

Reno Spiritual Wellness Expo

Cosolargy had a table at the annual Reno Spiritual Wellness Expo held October 18th to 20th. The table was divided into two sections: one for Steamboat Healing Center and Spa, and one for Cosolargy. It would be difficult to gauge how effective our participation in this event was for getting the word out about Cosolargy, but more Light Body Profiles were requested over the weekend than during a typical month. Below are some photos from the event.

WEEKLY MESSAGE: October 29, 2019

CÔSOLARGY.INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

October 29, 2019

The Tenth Saying (Part 4 of our series)

“There was a short silence as each contemplated The Man’s words. Then the Third Mariner spoke, asking: ‘You said that when one practices the techniques for a period of time one becomes more sensitive to the light and the fire of the Sun. Is it natural, then, for those who have been in The Community for a period of time to become less able to consume the Sun by means of the techniques, or are they more able to apply the

Sun techniques for longer periods of time?’

“And The Man answered saying, ‘If you are living in the country removed from the effects of city life, as you have undoubtedly noticed on this ship when at sea, the Sun becomes less brilliant. You are able to absorb greater amounts of sunlight. If you look at the Sun in the confines of the cities, and mingle with people, you will find that you will be able to take less sunlight. You will become so sensitive that you will be in conflict with those people. Therefore, Sun techniques are better applied when you are isolated from the cities of commerce in which the economic way is dominant in the lives of the people. When you are with Companions of Light, where the atmosphere is one of Light, and away from the negative effects of the cities, you will find you can take a larger amount of Light. You are in harmony with nature, as you have found during our voyages. You are able to communicate with living things of the sea and of the air. This will increase as we continue the voyage. On our first voyage years ago, tens of thousands of fish came to the ship, surrounding it for hundreds of meters on all sides. It is easier to communicate with God when you are at sea, removed from civilized life and crowded cities.

“‘Man’s body is limited, as is his brain, nervous system, and circulatory system. Man is not able or free to do anything he wants to do or thinks he can do. His computers and advanced technology have moved him into a new world of speed. The ancient religions were developed by people who moved at a slower pace. Man no longer uses horses or walks as principal means of transportation. His machines move him about the world at incredible speeds. He has even managed to penetrate outer space by means of machines and computers. Indeed, his machines are able to accomplish things which his mind and body are not capable of. Therefore, if Man is to have a clear understanding of God, his philosophy of life and his religions must-need project him into other worlds and other dimensions. This will

place new demands upon the brain and the human organism which it is not designed to handle. As a race, Man is going to be forced to evolve on the physical level. He will be forced, if he is to survive, to develop higher brain power, a more refined nervous system and a more sophisticated human body. The techniques we are applying are forcing our bodies and brains to grow. The growth begins with highly evolved receptors in the retinas so the brain and the nervous system can handle larger amounts of direct sunlight. Thus, the alteration of the species begins in the eyes which, working with solar energy, expand our human vision. I am sure you have all noticed, your vision changes to a certain degree. You see more, your increased peripheral vision permits you to see shades of color around people.

“‘The beginning of Man’s advancement must take place with the baptism of fire, and the absorption of solar energy into the system which can nourish and sustain not only the body, but a higher kind of body. It is inevitable that our bodies are going to become more transparent, and become more light than physical. This is our heritage as men and women. And the Teachings of Light, come through the message of Jamil and the appearance of the Messianic Sun, are preordained, fulfilling religion come at the last and final days of the old world which is going to be passing through a baptism of fire of its own. The world is to be burned away. Something new will emerge – it will be more akin to light than to matter. By these means man will inherit spiritual life.’”

This is an interesting part of the Tenth Saying, as it deals with the evolution of Man as a species and his world. On the way to this new state of being are many steps and stages. Today we are aiming to sustain our Community and maintain and project our image in the world. Part of that work is the restoration of the Cathedral Church of the Americas and the Monument to Human Spiritual Rights at our Consecrated Sanctuary. This is a grand project, and one which cannot be

ignored. By now you have received my letter dated October 12th, which concerns this project and your part in it. A member of the Chancellery staff will be reaching out to you in the coming days to discuss details of your participation. As always, I thank you for your support.

Once again, if I may be of any personal service to you, please do not hesitate to contact me.

Very truly yours in Light+,

Gene

Memorial for Jacklynn Lord

A memorial service for past Consociate Jacklynn Jean Lord (February 2, 1940-October 11, 2019) was held on Friday, October 18, 2019 at the Walton Funeral Home Chapel. The service of remembrance was presented by her two daughters, Taumie Borecky and J. Michelle Norris.

