CÔSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

April 12, 2019

In continuing this month's theme prior to Second Advent or True Easter on April 18th, let us turn our attention to the judgement of goodly men and women.

God in His supreme grandeur and greatness has ordained the coming of the Sun of Righteousness which sheds redeeming Light into the world – the sign of which is the Cross of Enlightenment. As mentioned last week, this Sun of

Righteousness is Messianic in that it is the Christ Force by which ***all men and women everywhere may participate in eternal life.***

The Sun of Righteousness and the Cross of Enlightenment are heavenly Forces which no one can alter or change, as has been done in the past with the teachings of Holy Ones of God, such as Jesus. Therefore, we should acknowledge and know that God now judges the world by His Light, which no one can escape as it permeates all things.

People ask themselves why God allows suffering, pain, sorrow, illness, disease, war and death in the world. It is not God that causes this suffering, illness and death, but the falling away by Man – the degeneration of rebellious Angels of Light, first into Angels and Darkness and then into human and material form. The plight of the world is made even worse by the acts of arrogant men and women who ignore the laws of God given by Holy Prophets for a just and meaningful life.

God is so vast in His Greatness, so vast in His Power, that no one can comprehend that Greatness and Power. Some people believe God is a personal deity – an old, wise man, sitting in judgement on a throne in Heaven. Such is not the case, for God is far above such things – far more expansive than the limitations of personality, far more expansive than our limited minds.

People judge God because they wish to break the laws laid down by former generations of the holy inspired of God and not suffer the results of that kind of life. Worldly religions have belittled God's commandments by making them almost childlike in their simplicity. In all honesty, to keep God's laws demands all of man and woman's wisdom and energies. It is not a matter of "thou shalt not do this" or "thou shalt not do that." To live by God's commandments requires the dedication of a lifetime. God's commandments are not known or understood by the ignorant or by ignorant minds. They are only understood

only by those who have evolved by the grace of God's redeeming Light and who have communion with Him and His Angels.

Children are punished by their parents for wrongdoing. If not, they would harm themselves, their families, and later society by imposing selfish and arrogant ways upon others. And it is by force that children obey their parents. In like manner do adults obey the laws of the state and the commandments of earthly religions. It is not by force, but by understanding and love, that people of wisdom acknowledge and obey God's ordinances, not only for their own personal good but for the Universe as a whole.

Goodly men and women who understand and love God would no more break His laws than place their hand in a fire or throw themselves from a high place. To do so invites certain suffering, pain, or even death. It is not God's judgement that results in this suffering, pain or death, but the breaking of an immutable law. Why blame God when the results of wrongdoing are self-evident? It is our actions that result in all judgement, and each is to determine what his or her judgement will be. This is an important point.

Therefore, God has inspired Holy Prophets to write of the laws of God so each may understand the benefits of doing right and the harm of doing wrong. Jamil came as a messenger of Light to announce to all people everywhere the new conditions prevailing in the world and what course of action to take. Goodly men and women have but to understand the new laws of God and to generate the necessary wisdom to work with these laws in order to reap the benefits.

For thousands of centuries – long before recorded history – Mankind has awaited the coming of the Messianic Sun of Righteousness which was promised in olden times. It has finally come as the result of much labor and service by former generations of the religious and spiritually minded in all parts of the world. And it has come at the time of a

completion of a grand cycle when the Sun will have passed into a favorable position in the universe of space and time.

By these means, God has been able to reach the minds and the hearts and the Spirits of people who for so long have been existing in a most unfavorable environment with their hearts and their minds and their souls closed. Therefore, the judgement of goodly men and women who acknowledge the coming of Christ into the world through the Sun of Righteousness is everlasting life with God. And the salvation of the goodly comes directly from God through the grace of His redeeming Light and not by any other means – not by blind obedience to former laws, nor by the blood shed of prophets, nor by the sacrifices of Holy Men and Women of God.

Once again, if I may be of any personal service to you, please do not hesitate to contact me.

THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

April 5, 2019

In the Second Advent Community, we observe Easter each year on April 18th. As we approach True Easter, which is a fixed date based on the solar calendar, I would like to focus my messages this month on the battle for the control of Man, on the judgement of the goodly and the ungodly, and on men and women of two worlds. Let's start with the battle for the control of man and woman.

In the beginning, Man was made in the Image of God – created of Light – but he lost his bright nature. Thus man and woman became enslaved by the material environment – the air they were made to breathe, the food they ate, the water they drank, and the sunlight that bathed them. By these means man and woman degenerated into material beings. Trapped in an ever-changing environment, they became the product of cosmological events that vary according to cycles, the distances of one celestial body from another, temperatures, the amount of sunlight that reaches the Earth, and various cosmic energies that bombard the planet. All together, these and other energies and phenomena determined what man and woman was to become, what they were to think, and how they were to respond to nature.

Man and woman change, though they know it not, from one age to another. We differ in appearance, in stature, in composition, and in the manner we view ourselves and the universe in which we live. Our institutions of learning, our societies, religions, arts, sciences, and all the environment we create for ourselves, together with the natural environment, make us what we are, or what we may become, either for our own improvement or deterioration. Our survival as a species is dictated by all these conditioning processes.

When we elevate our eyes to the Sun and absorb the energies directly into our brain and nervous system, we flood our entire being with cosmic energies which have their origins in space and in worlds beyond our own planet. We are thereby projected into outer space. Our whole being on the physical level is altered by all of our systems at work in the body. And these alterations have an effect upon our thinking processes, for with incoming light and energy from the Sun our mind is illuminated with thoughts that have their origins outside of our own body and, indeed, our world. Thus, slowly we are made new in the Image of God, and we take on an image not of matter, but of Light. We begin to have thoughts of searching for outer being, for understanding the source of all life, for comprehending the Creator of all things. By means of sunlight, we become as gods of the ancients, eating the food of the gods which is eternal Light from the heavens.

God's Thought, called the Word, is sent to the Universe and thence to the Earth by means of sunlight. The thought did not originate within this Sun but rather within the eternal Mind of God from which all things owe their existence. When we look at the Sun, our mind is linked with the Mind of God. And this is what is meant by the Word and the incarnation of the Word in the mind of Man.

With the coming of God's Thought into the world from the Sun, the light of the Sun has been altered, for it is filled with divine thoughts. And that is why the Sun has been called the Sun of Righteousness. And because God's Thought or Word calls us back to Him, redeeming us from the Earth, the Sun is also called the Messianic Sun – meaning that God, wishing to restore man and woman to their divine Nature by means of divine Light, is Savior.

Sunlight acting upon our eyes, brain, nervous system, and organism through the blood and the secretions of glands brings about a drastic change in us on the physical and mental levels. We begin to have new thoughts. We feel different. And

because of these changes, it is necessary that we apply a system of looking at the Sun which is beneficial to us. This System is a divine Science that has been given to The Community, an institution of learning concerned with Man's body, mind, emotions, psyche, and spiritual nature. The System of Cosolargy is a complete system for alteration of human nature.

It is for this reason that those of us who apply this System are admonished to apply it within The Community for our own sake. For to look at the Sun means to aspire to a celestial nature more than to a terrestrial nature. A celestial nature is a state of being far superior to that which can be attained without the System. This System was known, in part, by many ancient schools and was applied by Socrates, Plato, the Buddha, Pythagoras, Viracocha/Quetzalcoatl, Moses and Aaron, Jesus and James, and many, many other religious men and women of antiquity.

But because the nature of the Sun is different today than it was in ancient times, our System and our School is by necessity distinct in many ways. Therefore, a New Teaching governing this change has come into the world as the traditional and divine school of Light which has come at different times to various peoples in diverse places around the world. Our Community is authorized by God and the Worlds of Light to bring this Teaching into the world at this time of Man's spiritual evolution. This authority must be respected by those who apply the System, and it must also be respected by the secular and religious institutions of the world.

