

2019 Community Calendars Ready To Go

The 2019 Community Calendars are in the mail to those who have already ordered a copy. The calendar contains significant dates of liturgical observance and remembrance as well as recommended dates for solar viewing following the Lunar/Solar Cycles Generative Technique (familiar to those who have progressed through The Cosolargy Papers). Thanks go out to Deacan Dr. Stephan Fuelling, who compiled and designed the calendar in consultation with Bishop Gene Savoy Jr.

If you would like to receive a printed calendar and have not yet made your order, please contact Elizabeth Reece at the Chancellery offices by phone during normal business hours (775-786-7827 ext. 101) or by email at nereece@communityofchrist.org.

Gary Buchanan Speaks at 7th International Globe Sound Healing Conference

Gary Buchanan presents at Globe Sound Healing Conference in 2018

[Follow this link to pages on the intention, presenters, exhibits, and workshops held at the 7th International Globe Sound Healing Conference: https://soundhealingcenter.com/conference/](https://soundhealingcenter.com/conference/)

Reverend Canon Gary Buchanan presented on Sunday, October 7th at the 7th International Globe Sound Healing Conference held October 6 – 8, 2018 at Temple Congregation Sherith in San

Francisco. Reverend Buchanan presented primarily on Sonotherapy, but spoke a bit on Cosolargy and the Steamboat Healing Center and Spa as well.

Gary demonstrates the applicators with various sound frequencies on a member of the audience. About 50 people were in attendance.

There are two primary intentions of the sound healing conferences sponsored by the Globe Sound and Consciousness Institute:

- (1) to raise consciousness and bring people into higher states of awareness more consistently by disseminating techniques and information and with experiential exercises to actually go into these states.
- (2) to bring sound healing into mainstream homes and hospitals

and gain more acceptance by helping the public to understand the science and effectiveness behind sound healing and by providing a venue for sound practitioners, the public and the medical community to meet and form connections and alliances.

The 7th International Globe Sound Healing Conference was held October 6 – 8, 2018 at Temple Congregation Sherith in San Francisco, one of the oldest Jewish synagogues in California. The Jewish congregation that built the synagogue was formed in 1850. The building was erected in 1904/05 and survived the great San Francisco earthquake and fire of 1906.

This year's conference was held in Spectacular Temple Congregation Sherith – 2266 California Street, San Francisco

Welcome to Easter Brunch 2018 »

PHOTO CREDIT: Elizabeth Reece On April 1, 2018 members of the resident Community and friends attended a traditional Easter brunch hosted at the Rectory-Abbey at Bishopstead. The gathering was a happy one and the arrival of Spring added a note of joy [Read More]

A lot of people are not aware of know this, but **every edition of the Community Communique in our possession from 1971 to the present is archived online.** Where? Right here at

communitycommunique.net.

If you go into the “From the Archives” category under “SPECIAL REPORTS” and click on the last page in the archives, you will be taken to the earliest dated post in our online archive: October 1971. There you will find a facsimile copy of the “Cosolargy Report” from that month, which you can read online or download and print. From there, through a series of links, you will be led through every edition of the communiques we have all the way up to 2009.

The “Community Communique” has been published in several different forms over the years. And some years, not at all. Here is a quick rundown:

From 1971 through 1992, you will find PDF facsimiles of all the print editions we have in our archive.

The Research Associate may have detected that the musical tones obtained from striking the triangle, and/or tuning forks, against a wooden table and listening to the results, has a tendency to sensitize the sense of hearing. This is especially true of anyone musically inclined.

This month the Associate may wish to experiment with the triangle, and/or tuning forks, prior to, during and following intake of solar energy via regular eye absorption (see diagram). The technique is particularly effective at sunrise periods, and we encourage each to make every effort to experiment during the month (and eventually to make it a permanent part of the routine of absorbing light energy).

Our own experiments at the Mexican Center have shown that early morning practice sessions attunes the inner ear to acute perception, which lasts during the remainder of the day. While the effects of the technique are decidedly aesthetic, hearing is sharpened, as it were, to the slightest sounds. This makes one susceptible to the "music of the spheres" spoken of by the old masters, e.g., inner sounds of indescribable musical tones not part of the third dimension, which seem to come and go of their own accord almost before they can be discerned.

