

Cosolargy in Japan Expands Outreach Publications

Cover of the Japanese edition of
Jamil: Child of Light

The Cosolargy Institute in Japan (CIJ) recently completed several new translations of Community books.

CIJ began offering the 24-month program Academy Symposium to the first group of Japanese students on February 2, 2010. The first group of Japanese student finished the 2 year program "Academy Symposium" in 2012. A while later, the Japanese Community prepared to publish Japanese editions of several books related to Cosolargy.

Since 2012 was the 50-year cycle after the appearance of the

Sun of Righteousness in 1962, the Community in Japan thought it was a very good time to begin publishing these books for the public in the year celebrating the 50-year cycle. They started publishing the following year, in 2013.

Because the Institute of Cosolargy Japan is prohibited from any business transaction, in order to protect our teachings Cosolargy Japan consigns, publish, and distributes all Japanese edition books through E-Ma. Sound Corporation, which is the sound therapy company of Bishop Yukinori Matsushita.

The first book published by the Japanese Community was Project X: The Search for the Secrets of Immortality. The publication of this book was followed by a second book, Jamil: Child of Light, and a third book, Prophecy of the End Times. All these books represented the physical body, the psychic body, and the Light (Spiritual) body in various ways.

The Community in Japan picked publication dates for these books that were connected with the author, Gene Savoy Sr. For example, May 11 was his birthday and August 8th was the first time he spoke about Cosolargy in public to the people in United States of America, and the anniversaries of these dates were used as dates of publication.

Marie Momoi, a professional translator, is also a Japanese student of Cosolargy, and it is she who translated two of the books recently published in Japan, Project X: The Search for the Secrets of Immortality and the The Lost Gospel of Jesus.

Bishop Yukinori Matsushita, translation supervisor, made some valuable comments in the foreword to the new Japanese edition of the The Lost Gospel of Jesus. A translation appears below:

Japan is making big social changes as the Tokyo Olympics approach in 2020. It might be God's blessing that we are able to publish this book in this time. The story of Jesus is not quite familiar in Japan. Here Christian churches are looked upon as places where people can study in English or hold a

Christmas Service or study a little bit in Japanese about the Bible. But we can find stories about Kobo-Daishi or Prince Shook that are similar to the story of Jesus. Kobo-Daishi preached about "Sokushinbutsu," which can be interpreted to mean, "the possibility of creating a Buddha body while alive." Jesus also said, "Unless a man be born again of fire and water, he will never enter the kingdom of heaven." So we can find commonality between both stories.

Originally the teaching of Jesus Christ was a teaching of Light – walking in Light, living in Light, or living The Way to enter the Worlds of Light. But these teachings were given orally and do not exist in written form because these teachings are paradoses, prohibited to be told outside the school and never to be printed. This book, *The Lost Gospel of Jesus*, provides an explanation of the paradosis teaching. There is a book called *The Child of Light* written about how this teaching came into the this world at this time. I recommend reading *The Child of Light* if you are interested.

The translation of the present book, *Lost Gospel of Jesus*, was very difficult because there is not much information about Jesus in Japan. But translator Marie Momoi researched very carefully and found much information through her efforts. I am very grateful for her hard work and determination. The original edition of *The Lost Gospel of Jesus: Hidden Teaching of Christ* was written by Gene Savoy Sr. in 1978. This book gave great inspiration to people to seek the teachings of Light in English-speaking counties. I hope this Japanese edition of the book conveys the true teaching of Jesus to Christian seekers in Japan looking for truth in this modern age.

Gary Buchanan Speaking at International Water Conference

Reverend Canon Gary Buchanan will be in Sofia, Bulgaria October 6-9, 2016 to speak at the 11th Annual Water Conference. He will be speaking along with Dr. Gerald Pollack, an old colleague of his who has gained fame in recent years for his theory of fourth-phase water, and who is chairing the conference, and along with several Nobel Prize laureates. Rev. Buchanan's work on Sonotherapy and his use of water to form archetypal cymographs made him a candidate for speaking at this prestigious international conference. In fact, his cymographs have gained so much interest that the conference organizers are using his cymographs on their Facebook page and throughout their newsletter.

Use the links below to find more information on the conference

and to follow the conference live or streaming on Facebook.

Rev. Buchanan will be speaking from Sofia, Bulgaria on Sunday, October 9, 2016 from 10:10-10:45 AM, which translates to 12:12 AM October 9, 2016 – 10 hours earlier.

