

2018 Community Calendars Are on the Way

Cosolargy Chapel, Kurume, Japan, May 2017

© 2018 International Community of Christ - All Rights Reserved.

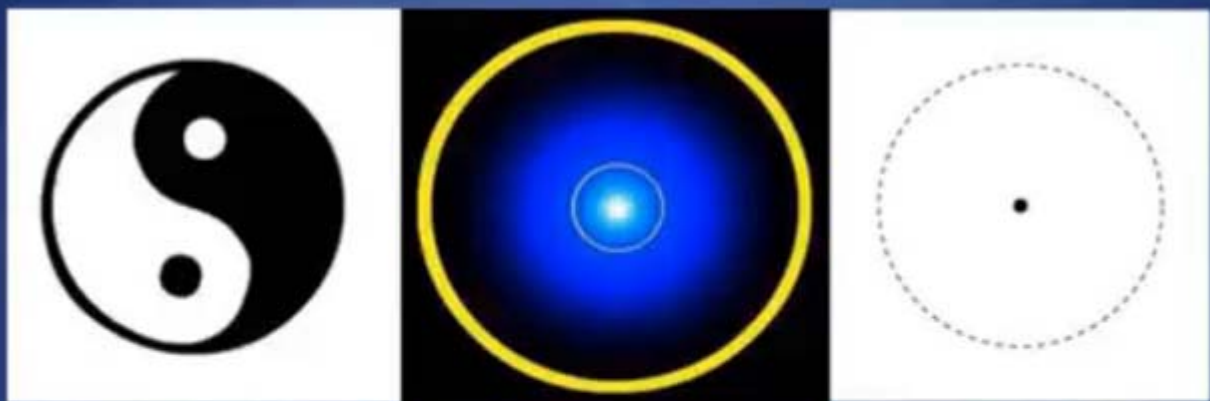

The 2018 Community Calendars are in the mail. You can expect to see one in your mailbox next week.

Our thanks go out to Deacon Stephan Fuelling for compiling and designing the calendar, and to Reverend Jim Elliott for printing it.

Don't forget to send in your donation to help defray production costs.

Gary Buchanan Speaks on Archetypal Images of Sound & Light

Archetypal Imagery:

An archetype can be defined as a communication, pattern or behavior, or prototype (model) which may be emulated – that is, an active form or function that is replicated, imitated, mirrored, or that engenders similar patterns of form and/or function. Such replications are said to be “canonic” in that they occur with mathematical regularity and often in “chains.”

The 2017 international Sound Healing Forum was hosted by Cosolargy International in Reno, Nevada, September 8-10. The

main presenters included Dr. Karl Maret, Bruce Kanzelmeyer, Master Yukinori Matsushita, and Dr. Gary Robert Buchanan.

Dr. Buchanan, Director of Wave Front BIOresonance Research & Development at Steamboat Healing Center, presented this lecture on “Cymatics, Sonotherapy, and Cosolargy: Archetypal Images of Sound & Light.” The presentation was a reprise of the same talk given to the International Light Association at the Annual Conference in Fort Lauderdale, during May, 2017.

**Trinity Cathedral
Consecration Attended**

Trinity Episcopal Cathedral
in Reno, Nevada

Bishop Gene Savoy Jr. attended as visiting clergy on behalf of the International Community of Christ to witness the consecration of Trinity Episcopal Church in Reno from church to cathedral. The Right Reverend Dan Edwards of the Episcopal Diocese of Nevada presided along with the Very Reverend William Stompske who was raised from the position of rector to dean. Approximately 30 choristers, 15 Episcopal clergy, and 100 lay people attended the ceremony.