In the September report, I explained that striking the triangle and tuning forks (which hang near the door to my study) during the working day, evokes the most beautiful sensations and emotions. I often carry a tuning fork and strike it from time to time on a wooden object, and listen to the vibrations. As mentioned before, it has a most aesthetic quality which I recommend to other researchers in Cosolargy.

Advanced uses of tones will be given in future papers. These will depend entirely upon the reactions to experiments, as contained in reports sent to me, and/or a Preceptor, or Preceptress.

From 1971 to April 1972, the communiques were one-page monthly reports.

Volume XXIV No. 2

Dear Associate:

Desert Seminars are being held in Reno during the week of 15, 16, 17 of October and during the weekend of 25, 26, 27 of October. For information telephone Rev. Loren Lewis, 702-786-7827.

Graduates who have completed studies are now eligible for ordination at the Sacred Oversee in Reno. This includes Associates who go back to the Penzance school and all those who have completed at least eighteen months of study. A special letter on this subject is being mailed to those qualified. For further information call the Center.

The Community's Code Book and Manual is currently being prepared for the press. This important volume (Codex III of the Sacred Teachings of Light series) is an integral part of the program and gives greater meaning to the individual's participation in advanced programs.

The Community's Dream and Vision Analysis Handbook has finally been scheduled for publication next March, 1975, following the release of the Code Book mentioned in the above paragraph. Those who have already ordered this volume will be glad to know that the book is to include a large number of archetypal symbols and references.

The economic situation in the United States and other parts of the world dictates that all Associates and Reverends do their very best to tighten budgets and, above all, in find ways of saving money by eliminating unnecessary purchases. Food prices are still below those of other developed countries. By refusing to buy products that are not absolutely needed, by shopping and looking for buys, savings can be made. A good place to begin is with the businessman. Look for bargains, try to lower the price if you make a cash purchase. Eliminate interest rates on credit cards or charge accounts. By going on cash basis you can insist on 2 percent discount; if not given, shop elsewhere. The secret of lower costs lies with the consumer who must go back to the cost-conscious consumer attitude prevalent in the 1920's and 1930's. Cut buying and costs will automatically lower.

THE AUTOMOBILE HAS BECOME A CONSUMER SPONGE due to high cost of purchase price, interest rates, high insurance, taxes and ever-increasing cost of fuel. License and registration fees as well as police vigilance on the municipal and state level with resulting fines for speeding over the very low speed limit of 55mph make driving a responsibility that some are finding unbearable. The automobile is the major polluter of the atmosphere, yet industry continues to make high horsepower engines that consume large amounts of gasoline with low mileage and dangerous exhaust. Automobiles dominate downtown streets and are a nuisance to pedestrians. Fifty thousand men, women and children are killed each year in automobile accidents. Because of these considerations, the consumer should either cut down on the use of the automobile or, when possible, eliminate it entirely and rely on buses, taxis and other public or collective transportation systems.

After that, four-page news reports were published under various names until 1974, when the name "Community Communique" appeared for the first time. This has been the title of our Community newsletter since that time.

DECEMBER 23, 1981

Public worship inaugurated in Reno Episcopate Supreme Archdiocese Holy Chapel of Child Christ dedicated in inaugural public service

The new and modern Holy Chapel of the Child Christ, located in the Chancelery Building of the Community, was dedicated in a Consecration Service held last August 23rd. The dedication was followed by Public Worship Services — the first in the history of the Church.

The service of consecration and the inaugural public worship service were officiated by The Right Reverend Gene Sorey, Head Bishop of the Second Order and Episcopate Archdiocese of Nevada. The Right Reverend Philip W. Snyder acted as Assistant Pastor.

The service, which lasted one and a half hours, commenced at eleven o'clock Sunday morning and consisted of an exhortation, presentation, liturgical readings and hymns, a communion of fellowship, and a final blessing.

Rev. Snyder initiated the services with a reading of *The Decree of Establishment of the Holy Chapel of the Child Christ of the Community of Christ Church of the Second Advent of God and Christ of Truth*, which established the use and purpose of the Chapel: "That a Public and Orderly be provided for the giving of the Sacraments and Scriptures entrusted into the care of the Church," and "that it serve as a house of public worship of God at His Second Coming."