In attendance from the Church were Gene Savoy Jr., Robert and Francine Petrovich, Elizabeth Reece, Barbara Whitney, Bruce Kanzelmeyer, and Stephan and Shinobu Fuelling.

WEEKLY MESSAGE: October 16, 2019

CÔSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

October 16, 2019

We continue this week with the Commentary attached to *The Tenth Saying of Jamil*.

“And the First Mariner spoke again saying: ‘Then the baptism of fire is not the shedding of the flesh which takes place at the end of a lifetime?’ And turning to the seaman, The Man answered saying, ‘The baptism of fire is likened unto the baptism of water by which you are received into an orthodox church. A minister or priest will pour water upon your head and give you a special blessing. With that you are received into the church. In this Community you receive a baptism of fire, not of water, before you are received into the church.

“‘It is a natural thing that man’s body dies of old age. We as mortals will experience decaying and the wearing away of the body as a natural course of events. But our bodies will be consumed, as it were, by a fire at a certain time when God calls back the spirit. It is as if the spirit will have vacated the body. And the shedding of the flesh, like a cocoon, will take place when Man occupies the spiritual body. Of course, the spiritual Body is occupied prior to death. So it is as if Man exists in two worlds at the same time. The Light body does burn up the physical body. The Sun destroys the body. That is why we have death on this Earth. The Sun kills it through the fire of the energy. Because Man is regulated by the coming of light and the going of light, his life span is predetermined, like the seasons. A person’s life is but threescore and ten years as dictated by the Sun. If Man were to experience a change in which the days would grow longer, or if the Sun’s radiation were to change, Man could live as the ancients to hundreds of years of age. All is determined by the Sun.

“‘There is a spiritual Baptism when man and woman introduces

the fire of the Sun into their body. The spiritual Light of the Sun of Righteousness conceives the Light body with a spiritual Consciousness. The Word of God incarnates in the flesh, bringing forth a new life. But we must learn to eat the fire of the Sun so we may pass through the Sun. In other words, one body is consumed before we are able to occupy the spiritual Light body and pass through the physical Sun into the spiritual Worlds of Light.'

"Then asked the First Mariner, 'Is the baptism a symbolic consummation of the flesh?' And The Man answered him saying, 'The baptism of fire is not symbolic. The baptism of fire is a real baptism in which Man enters the fire of the Sun. He actually merges himself with this fire. He learns how to absorb the Sun. Some people look at the Sun a few minutes a day. In my own experience, in the early days, I looked at the Sun for many hours a day, up to twelve hours. My body was being consumed by fire. I became very light, that is, more transparent. This is why I had to control my intake of sunlight. Jamil was extremely transparent at times because his body was more akin to fire than to flesh. Had I not ceased from the long exposure I believe I would have been consumed by fire. We pioneer workers in this new Community must refrain from overexposure to the Sun. We remain behind in order to build the Church. This overexposure must be regulated wisely.

"'Jamil passed out of the world by eating the Sun. I watched him do it. He no longer had any use for the body, the physical body. He had no interest in remaining on the planet. So he began to look at the Sun. He stopped eating food, and he left.

"'And in the Community we have a special technique for those who wish to leave the Earth, at the time of their calling, by these same means, emulating the technique, or the method, used by Jamil when he passed out of the world. But this should come in later life when there is no need of the body. Eventually the body must be consumed by sunlight. You must burn up the body, so to speak, so that something greater can come into

being. This is the path taken by adepts of the Sun.

“‘There was an old saying among the Aztecs that Quetzalcoatl’s priests looked at the Sun until they lost their physical vision so they might bring into being spiritual Vision. Now, we know that the Yogins of the Himalayas did the same thing. This is not what we are trying to accomplish in the Community. Ours is a spiritual unfoldment with the aging of the physical body. You will all find after you have taken the Sun for a number of years that you will become extremely sensitive to the Sun, and you will find that when you are ready to leave this planet, you will be able to consume a tremendous amount of light and leave, almost at your own will. We of this Community have the advantage of working with the Sun of Righteousness which was not available to the ancients. Our path is a more noble one.’”

We will, of course, continue with the Tenth Saying commentaries next week and in the weeks to follow. In the meantime, you will be receiving a personal letter from me very soon. The letter, which is self-explanatory, has to do with an important project we have undertaken, and which I ask for your and everyone’s support in. Please give it your utmost consideration. Thank you.

Once again, if I may be of any personal service to you, please do not hesitate to contact me.

Very truly yours in Light+,

Gene