Funeral of Judge Patrick Flanagan Attended

Judge Patrick
Flanagan

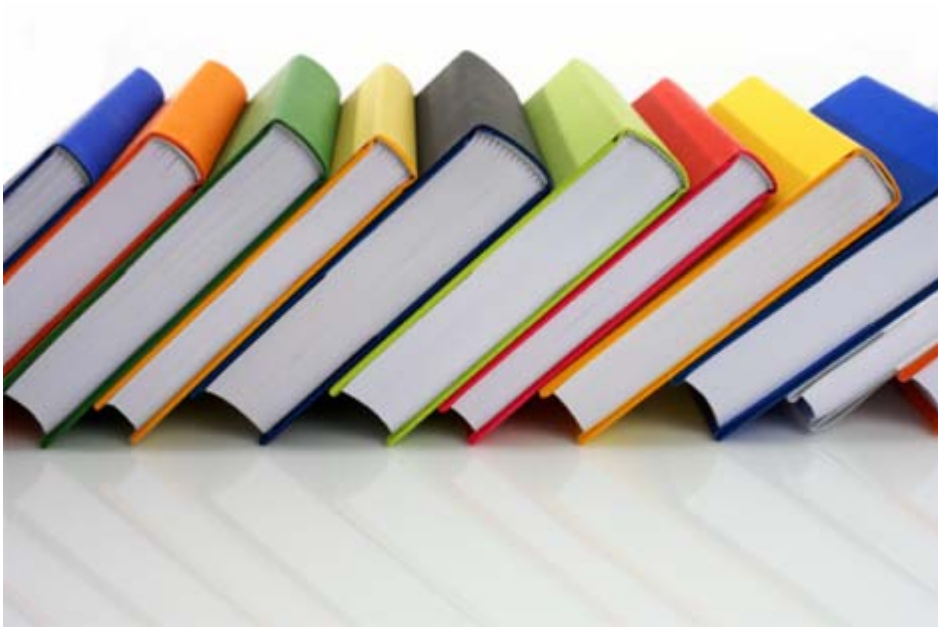

Funeral Mass was held for Judge Patrick Flanagan (1953-2017) on October 12, 2017 at Our Lady of the Snows Catholic Church, Reno, Nevada. Bishop Gene and Radhelka Savoy attended the service.

Flanagan, chief judge of Washoe County District Courts, was an acquaintance of Bishop Savoy and much admired by him.

His legal career began after graduation from California Western School of Law in 1978. Moving to Reno after graduation to work as a Washoe County Appellate Public Defender. As a Federal Public Defender he appeared in front of the US Supreme Court in *Sumner v. Shuman* (1987) and numerous Ninth Circuit court appearances.

Flanagan's obituary states: "He was a formidable champion for a fair, unbiased and just legal system. He never wavered in his pursuit for justice and quality legal services for all people regardless of money, citizenship, race, age, or religion. Prior to his death, he was pursuing his Masters in Law with a final thesis on expanding the role of Paralegals to assist the underserved community with mediation and pre-trial services. Throughout his legal career he was dedicated to upholding our Constitution and improving the legal system for all."

Book Reviews Needed

Fellow Consociates,

There are many ways in which we can engage in outreach for the community and we should all do some of them. One way is writing for the Communique and the Cosolargy blog. Sometimes we cant think of anything to write about though, so we have a suggestion.

We have all read many spiritual books as Academy students in Cosolargy. Most of us have read many other spiritual books on our own. Sometimes we find a book that is particularly interesting and fits in well with the teachings of Cosolargy.

If you have read such books, we would like to know about it. Write a review of the book that we can post on the Communique and possibly the Cosolargy Blog as well. Don't worry if you are not a writer. We can take your notes and rough draft, and smooth them out for you. Keep in mind that blog posts should be at least 300 words long. You might also want to include an illustration, probably the cover of the book.

This constitutes a form of outreach because the more content we have on the website and the more diverse the authors, the more people we attract to it. Since the website is our primary way of getting new leads, it is important to make it successful.

Email your submissions or questions about the project to

Harold@cosolargy.org or

Robert@cosolargy.org

Or see [the Submissions page on the Communique](#).