The names of Major Deacons, Endowers, Minor Deacons and Guild Deacons were also announced. These names will be engraved on a plaque which will be prominently placed in the Chapel.

Following acceptance and signing of the document, and the affixing of the Great Seal of Christ and the seals of the Church, the Rev. Sorey dedicated the Chapel with a Hymn of Thanks, Invocation, and a chanted Psalm after which followed a Benediction and a Blessing to the congregation.

The Public Worship Services comprised scriptural readings, sermons, a choral of the creed of the ordinance followed by a psalm and prayer.

In his sermon, *The Dawn of the Second Coming and the New Advent Church*, Rev. Sorey stressed the manifestation of God's Image and Word in the Spiritual Son of Righteousness and God's Second Coming in Messiah, as was prophesied by Moses and the Prophets, and by Jesus.

The service reaffirmed that the spiritual Light sent from God as a gift to the human family has shined in the Second Advent and fulfilled the Church of the First Dispensation as was declared by the righteous Child of Light. It also underlined the concept and belief held by the Church that God shall manifest to mankind as a sole savior for the last and final time at His Second Coming. The sermon further emphasized the importance of the Ministry of the Second Advent which has in its sacred mission the preaching and dissemination of the Teachings of Light to Christendom and the world at large.

Prior to the final blessing Rev. Sorey called upon the congregation — the ordained, and guests (regardless of their

religious beliefs) — to participate in a consecrated meal of fellowship as a symbol of our common humanity and dependence on the One True God. All partook of the sacramental elements of bread and water over which a prayer was said calling upon God to infuse them with His blessing for the greater health of the congregation, and the unity of His ministry to the world over.

Throughout the services, which began with selected Christian hymns, bells, and the proclamation of *Long Welcome Words*, and concluded with the recited *Prayer to God's Son of Righteousness*, the Chapel was filled with the melodious sounds of organ music originally composed and arranged by Rev. Gary Robert Buchanan, organist and musical director of the Church. Of particular beauty were the background selections accompanying the cantatas of the liturgy.

It was fitting that the public announcement of God's Second Coming into the world as the savior to Christ occurred at the Consecration Service of the lovely Chapel dedicated to the Holy Child who brought "Good Tidings" of this spiritual event, and who laid the foundation for the Church of the Second Advent before returning to the Father whence He came.

The service represented a milestone in the public life of the Church for with it was launched a new era of evangelical and charitable works for the uplifting of humankind which will go hand in hand with the Church's world mission to begin in 1982. ♦

But the form of the Community Communique has changed over the years. The newsletter was first published as a four- page newsletter from 1974 through Spring 1982.

FALL
1993

Bishopstead project nears completion

Parsonage extension is solar heated

The expansion of the Bishopstead on La Poudre Drive in Raton is drawing to completion. The "east wing," an addition of a 10,800 square-foot structure to the existing Rectory-Abbey, will serve as parsonage for The Reverends Tyrin and Arlene Peace, Architect of the Church. It will also house the local Bishop's Study and Private Library.

The building features two solariums which collect solar heat that is circulated throughout hollow walls by blowers. Exterior walls are heavily insulated for heat retention, affording a near-100 percent efficiency of solar energy conservation. A backup electrical heating system takes over during cloudy days. On hot summer months, night air is drawn into the solariums to cool the structure, maintaining a constant comfortable temperature inside the dwelling.

Connecting foot-paths, desert gardens, terraces landscaped with numerous pine trees and juniper shrubs, and a continuous concrete-black retaining wall with terrar-

eviation force will embellish the grounds.

The Building Guild, under the over-see-ship of its Director, The Reverend Nelson Dechenness, is responsible for ninety-five

percent of the construction. The project was begun in August of 1982 and is scheduled for completion by the end of this year.

The existing Rectory-Abbey of Bishopstead with "East Wing" addition near completion

Parochial School begins academic year

Emphasis is upon wide-range learning

The Jersidan Parochial School began the 1993-94 academic year on Saturday, September 5 with a 4-day Orientation during which schedules were presented and explained to parents, students, and faculty.

