spiritual development. Cosolargy teaches that we must put God's requirements above all other things, and that means putting the spiritual before the material.

Cover the Land With Goodness

Almost everyone agrees that we should do good all the time. The problem is that many can't tell the good from the neutral, or even evil deeds. The worse example of this is that many have been tricked by the Dark Beings into believing that wars are sometimes a good thing. There are times when a country must go to war to protect its people and territory, but even then, war is not good, only necessary. True goodness means showing kindness, empathy, and generosity to others. It also means that we should try to do work that does not harm people. For example, a spiritual person should not be working in a cigarette factory.

Guard Your Heart

As most of us know by now, when the ancient writings talk about the heart, they really mean the Soul, as the heart is often considered to be the location of the Soul. We can guard the heart by wearing our sacred thread with the gems or stones on it that have been programmed to protect us against dark forces and beings. We can also protect our souls by asking for the aid of God. And we can protect it by being part of a community of like-minded individuals, as we are in Cosolargy. While in this time, we may not be supporting pillars of the government, we are supporting pillars of God's Truth and Wisdom. And the prophecies of the Community tell us that a

time will come when leaders will consult us as did the great leaders of long ago consult the Mystery Schools of the time.

“Clearest view of the sun’s corona: See the stunning details”

- **These are the clearest images to date of the sun’s corona.** Scientists developed a new optical system that removes the blur from fine structures.
- **The new system is called ‘coronal adaptive optics.’** It removes the blur that results from looking up through Earth’s turbulent atmosphere.
- **This advancement paves the way for deeper insight into coronal heating,** solar eruptions and space weather. It also opens an opportunity for new discoveries in the sun’s atmosphere.

“Chance X-Ray Discovery Reveals Mystery Object 15,000 Light Years Away”

The mystery of strangely blinking objects scattered throughout the Milky Way just deepened.

Something 15,000 light-years away from the Sun isn't just slowly, methodically beaming out radio waves – each pulse is also blasting emissions in X-ray wavelengths, serendipitous observations have revealed.

This behavior is completely new and scientists are at a loss to explain it.

“Light Travels Across The Universe Without Losing Energy. But How?”

My telescope, set up for astrophotography in my light-polluted San Diego backyard, was pointed at a galaxy unfathomably far from Earth. My wife, Cristina, walked up just as the first space photo streamed to my tablet. It sparkled on the screen in front of us.

“That’s the [Pinwheel galaxy](#),” I said. The name is derived from its shape – albeit this pinwheel contains about a trillion stars.

The light from the Pinwheel traveled for 25 million years across the universe – about 150 quintillion miles – to get to my telescope.