Gary Buchanan to Speak on

Cosolargy at 2017 International Light Association Conference

The Reverend Canon Gary Buchanan has been invited to speak at the 2017 conference of the International Light Association, to be held in Fort Lauderdale, Florida from April 29th through

May 3rd. Cosolargy International President Gene Savoy Jr and his wife Radheka will also be attending the conference.

Gary was invited to speak by the president of the organization, Anadi Martel, whom Gary met in Bulgaria at the 11th Annual Water Conference held in Sofia October 6-9, 2016. Mr. Martel offered Gary space to talk about any and all aspects of light, including "higher sciences," but advised him to create a bridge with more mainstream science through clinical and case studies when possible and asked Gary to devote a bit of time to Cymatics and the wonderful images and videos of sound resonance which he saw Gary present in Bulgaria. Gary's time slot is for 75 minutes, including a questions period. His talk, the final presentation on the final day of the conference, will serve as final summation and conclusion to the week-long gathering.

Members of the board of the International Light Association include internationally situated physicists and many others. Dr. Jacob Liberman, who spoke at the 2012 "Spiritual State of the World Conference" in Reno is also on the board and will evidently be presenting this year. Dr. Jim Oschman, also a speaker at a number of the "Spiritual State of the World" conferences sponsored by Cosolargy International, has presented at the International Light Association conference in the past. Other presenters will include Gerald Pollack, director of the EZ water conference in Bulgaria, and Fritz Albert Popp, pioneer in biophotons. There will also be numerous individuals involved in sun-gazing and photosyntonics, light medicine and related technologies, and the study of ancient religions of the east. More can be reviewed on the board at <http://www.international-light-association.org/board>.

The 2017 conference of the International Light Association promises to be a good meet-up with people who may be interested in the principles taught by Cosolargy International. This conference may also establish inroads to

other conferences and the groups that sponsor them.

The ILA's purpose is to create a bridge between the scientific and the energy aspects of light, and participants include people working with both mainstream light medicine and more esoteric traditions. The web site of the International Light Association, which has the conference up front, may be viewed at <http://www.international-light-association.org/>.

Be sure to view Gary Buchanan's front-page preview on the web site [as well](http://www.international-light-association.org/event/conf-2017/presenter/gary-buchanan) (<http://www.international-light-association.org/event/conf-2017/presenter/gary-buchanan>).

Cosolargy in Japan Expands Outreach Publications

Cover of the Japanese edition of
Jamil: Child of Light

The Cosolargy Institute in Japan (CIJ) recently completed several new translations of Community books.

CIJ began offering the 24-month program Academy Symposium to the first group of Japanese students on February 2, 2010. The first group of Japanese student finished the 2 year program "Academy Symposium" in 2012. A while later, the Japanese Community prepared to publish Japanese editions of several books related to Cosolargy.

Since 2012 was the 50-year cycle after the appearance of the Sun of Righteousness in 1962, the Community in Japan thought it was a very good time to begin publishing these books for the public in the year celebrating the 50-year cycle. They started publishing the following year, in 2013.

Because the Institute of Cosolargy Japan is prohibited from any business transaction, in order to protect our teachings

Cosolargy Japan consigns, publish, and distributes all Japanese edition books through E-Ma. Sound Corporation, which is the sound therapy company of Bishop Yukinori Matsushita.

The first book published by the Japanese Community was Project X: The Search for the Secrets of Immortality. The publication of this book was followed by a second book, Jamil: Child of Light, and a third book, Prophecy of the End Times. All these books represented the physical body, the psychic body, and the Light (Spiritual) body in various ways.

The Community in Japan picked publication dates for these books that were connected with the author, Gene Savoy Sr. For example, May 11 was his birthday and August 8th was the first time he spoke about Cosolargy in public to the people in United States of America, and the anniversaries of these dates were used as dates of publication.

Marie Momoi, a professional translator, is also a Japanese student of Cosolargy, and it is she who translated two of the books recently published in Japan, Project X: The Search for the Secrets of Immortality and the The Lost Gospel of Jesus.