As a co-educational parochial institution, the School primarily provides for the education of children, ages 6 to 13, whose parents or guardians are ministers under vows.

This year's curriculum offers a broad range of academic and pre-ministerial instruction. In Middle School, students will be prepared, at Grade Level, in the following subjects: Spanish, Chinese, Reading, American and World Literature and Composition, Language Arts, Mathematics,

Science, Health and Anatomy, American and Global Studies, Environmental Studies, Etiquette and Decorum, Art, Calligraphy, Practical Arts, Safety and Survival.

The Elementary School offers studies in Spanish, Language Arts, Reading, Spelling, and Handwriting, Mathematics, Science, Health, Social Studies, and Art.

All students participate in the Aquarius Program, as well as in Music, Handbell Choir, Chorus, Religious Studies, and Chapel Services.

Other physical recreation activities are undertaken on a weekly basis, individually; or in group, periodically, under the auspices of the School Administration.

(See SC1001, page 2, col. D)

The Reverend Nelson Dechenness (L) confers with student Raulo Gavril (R) over final plans

Then in Fall 1982, the publication expanded. More pages were added as time went on. Along with that came more pictures and longer, more detailed articles. The print edition went on in this format for ten years, from 1982 through 1992.

COMMUNITY COMMUNIQUE: WINTER 1993

*NOTICE: The Winter 1992 edition was the last **Community Communique** published until the Spring 1995 edition. From Spring 1993 through Winter 1995, the quarterly publication of **The Community Communique** was on hiatus, picking up again with the Spring 1995 issue. For this reason, you will not find archive copies of the print **Community Communique** from Spring 1993 through Winter 1994. However, we are providing coverage of Community events for this season in the collection of articles you will find below.*

VOLUME XXXIX SPRING
NO. 1 1995

CHURCH SELLS DOWNTOWN PROPERTIES TO HOSPITAL

University, Parochial School, Production Facilities to be Relocated

The International Community of Christ Church has sold three of its downtown properties to neighboring St. Mary's Regional Medical Center. The buildings on these properties have held The Church's production and printing facilities, Parochial School, Episcopal See, and University facilities for over a decade.

In April 1994, St. Mary's Medical Center first approached The Church about purchasing its four downtown properties—the Chancery, the Annex, the School and the Episcopal See building. The initial price St. Mary's offered was not satisfactory to The Church, neither was The Church willing to sell the Chancery building itself. Further negotiations continued on and off for about a year.

The Church originally purchased the downtown buildings in 1979-80, not only to accommodate the various functions and facilities of The Church but to make an investment. The Church purchased the buildings with the knowledge that these properties could be sold to St. Mary's at some later time, when they would no longer be worthwhile for The Church to maintain.

The Reverend Gene Savoy, Jr., The Church's financial officer, said, "We were located in a very good spot because of St. Mary's Regional Medical Center. They owned all of the property on the three or four surrounding blocks, except for ours and one other." The sale agreement was made between the end of March and the beginning of April. "We close the deal on May first," Rev. Savoy said. "We agreed that we would be moved out on the first of May, and that they would legally take possession on that day."

The medical center insisted on completing the sale quickly. Rev. Savoy explained, "As I understand it, the hospital were through some very serious administrative changes, especially in the area of management personnel. They got a new managing staff, and that may have had something to do with it. Besides, the hospital is always in need of expansion."

been worked on for months, or years, that were suddenly scrapped, and he had a fear that something similar might happen to us, that they might have a change of mind. He did not want us to be caught in that type of a situation."

The Right Reverend Berno Castelli, head of The Church's Department of Ecclesiology and responsible for overseeing the actual move, first learned of the sale and the impending move only two weeks before it was scheduled to occur.

"Because St. Mary's wanted us to move out by the 15th of April, I looked

Exterior view of the building at 626 Robison Street that housed the Episcopal See and University.

