The Pharaoh Introduces a New Form of Worship

“The new form of worship introduced by this Pharaoh was simple enough. Outwardly, it had all the symbols and ceremonial beloved by the people, with sufficient substance

in it to attract the spiritually inclined. It could have formed a fitting gateway to the Path of the True Way, another light guiding men along the road to the embarkation port for Truth. Behind the symbols and ceremonial, the Pharaoh worshiped the Spirit behind the Sun, the Spirit of Light and Life as a direct, fully conscious member

outflowing from The Great God Behind All. The king, however, being cut off in the midst of his instruction, perceived the road but dimly. There is little doubt of his genuine desire to bring the True light to the people, but he was not wise enough to know, firstly, that one who brings light must be one in whom light burns brightly, and secondly, that the multitude cannot be exposed to its unveiled brightness with impunity. The king, severed from his weaknesses, could have been a truly great ruler, a steady light before the eyes of men, the guide to a new age for the people of the land. But he was one who cast heavily on both arms of the balances.”

-THE kolbrin Bible(MAN:34:44)

New Form Of Worship

The quote says the pharaoh introduced a new form of worship, yet it had much of the old religions, the spiritual ones taught in the temples and Mystery Schools, to satisfy both the regular people and the more spiritual ones.

Spirit Behind the Sun

This Pharaoh worshiped the Spiritual Sun, which the quote calls the spirit behind the sun. It is more accurate, however, to say that the Spiritual Sun is within and around the physical sun rather than behind it. Many people mistake this for sun worship, but it is not the sun itself that is being worshiped, but the God beyond that Sun. The quote says that this sun was a “ fully conscious member outflowing from The Great God Behind All.” That is an excellent way to word it. It

tells us that while the Spiritual Sun acts as a kind of portal between Heaven and Earth, it is a conscious being in its own right.

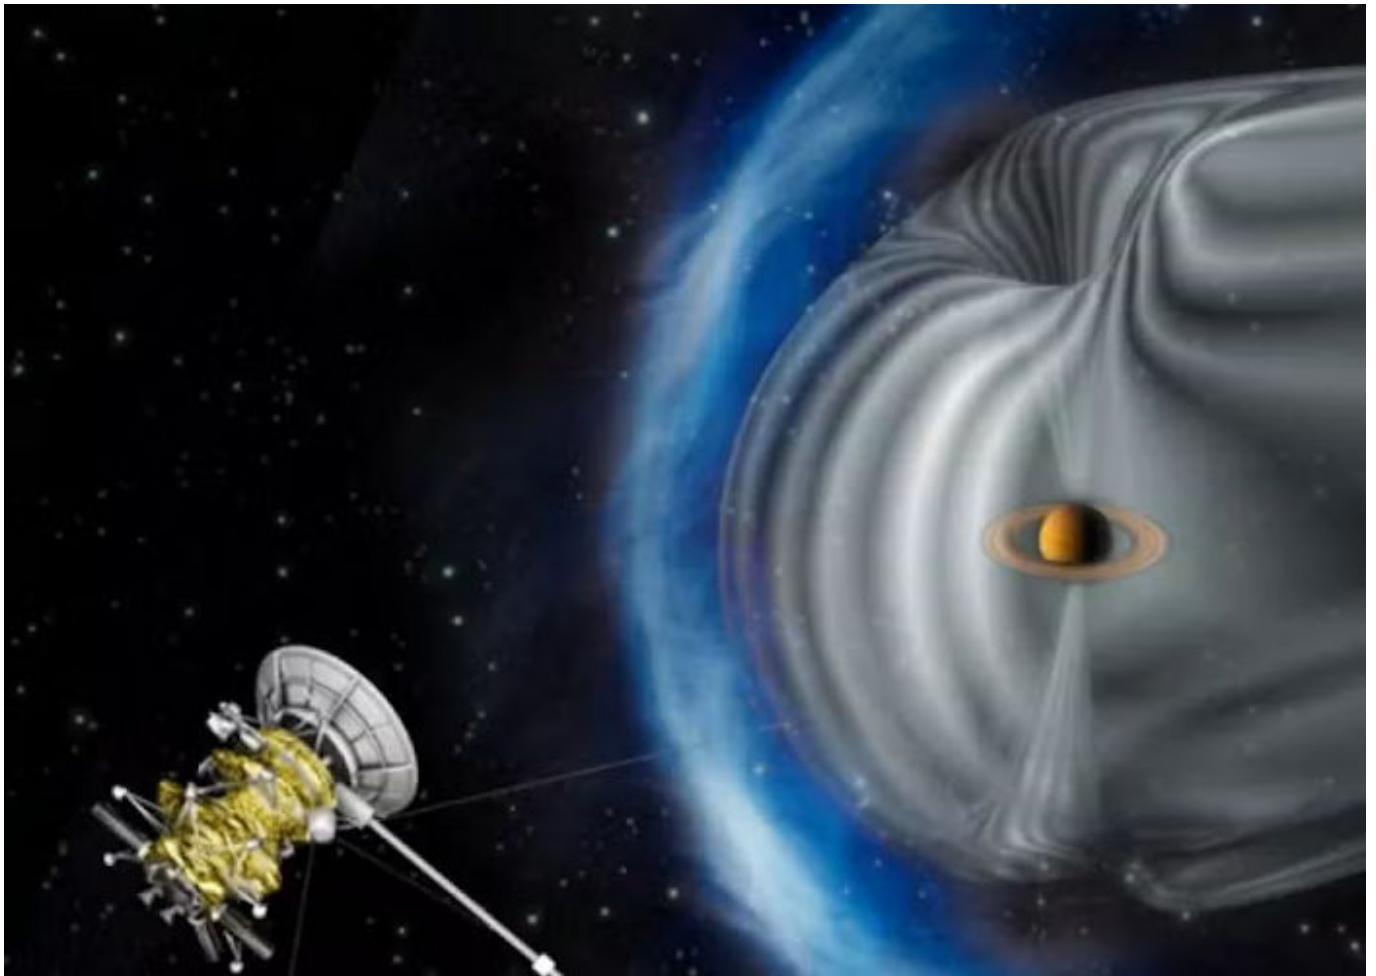

The King Cut Off

It is not explained why the Pharaoh was cut off in the middle of his instruction, but it was probably because the spiritual school he was going to shut down or relocated because of the changing times. Nonetheless, he tried to bring the light to the people. As the quote says, one who tries to bring the light to others by teaching them how to develop their own spiritual faculties must be an advanced master of the teachings.