Bishop Yukinori Matsushita, translation supervisor, made some valuable comments in the foreword to the new Japanese edition of the The Lost Gospel of Jesus. A translation appears below:

Japan is making big social changes as the Tokyo Olympics approach in 2020. It might be God's blessing that we are able to publish this book in this time. The story of Jesus is not quite familiar in Japan. Here Christian churches are looked upon as places where people can study in English or hold a Christmas Service or study a little bit in Japanese about the Bible. But we can find stories about Kobo-Daishi or Prince Shook that are similar to the story of Jesus. Kobo-Daishi preached about "Sokushinbutsu," which can be interpreted to mean, "the possibility of creating a Buddha body while alive." Jesus also said, "Unless a man be born again of fire

and water, he will never enter the kingdom of heaven.” So we can find commonality between both stories.

Originally the teaching of Jesus Christ was a teaching of Light – walking in Light, living in Light, or living The Way to enter the Worlds of Light. But these teachings were given orally and do not exist in written form because these teachings are paradoses, prohibited to be told outside the school and never to be printed. This book, The Lost Gospel of Jesus, provides an explanation of the paradosis teaching. There is a book called The Child of Light written about how this teaching came into the this world at this time. I recommend reading The Child of Light if you are interested.

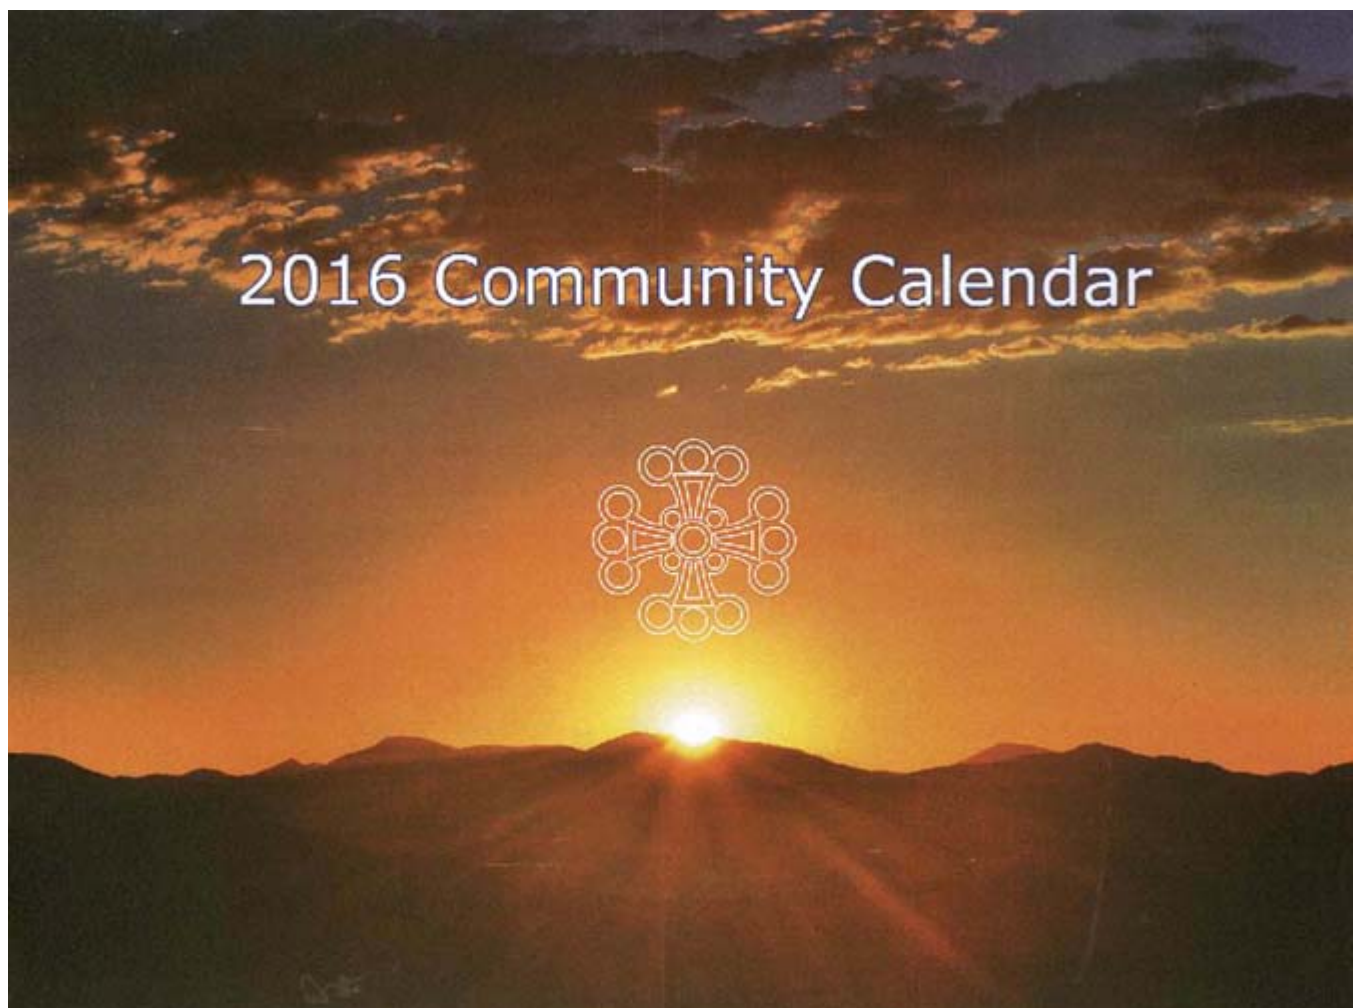