"Our real estate broker advised us to close the deal as quickly as possible because things at the hospital were uncertain in regards to the administration. He knew of plans that had

for an extension," Rev. Castelli said. "I knew we did not have enough time to move the See, the School and the Annex in fourteen days, so I asked for a

Continued on page 2, column 1

The Summer 1996 edition was the last Community Communique published until the Winter 2007 edition. For this reason, you will not find archived copies of the Community Communique from

Fall 1996 through Fall 2007. For these years you will find major events from each season of those years described briefly in a short post.

The Communique appeared in a print edition again from Winter 2007 to Winter 2008, and this time with color photographs.

Since 2009 the Community Communique has been published as an online weekly newsletter. In its present form, we publish five or six posts weekly for an annual total of about 200-300 posts per year. To date nearly 2000 articles of various kinds and lengths are posted online. Every one of them is accompanied by photos, and a number of them are photo galleries. We have also published longer articles in serial form from week to week. These you will find in the Insight and Perspective sections.

And we welcome submissions from Community members.

However, we do have one problem with our archive of past editions of the Communique: We do not have every single edition in our possession. This is where some of our long-time Community members, particularly those who have been members since the early 1970s, can help to fill the gaps. Our archive is missing a number of editions from 1971-1975. If you are a long-time Cosolargist, check your collection and if you find an edition we do not have please send us a copy of what we are missing.

Church Offers Chapel Weddings in Reno & Lake Tahoe Area

**INTERNATIONAL
COMMUNITY OF CHRIST
CHAPEL OF THE HOLY CHILD**

The International Community of Christ's elegant Chapel of the Holy Child glows with the natural tones of wood and tile. Skylights fill the room with natural light and send a bright and airy atmosphere. This is a great setting for those who wish a religious wedding ceremony. Non-denominational services are provided for couples of any background. The Chapel will accommodate up to 80 guests and is located in downtown Reno. High quality professional flowers will make your special day one to remember and our wedding coordinator will help with planning your event.

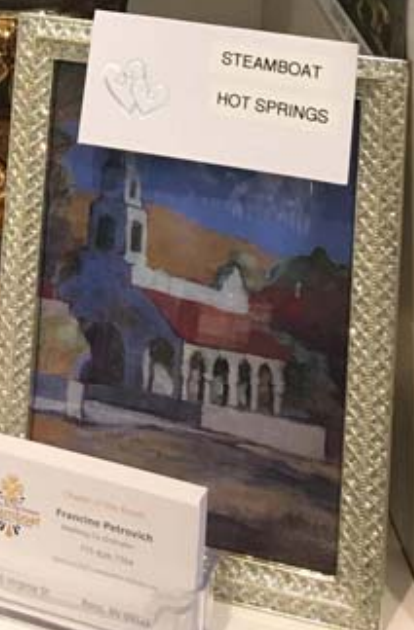

**STEAMBOAT HOT SPRINGS
HEALING CENTER
CHAPEL OF THE ROSES**

Steamboat Hot Springs Healing Center's Chapel of the Roses is a quiet and charming venue for small weddings. The Chapel has a turn-of-the-century look, with rose motif stained glass windows, deep red chairs and restored original wooden floor. The Chapel will accommodate up to 30 people. Non-denominational services are provided for couples from any background. Our trained professional florists will make your special day memorable and our wedding coordinator will help plan the event. Steamboat offers a wedding reception area situated along the banks of Steamboat Creek with a beautiful view of the Virginia Pool and additional outdoor space available in warm weather. The beauty of nature are the background for your reception.

Steamboat Hot Springs and Healing Center's Chapel of the Roses is a quaint and charming venue for small weddings. The Chapel has a turn- of- the -century look, with rose motif stained glass windows, deacon's chairs and old style chandeliers. The Chapel will accommodate up to 30 people for any type of wedding. Our trained ministers can assist you with planning your special day. Steamboat offers a wedding reception area situated along the banks of Steamboat Creek with a beautiful view of the Virginia foothills and additional outdoor space available in warm weather. The sounds of nature are the background for your reception.

