

# “Blaze Star to go nova soon! Here’s how to see it”

- **A famous variable star** – T Coronae Borealis, or Blaze Star – should become visible to the unaided eye in 2024.
- **It could be a once-in-a-lifetime viewing opportunity**, since the star only becomes bright enough to see without optical aid every 80 years.
- **This star last erupted in 1946.** And astronomers believe it will do so again between now and September 2024. Learn how to spot its constellation now. Then prepare to be amazed when the “new” star, or nova, pops into view.

# “We’ve Just Seen The First Galaxies in The Universe Being Born”

Scientists have just identified the formation processes of some of the Universe's earliest galaxies in the turbulent era of the Cosmic Dawn.

JWST observations of the early Universe around 13.3 to 13.4 billion years ago – just a few hundred million years after the Big Bang – have revealed telltale signs of gas reservoirs being actively slurped into three newly forming and growing galaxies.

# Light and Darkness are not Equal

*“ORIGINS OF LIGHT AND DARKNESS There is no boundary for light. It was unknown when it began. Nothing was when light was not. Nothing was when radiance was not. Nothing was when life was not. There was never a boundary for light. Nothing was when water was not.*

*“WATER IS PRIOR TO DARKNESS Water is prior to darkness. Prior to darkness is water. Nothing is without an end. No number is before the Uthras were. Light beings are prior to darkness. Prior to darkness are Uthras and older than their inhabitants. Goodness is prior to the malice of the place of darkness. Gentleness is prior to the bitterness of the place of darkness. Living fire is prior to the consuming fires of the place of darkness. Praise is prior to the practice of sorcery and witchcraft. Hymns and books are prior to the sorcery of Hewath, the terrible woman<sup>1</sup>.*

*“DARKNESS Water doesn't mix with tar, and darkness can't be measured by light.” -The Ginza*

## **No Boundary for Light**

In the Bible, God says “Let there be Light,” and light is created. But that creation is actually the creation of the physical universe by the false god, the Demiurge. In the spiritual realm, Light is infinite. It had no beginning and no end. Time has no meaning in the spiritual realm so Light always was and always will be.

## **Nothing Was When Life Was Not**

The author of the Ginza can say this because he understands that the Spiritual Light is itself a living thing. It may not be living in the same way as a physical being, but it is alive. This Spiritual Light is a part of God. Various scriptures say that God is Light, and it is this Spiritual Light they are talking about. So if God is alive, so is the Spiritual Light of Heaven.

## **Water Prior to Darkness**

Lakes and rivers did not come before darkness, but the spiritual “water,” which is the flow of God’s Word and God’s Grace did. Just as with the Spiritual Light, this water, being spiritual in nature, has no beginning and no end. It always was and always will be.

## **Nothing is Without an End**

This statement can be misleading. It needs another word added to it. It should read “Nothing **physical** is without an end.” Everything in the physical realm has a beginning and an end. Some people will say that, according to the laws of science, matter, and energy cannot be destroyed, only changed. While that is true as long as the physical universe exists, when that universe ends, so will everything in it, at least from a

conventional point of view. In actuality, the physical universe won't be destroyed, it will be gradually transformed from matter back into spirit, so it will go on, but in a very different form.

## **Prior to Darkness are Uthras**

Uthras is a name for Beings of Light, more commonly called Angels. They did exist before Darkness because they are part of the Spiritual Realm, and therefore, immortal. As the quote says, goodness and gentleness were also prior to Darkness. Love could be added to that list. They are aspects of God, the Beings of Light, and Heaven, or the Realm of Light. Like everything else in that realm, they existed before Darkness.

## **Inferior Darkness**

Darkness in the spiritual sense doesn't refer to the night or to a room with all the lights turned off. It refers to the realm of matter created by the Demiurge, or the fallen angels. This realm is inferior to the realm of Light because it is mortal and everything in it is mortal. It is the realm of death, disease, suffering, pain, and hunger. None of those unpleasant things exist in the Spiritual Realm created by the real God. Because the realm of matter was created by the false god, it is defective and has all those horrors and more. So it should be obvious that Light is greater than Darkness, and at some time in the future, Darkness will end and all will be Light.

# “The Sun Has a Mysterious Heartbeat, And We May Finally Know Why”

The heartbeat of the Sun is a complex, multi-rhythmic affair, beating in different ways according to various periodicities. We don't know what drives many of these solar heartbeats, but new findings revive and strengthen a link with the planets of the Solar System.

## “Whoa! Astronomers Just

# Discovered The Earliest Galaxy We've Ever Seen"

A newly discovered galaxy has just smashed the record for the earliest seen yet, presenting a major challenge to our current models of galaxy formation.

It's called JADES-GS-z14-0, and it's brightly gleaming in the early Universe, as it looked less than 300 million years after the Big Bang. A second recent discovery, called JADES-GS-z14-1, was confirmed to be nearly as distant.

The detections, astronomers say, are now "unambiguous", which means the Cosmic Dawn might have some 'splainin' to do.

**“ ‘Death Star’ Black Holes Can Rapidly Swivel Massive Beams Onto New Targets”**

In recent years astronomers have spotted signs that the jets of plasma particles fired out from supermassive black holes can actually change direction over time – and new research now shows the phenomenon can occur over a shockingly short time scale.

These jets are caused when heated material falling towards a black hole is channeled by powerful magnetic fields towards its poles and streamed back out into the cosmos. These beams of energy are thought to play an important role in star formation, so we need to know how they work.

Welcome to our monthly bulletin with information of interest to friends of Cosolargy International. In this issue, we bring you up to date with current and future events and provide a little background on our founder, the late Gene Savoy Sr, and his explorations into solar cultures, along with some uplifting words of inspiration.

If you are curious about the solar techniques and activities of our Community, contact us by using the Contact Form on the [Cosolargy International website](#). It will be forwarded to the appropriate representative for your area.

In these trying times, if you would like to have a prayer said for you or others, click the Prayer Request button at the end of this newsletter.

### The Origins of Cosolargy

#### *Quotes from Gene Savoy, Sr.*

"FOR MANY DAYS, the Blessed Child+ remained in his bed, reflecting within himself and refusing to eat. And his personage shone bright like gold. But, freeing himself from the pain of his body, the pure infant took leave of his bed; gathering his strength, he visited each member of the household: The Nurse, The Youth, and the rest of The Companions, touching them with his glorified hands. And they did recover from their infirmities.

"And Jamil+ spoke to The Youth as an aged patriarch in sympathy and understanding; for he saw that The Youth was inflamed with a desire to know the truth. He had been the earthly companion of The Child+ since his birth, and Jamil+ loved him. And the infant looked into the young man's eyes with Light+ that penetrated his heart. And he told him that it is not by individual effort alone that one advances toward understanding of God+ but by obedience, discipline, and service in fellowship; it is one thing to possess knowledge, another to experience it. And of what value is it to know if one does not know God+? Those at the beginning of the path must not stray, thinking that the mind can find wisdom; only the spirit understands wisdom. And The Youth understood his words without comprehending their full meaning, for his life's pursuits still lay ahead of him."