The translation of the present book, Lost Gospel of Jesus, was very difficult because there is not much information about Jesus in Japan. But translator Marie Momoi researched very carefully and found much information through her efforts. I am very grateful for her hard work and determination. The original edition of The Lost Gospel of Jesus: Hidden Teaching of Christ was written by Gene Savoy Sr. in 1978. This book gave great inspiration to people to seek the teachings of Light in English-speaking counties. I hope this Japanese edition of the book conveys the true teaching of Jesus to Christian seekers in Japan looking for truth in this modern age.

Send in your best photographs for the 2017 Community Calendar

It is time to begin assembling the 2017 Community Calendar.

Our publishing staff is again looking for your best photos related to Community life.

Requirements for submissions:

- 1) Landscape format
- 2) High resolution (10 x 7.5 inch @ 300dpi = 6.75 Megapixels)
- 3) Name of person that took the picture
- 4) Date of picture (approximate date ok)
- 5) Location of picture and/or event

Send in your photographs before the end of December 2016 to:
editor@communitycommunique.net.

**Gary Buchanan Speaking at
International Water
Conference**

Reverend Canon Gary Buchanan will be in Sofia, Bulgaria October 6-9, 2016 to speak at the 11th Annual Water Conference. He will be speaking along with Dr. Gerald Pollack, an old colleague of his who has gained fame in recent years for his theory of fourth-phase water, and who is chairing the conference, and along with several Nobel Prize laureates. Rev. Buchanan's work on Sonotherapy and his use of water to form archetypal cymographs made him a candidate for speaking at this prestigious international conference. In fact, his cymographs have gained so much interest that the conference organizers are using his cymographs on their Facebook page and throughout their newsletter.

Use the links below to find more information on the conference and to follow the conference live or streaming on Facebook.