2018 Community Calendars Are on the Way

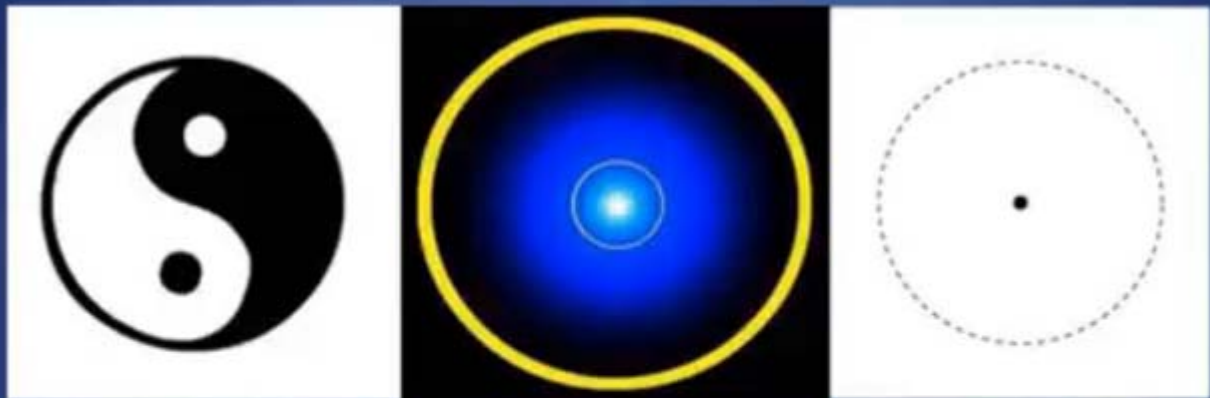

The 2018 Community Calendars are in the mail. You can expect to see one in your mailbox next week.

Our thanks go out to Deacon Stephan Fuelling for compiling and designing the calendar, and to Reverend Jim Elliott for printing it.

Don't forget to send in your donation to help defray production costs.

Gary Buchanan Speaks on Archetypal Images of Sound & Light

Archetypal Imagery:

An archetype can be defined as a communication, pattern or behavior, or prototype (model) which may be emulated – that is, an active form or function that is replicated, imitated, mirrored, or that engenders similar patterns of form and/or function. Such replications are said to be “canonic” in that they occur with mathematical regularity and often in “chains.”

The 2017 international Sound Healing Forum was hosted by Cosolargy International in Reno, Nevada, September 8-10. The main presenters included Dr. Karl Maret, Bruce Kanzelmeyer, Master Yukinori Matsushita, and Dr. Gary Robert Buchanan.

Dr. Buchanan, Director of Wave Front BIOresonance Research & Development at Steamboat Healing Center, presented this lecture on "Cymatics, Sonotherapy, and Cosolargy: Archetypal Images of Sound & Light." The presentation was a reprise of the same talk given to the International Light Association at the Annual Conference in Fort Lauderdale, during May, 2017.

< [Watch Gary Buchanan's Cymatics, Sonotherapy, and Cosolargy lecture online on YouTube \(55:21\)](#) >

**Trinity Cathedral
Consecration Attended**

Trinity Episcopal Cathedral
in Reno, Nevada

Bishop Gene Savoy Jr. attended as visiting clergy on behalf of the International Community of Christ to witness the consecration of Trinity Episcopal Church in Reno from church to cathedral. The Right Reverend Dan Edwards of the Episcopal Diocese of Nevada presided along with the Very Reverend William Stompske who was raised from the position of rector to dean. Approximately 30 choristers, 15 Episcopal clergy, and 100 lay people attended the ceremony.