His talk is titled “SONATHERAPY®, CYMATICS, AND PHONON CHAINS: The Healing Potentials of Sound in the Body’s Vicinal Waters.”

Here comes “Here Comes the Sun”!

Academy Consociate Paul Vernon has just completed his second full-length book *Here Comes the Sun*. The book is available for sale in ebook and kindle format on the Smashwords web site, where you can read more about the new book and read a 6000-word sample for free.

[Visit the *Here Comes the Sun* page at Smashwords.com to buy a copy or read a sample.](http://Smashwords.com)

Here is how he introduces his new 40,000-word volume:

“It is time to see the Sun in a new light and elicit its secrets. Today there is resurgence in the practice of Sun-gazing, along with the therapeutic use of Sunlight and colour.

While the Sun's benefits in providing vitamin D and aiding in the healing of depression have been known for some time, there are new revelations in 2016 that it prevents myopia and slows its advance. It is less well known that human biology reacts in a very direct way to the rotations of our star. A number of prominent doctors have come out to publicly endorse the absorption of Sunlight in the human eye and skin, using common sense to avoid over exposure.

"In the scientific field during 2016 researchers are making new discoveries about the ways our planet is intimately connected to the Sun by invisible strings, and the real impact it has on our weather patterns and climate change. Quantum physics shows there may be corresponding connections on a different dimensional level that result in wormhole-type tunnels that bridge our earth to the Sun and beyond.

"Historically the star of our solar system has been honoured by the construction of megaliths such as Stonehenge and Glastonbury in England, Nabta Playa in Egypt and the Temple of the Sun in Mexico. Now alternative researchers believe there is evidence that solar power was harnessed and distributed in structures such as the pyramids and that giant obelisks such as the one at Abu Gurab were actually electrical transmitters. The concept and application of this fits perfectly with the theories of the 20th century genius Nikola Tesla. Great leaders in ancient Egypt, Greece and Rome were guided by mystical activities based on what may be called the solar sciences, and their traditions survive today within certain secretive societies.

"Authors such as James Redfield have suggested that the human body may be destined to evolve into what is known as a light body, and this is now supported by scientific research into matter being constructed of photons. Along with modern technology's steps towards transhumanism and artificial intelligence, we are witnessing the emergence of a new breed of humans referred to as Indigo children and the Super Psychic

kids. Modern day organizations such as Cosolargy suggest that the transmutation can be accomplished by the intake of the Sun's rays. [emphasis added]

"Spirituality has a role to play in our reconnection with the sun and the technique of 'Incubation' as practised by the ancients, called the Way of the Iatromantis, provides an avenue in the pursuit of activating our light bodies and making the next evolutionary step. In rethinking our relationship with the Sun, we see a way forward into a future filled with light."

Explorer Gene Savoy Appears in Catholic Textbook

Elizabeth Reece, a member of the administrative staff at the Chancellery offices of the International Community of Christ, occasionally checks the internet for new references to Gene Savoy's explorations and his other works since people will often use him as example in books they are writing about Peru or Amazonas.

In November 2014 she found a reference to "Gene Savoy" being scheduled as a topic of a high school Catholicism class at St Joseph's High School in Metuchen, NJ, and she contacted the class instructor, Thomas Cunningham:

Dear Mr.Cunningham,

I stumbled across your teachers outline for the 2014-2015 Religious Studies class at St Joseph High School. On the day of 11/25/14 you listed Gene Savoy as a topic for discussion during Catholicism. Since, I have studied and worked with Gene Savoy, (the explorer, religious scholar and teacher who established the International Community of Christ) from 1978 up to his passing in 2007 I wanted to asked if this was the same individual discussed in your class. If so would you be willing to share some details of the reactions received from your students during the discussion, or what source material they used. If it is the same person, the idea that you would offer your freshman class an opportunity to comment about him is very intriguing to me. Thank you very much, I hope this letter is not too intrusive.

*Respectfully,
Elizabeth Reece*

This was his response:

*Hello,
The section on Gene Savoy was covered in our textbook in Chapter 4. There is a short story about Gene Savoy getting lost in the Jungle. He finds himself getting very anxious about the situation, but after settling down... He begins to pray for guidance from God. He eventually is able to find his way out of the jungle , and credits that "quiet time with God" with his trek out of the forest. My students were very interested with the incident. The textbook contains many short stories like this one...*

*Take Care,
Tom Cunningham*

This led Elizabeth to a rather interesting discovery: In Catholic high school classes across the country who use the textbook Path Through Catholicism (Mark Link, 1991), there is a story told by Gene Savoy being used as an example that "God is present in all."