Follow this link to the web site of the 11th Annual Water Conference:

<http://www.waterconf.org/>

Follow this link to the participants list where Rev. Buchanan is listed, and where you can read more about his research and the talk that he will be presenting at the Water Conference:

<http://www.waterconf.org/participants-materials/2016/>

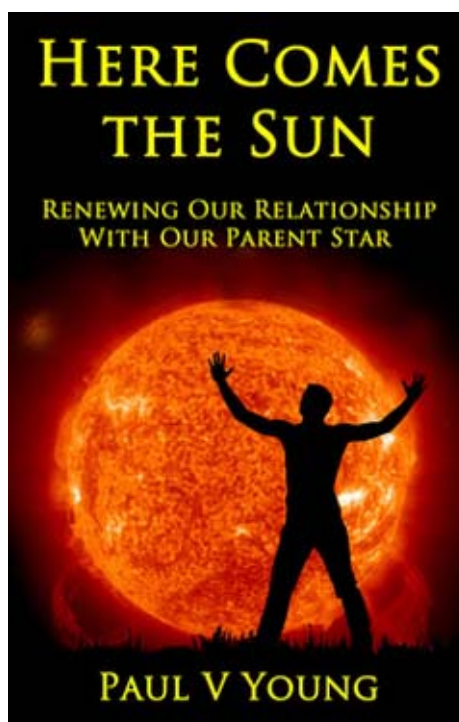

Here is the link to the Facebook page where you can follow the conference live or streaming:

<https://www.facebook.com/waterconf/>

Rev. Buchanan will be speaking from Sofia, Bulgaria on Sunday, October 9, 2016 from 10:10-10:45 AM, which translates to 12:12 AM October 9, 2016 – 10 hours earlier.

His talk is titled “SONATHERAPY®, CYMATICS, AND PHONON CHAINS: The Healing Potentials of Sound in the Body’s Vicinal Waters.”

Here comes “Here Comes the Sun”!

Cover of the new book
“Here Comes the Sun” by
Academy Consociate Paul
Vernon

Academy Consociate Paul Vernon has just completed his second full-length book *Here Comes the Sun*. The book is available for sale in ebook and kindle format on the Smashwords web site, where you can read more about the new book and read a 6000-word sample for free.

[Visit the *Here Comes the Sun* page at Smashwords.com to buy a copy or read a sample.](#)

Here is how he introduces his new 40,000-word volume:

“It is time to see the Sun in a new light and elicit its secrets. Today there is resurgence in the practice of Sun-gazing, along with the therapeutic use of Sunlight and colour. While the Sun’s benefits in providing vitamin D and aiding in the healing of depression have been known for some time, there are new revelations in 2016 that it prevents myopia and slows its advance. It is less well known that human biology reacts in a very direct way to the rotations of our star. A number of prominent doctors have come out to publicly endorse the absorption of Sunlight in the human eye and skin, using common sense to avoid over exposure.

“In the scientific field during 2016 researchers are making new discoveries about the ways our planet is intimately connected to the Sun by invisible strings, and the real impact it has on our weather patterns and climate change. Quantum physics shows there may be corresponding connections on a different dimensional level that result in wormhole-type tunnels that bridge our earth to the Sun and beyond.

“Historically the star of our solar system has been honoured by the construction of megaliths such as Stonehenge and

Glastonbury in England, Nabta Playa in Egypt and the Temple of the Sun in Mexico. Now alternative researchers believe there is evidence that solar power was harnessed and distributed in structures such as the pyramids and that giant obelisks such as the one at Abu Gurab were actually electrical transmitters. The concept and application of this fits perfectly with the theories of the 20th century genius Nikola Tesla. Great leaders in ancient Egypt, Greece and Rome were guided by mystical activities based on what may be called the solar sciences, and their traditions survive today within certain secretive societies.

“Authors such as James Redfield have suggested that the human body may be destined to evolve into what is known as a light body, and this is now supported by scientific research into matter being constructed of photons. Along with modern technology’s steps towards transhumanism and artificial intelligence, we are witnessing the emergence of a new breed of humans referred to as Indigo children and the Super Psychic kids. Modern day organizations such as Cosolargy suggest that the transmutation can be accomplished by the intake of the Sun’s rays. [emphasis added]

“Spirituality has a role to play in our reconnection with the sun and the technique of ‘Incubation’ as practised by the ancients, called the Way of the Iatromantis, provides an avenue in the pursuit of activating our light bodies and making the next evolutionary step. In rethinking our relationship with the Sun, we see a way forward into a future filled with light.”