Funeral of Judge Patrick Flanagan Attended

Judge Patrick
Flanagan

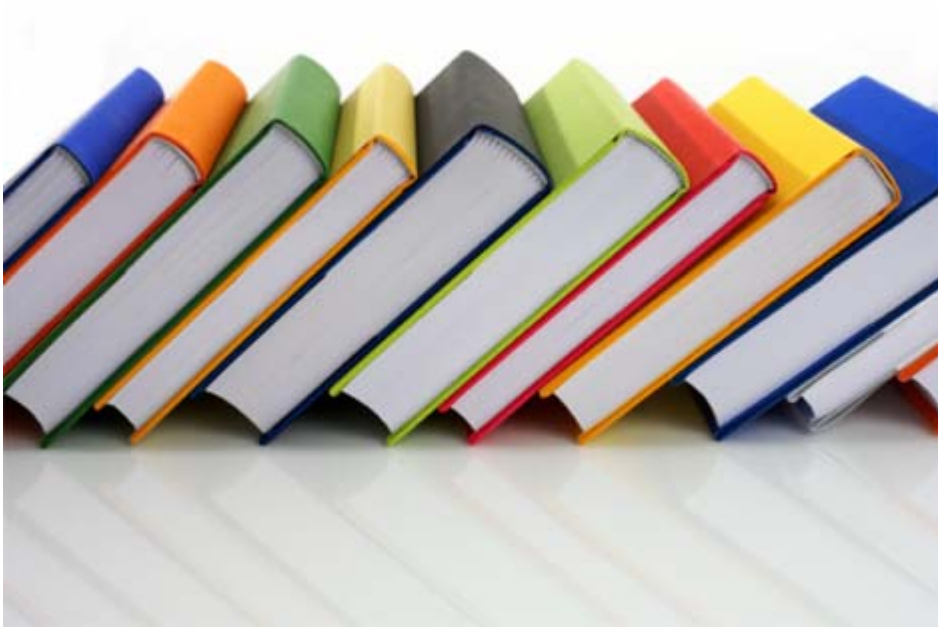

Funeral Mass was held for Judge Patrick Flanagan (1953-2017) on October 12, 2017 at Our Lady of the Snows Catholic Church, Reno, Nevada. Bishop Gene and Radhelka Savoy attended the service.