Here is the article that appears on page 49 of the textbook:

Greatest Discovery

Late one afternoon, archaeologist Gene Savoy and a companion became lost in a jungle in Peru. A sickening feeling came over them. They knew that if they did not reach camp by sundown, they would never reach it alive.

In a state of near panic, they began to run about feverishly, searching for the trail they had used to enter the jungle. Suddenly they realized that this frenzied running was only making matters worse. Then they stopped and stood perfectly still. As they did, a strange thought flashed across Savoy's mind.

God is in the jungle. It is God's house. Gene had been introduced to the beauties of nature when he was a boy in Oregon. His parents taught him that God had created the universe, sustains it, and resides in it. Why had he closed his eyes to God's presence in the jungles of Peru? Didn't God create them, also? Doesn't God sustain them, also? Doesn't God reside in them, also?

Instantly, Gene relaxed and put all his trust in God, in whose house he was. He said later, "I looked up into the beautiful emerald world of wild orchids, and fragrant blossoms where hummingbirds hovered. Yes, God was here, too. My heart quieted."

At that moment, something deep down within Gene seemed to say, "Walk a few paces to the left." He did. And there was the tiny trail! Gene said later, "I am proud of my archaeological discoveries. But my greatest discovery, I believe, was in recognizing God's presence everywhere."

2016 Community Calendars are in the mail

As a special gift for this time of year, the Church has sent out to all active Community members the Community Calendar for 2016.

For practical purposes, the calendar follows the traditional monthly format beginning with January, but it contains all the significant dates of The Community's Sacred Calendar, which begins on February 2nd (refer to Jamil: Child of Light, chapter 27).

In addition to dates for liturgical observance or remembrance, the moon phases for the year are also included. In relation to these moon phases are indicated days to view sunrise or sunset according to the important Lunar/Solar Cycles Generative Technique familiar to Cosolargists who have advanced through The Cosolargy Papers.

Once again, thanks go to Deacon Dr. Stephan Fuelling for compiling and designing the calendar in consultation with the Publishing, Editing and Liturgical departments and with Bishop Gene. Thanks also go to the Reverend Ben Hubbard, who prints the calendar using our printing system at our production facilities located at the Steamboat Hot Springs.

A suggested donation of \$20.00 by active Community members would be greatly appreciated to help defray costs for producing the calendar. Corresponding members may contact the Church offices to request a calendar for the same suggested donation.

Meet Another Side of Reverend Canon Gary Buchanan

Meet a few sides of minister, composer and musician, explorer, sonotherapy researcher and therapist Gary Buchanan on his new web site.

There you will be able to

- link to online videos of compositions and performances, watch Sonotherapy videos online,
- read his biography as minister and Community member and find links to some of his spiritual writings,
- and read his biography as an explorer and learn more about the Andean Explorers expeditions he took part in and about the Andean Explorer videos he composed music for.

Solar Cultures of India Journey in Planning Stages

ANNOUNCING!

**COSOLARGY® INTERNATIONAL'S 6th Annual
SPIRITUAL STATE OF THE WORLD CONFERENCE & TOUR**

"On the New-World Condition & Solar Teachings of India"

Co-sponsored by SATYACHETANA INTERNATIONAL

- Featuring presentations by:
- Swami Sri Atmananda, author of *Manifesting Divine: An Action Plan for the Spiritual Man*
 - Gene Savoy, Jr. & Sean Savoy, Directors of Cosolargy® International, offering the *Sacred Teachings of Light for the New Age*
 - & other master lecturers

If you have the dream to make a meaningful visit to mystical India, an amazing opportunity is available. But it is still in the very early planning stages. In fact, the trip cannot be scheduled until there is enough interest from people to participate.

So if you are interested, **send an email to info@cosolargy.org right away**. The decision to finalize the India journey must be made by August 31.

Costs and itinerary will be developed once interest is shown. But typically, expenses in India are minimal compared to many other countries. Even flights to India are reasonable.

10 to 20 people need to join the tour group for the journey to be guaranteed to take place. Tour members do not need to be members of The Community, so feel free to **send a copy of the flyer to your personal mailing list**.

< [Download flyer here.](#) >

The tour is of spiritual interest as you will see by the flyer attached. Help make this a reality for February 2016!