The Multitude Cannot Be Exposed

While well-meaning people think that if someone has spiritual knowledge, it should be shared with anyone who is willing to listen, but that is not true. Exposing people to such teaching when they are not ready can result in them harming themselves. Famous painter Vincent Van Gogh may have been one person who was driven insane by accidentally gaining knowledge he didn't know how to handle. It can also result in harming others when people misuse the knowledge. Hitler is one person who gained spiritual knowledge he used to harm others.

finds lopsided shift in
Saturn’s magnetic bubble”**

After combing through years of data from the Cassini spacecraft, researchers found that a key opening in Saturn's magnetosphere, the region where solar wind particles can slip into the planet's atmosphere, is pushed well away from the noon position seen at Earth. Instead, it tends to sit in the afternoon sector, usually between 13:00 and 15:00 local time, and sometimes stretches as far as 20:00. That skew, the team says, points to a basic difference in how giant planets work.

“What if dark matter came in two states?”

The absence of a signal could itself be a signal. This is the idea behind a new study published in the Journal of Cosmology and Astroparticle Physics (JCAP), which aims to redefine how we search for dark matter, showing that it may not be necessary to find the same “clues” everywhere in order to interpret it.

“Astronomers discovered the most primitive star ever”

A dim red giant just out of reach of the Milky Way is providing astronomers with an incredibly rare glimpse into the earliest days of our universe, at a time when it was not possible for a telescope to observe these objects directly.

**O God, How Shall Your
Servants be Saved**

“The Leader of the Light cried out, “O Great God, what can I do; how shall your servants be saved? What shall be done unto those who have profaned your sacred shrines? What can I do to turn back the rising waters of iniquity and temper the wild winds of wickedness? How can the black cloud of ignorance be lifted? What shall be the just reward of those who have slain the faithful?” The voice coming forth by the Spirit of God said, “Concern yourself not with those who have persecuted you, leave them to follow the path of their own choice. Vengeance is with Me; I will measure without stint. Justice never sleeps and never forgets; the reward of the wicked awaits them. In the Hall of No Hiding Place justice will speak the final word.

“The Leader of light and those with him fled into the land beyond Shari and built there the Temple in the Rock, which stands against Shina. In this land, the forces of the Dark Ones were cast back; yet still, some among the faithful

beseeked their God to save them. Thus it has ever been, this is the nature of man that in his hour of distress he cries out to God in bitterness of heart, and they who deserted God in better times expect Him to turn towards them. Yet such is the nature of God that this He would do, were

it to the good of men, which it is but rarely. In the land of Egypt, the great shrines were deserted by the Enlightened Ones and abandoned by Truth. They became places of darkness. They were as lamps without flame, as fields without crops, as wells without water."

-The Kolbrin Bible (MAN:34:27-28)

The Leader of the Light

The Leader of the Light was probably the head of the largest of the mystery schools of ancient Egypt. He earned this title by being the most spiritually developed person in the school. He is pleading with God to help save those who have remained true servants of God. He also asks that the "cloud of ignorance" be lifted from those who remain. In Cosolargy, we understand that ignorance is the cause of all sin, specifically, ignorance of God. Those who know God do not sin, as they know they are only harming themselves by doing so.

Do Not be Concerned with Those Who Prosecute You

This is a difficult directive to follow, but we should try our best. Because of the way our subconscious mind works, what we dwell on is what will most likely happen to us, so if we dwell on those who prosecute us, we invite more of that behavior into our lives. If we dwell instead on love and forgiveness, we reduce the ability of evil to affect us.

Temple in the Rock

We don't know where this temple is, but it is most likely somewhere in Greece. We know that is where the remnants of the

great Mystery Schools of ancient Egypt went after their nation lost its way. We can assume that “Shina” is another name for Satan. Schools and temples of truth and spiritual development have always opposed the evil of Satan and his followers, not by returning violence with violence, but by practicing love and sending thoughts of peace, love, and harmony into the world.

“Exploding Primordial Black Holes Might Have Reshaped the Early Universe – And Created All Matter As We Know It”

The early universe is absolutely so far outside our understanding of how the world works it's hard to describe in words. Back then, the cosmos wasn't filled with stars and galaxies but with a boiling soup of quarks and gluons, with a few microscopic black holes thrown in, occasionally detonating like depth charges. That's the early universe theorized by a new paper, available in pre-print from arXiv, from researchers at Vrije Universiteit Brussel and MIT anyway.

“Scouring TESS Data With AI Reveals A Hundred New Exoplanets”

Artificial Intelligence (AI) and Machine Learning (ML) are making a growing contribution to astronomy. As powerful telescopes and large automated surveys become more commonplace, the vast quantities of data they generate demand equally powerful diagnostic tools. The Vera Rubin Observatory and its enormous data-generating capacity drive the point home. The observatory's Legacy Survey of Time and Space generates up to 20 terabytes of data each night, and that data is processed at a dedicated facility.