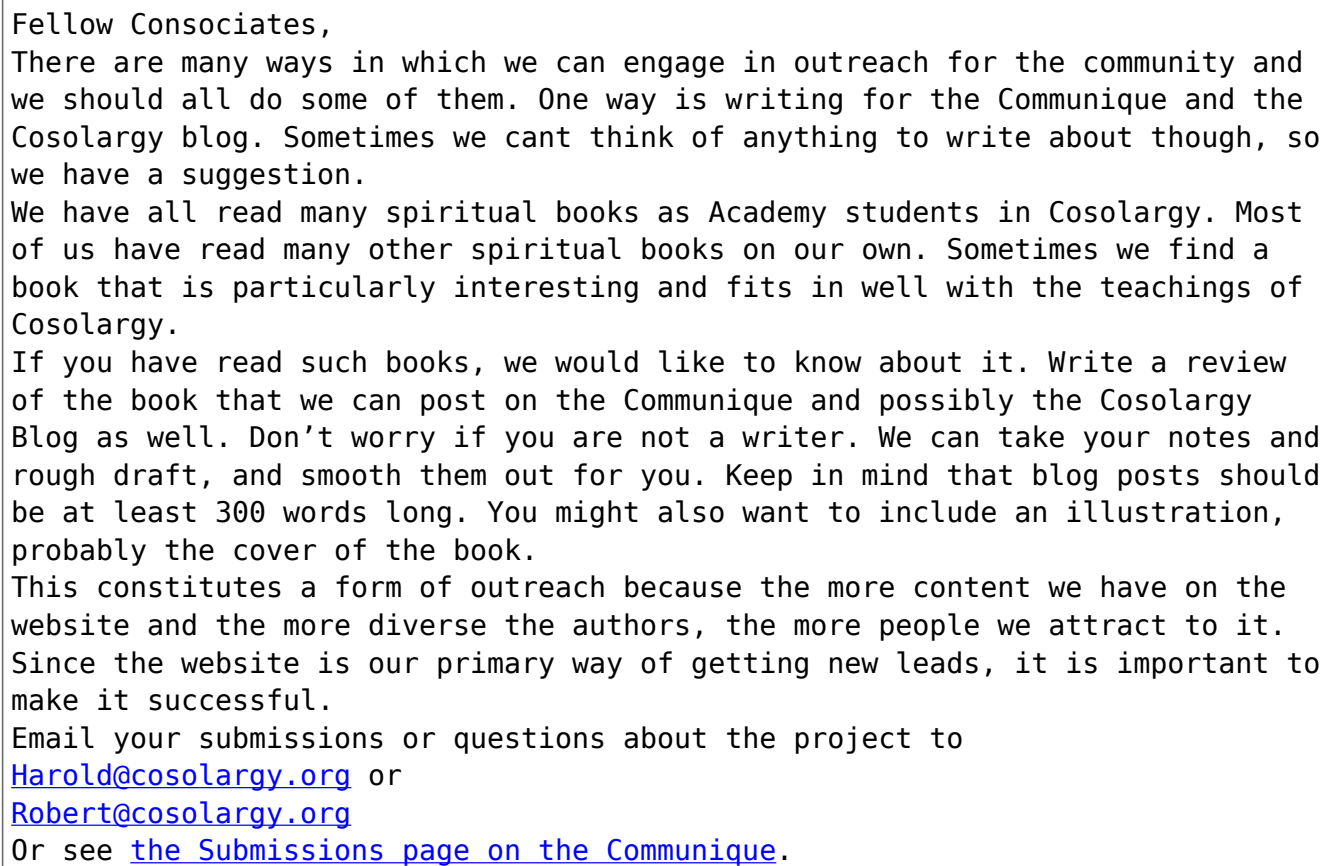

Flanagan, chief judge of Washoe County District Courts, was an acquaintance of Bishop Savoy and much admired by him.

His legal career began after graduation from California Western School of Law in 1978. Moving to Reno after graduation to work as a Washoe County Appellate Public Defender. As a Federal Public Defender he appeared in front of the US Supreme Court in *Sumner v. Shuman* (1987) and numerous Ninth Circuit court appearances.

Flanagan's obituary states: "He was a formidable champion for a fair, unbiased and just legal system. He never wavered in his pursuit for justice and quality legal services for all people regardless of money, citizenship, race, age, or religion. Prior to his death, he was pursuing his Masters in Law with a final thesis on expanding the role of Paralegals to assist the underserved community with mediation and pre-trial services. Throughout his legal career he was dedicated to upholding our Constitution and improving the legal system for all."

Book Reviews Needed

Gary Buchanan to Speak on

Cosolargy at 2017 International Light Association Conference

The Reverend Canon Gary Buchanan has been invited to speak at the 2017 conference of the International Light Association, to be held in Fort Lauderdale, Florida from April 29th through

May 3rd. Cosolargy International President Gene Savoy Jr and his wife Radheka will also be attending the conference.

Gary was invited to speak by the president of the organization, Anadi Martel, whom Gary met in Bulgaria at the 11th Annual Water Conference held in Sofia October 6-9, 2016. Mr. Martel offered Gary space to talk about any and all aspects of light, including "higher sciences," but advised him to create a bridge with more mainstream science through clinical and case studies when possible and asked Gary to devote a bit of time to Cymatics and the wonderful images and videos of sound resonance which he saw Gary present in Bulgaria. Gary's time slot is for 75 minutes, including a questions period. His talk, the final presentation on the final day of the conference, will serve as final summation and conclusion to the week-long gathering.

Members of the board of the International Light Association include internationally situated physicists and many others. Dr. Jacob Liberman, who spoke at the 2012 "Spiritual State of the World Conference" in Reno is also on the board and will evidently be presenting this year. Dr. Jim Oschman, also a speaker at a number of the "Spiritual State of the World" conferences sponsored by Cosolargy International, has presented at the International Light Association conference in the past. Other presenters will include Gerald Pollack, director of the EZ water conference in Bulgaria, and Fritz Albert Popp, pioneer in biophotons. There will also be numerous individuals involved in sun-gazing and photosyntonics, light medicine and related technologies, and the study of ancient religions of the east. More can be reviewed on the board at <http://www.international-light-association.org/board>.

The 2017 conference of the International Light Association promises to be a good meet-up with people who may be interested in the principles taught by Cosolargy International. This conference may also establish inroads to

other conferences and the groups that sponsor them.

The ILA's purpose is to create a bridge between the scientific and the energy aspects of light, and participants include people working with both mainstream light medicine and more esoteric traditions. The web site of the International Light Association, which has the conference up front, may be viewed at <http://www.international-light-association.org/>.

Be sure to view Gary Buchanan's front-page preview on the web site as well (<http://www.international-light-association.org/event/conf-2017/presenter/gary-buchanan>).