Because the world is undergoing drastic changes, owing to the alteration of sunlight and the intelligence within that sunlight, the human species can be expected to change with it. This change shall be determined by the natural environment. And it can also be regulated for Man's greater good and purpose in the Universe. This is why The Community is important to thinking men and women; because it is a

discipline that has a very practical application in the world. It can determine whether we are to survive and inherit the Universe or whether we are to become extinct as a species.

If Man is to inherit the Universe, we must become a far more advanced species on the physical, mental and spiritual levels. To accomplish this, we need to become more akin to energy than to matter. The changes that must take place in Man can best be achieved in a religious manner, for God is involved. Any other attempt to bring about changes while working with solar energy will necessarily be one of gross mental undertaking or one of negation, which is to say, one of Darkness. Powers beyond the material world control Man, though his sciences and secular institutions do not know this. Knowing this, it is better that thinking and rational men and women – such as the ancients who gave the modern world many of its founding ideas and philosophical and religious concepts – work with cosmological forces and those powers governing them, as opposed to working against them.

Once again, if I may be of any personal service to you, please do not hesitate to contact me.

WEEKLY MESSAGE: March 29, 2019

COSOLARGY.INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

March 29, 2019

For today's message, I would like to focus a little on the existence of Divine Reason. It has been asked in scripture, "What shall it profit a man if he shall gain the whole world and lose his own soul?" We can see in our world today that people seek material gain above all else, rejecting the true gain which is immortality of Spirit and Soul. This is primarily true in the Western world where people generally reject the benefits of that state of spiritual immortality – gained while we live in the material world – which is a

sharing of Divine Reason that fills the Universe as the sea fills the floor of the ocean.

In the Americas, especially North America, men and women from all over the world have come to the shores of this hemisphere over many centuries seeking a new and free life of plenty. Although this was not true for some who came, for the most part they found more than their dreams foretold. We have an abundance of all things, and it is not fitting that we reject the greater abundance which God extends.

But the greater gain is at hand, for God has brought forth the Light of His Righteousness and has filled America with a greater good still. And that greater good is the birth of the Religion of Light come into existence by the Hand of God. And would men and women of intelligence and plenty reject such a gift? All reasoning individuals know that material things are of little good without freedom, love and spiritual values. And if they do not know this, they are, above all people in the world, most miserable. For without embracing the spiritual, all that which is acquired shall be taken away as it was given. To understand spiritual values, Man needs to comprehend Divine Reason. And in order to comprehend Divine Reason, man and woman must be divine.

God has filled the Sun and the ether, which from ancient times teachers have said was the heavens and the sky outside the realm of the earth's atmosphere, with a Divine Intelligence which has its origins in the Consciousness of God. And this is the fruit of the Sun of Righteousness. And this Reason, streaming forth out of the Sun as a thought streaming forth out of the Consciousness of God, acts upon the consciousness of man and woman.

As a flower comes forth from the seed upon the impact of the Sun's seasonal rays, Man's reason blossoms upon the impact of God's Consciousness. And the Divine Reason filling the ether is as a seed that impregnates the Spirit giving it individual

life. For the Spirit of Man is as a sleeping Soul that must be awakened. Once awakened, the individual Spirit reasons. In ancient times, Holy Ones spoke of the Word of God which was Divine Reason manifesting within nature. And herein dwelt the truth.

The ancient Greeks called the True Reason of nature *Logos*. And the Logos was the Light that created the First Man. And they compared this Light to the beam of God's Eye which was in the image of the Sun. And within the beam was God's Thought. And people had but to look at the Eye of God to see into the Soul of Creation. And Divine Religion instructed men and women how to look into the Soul of God through His Eye.

For the Light of God is a radiant beam that sees all things in Creation, meting out Divine Justice. And Divine Religion taught men and women how to be strong to withstand that Light and of the nature of the Word called Logos. For all weak things wither and melt under the rays of God's Light. And the nature of God was explained in this manner and Man did understand and experience God as a friend. And the Sun was the door to Heaven. And men and women did enter with awe and wonder. And the Holy Ones, having entered God's realm through the Sun, became the mouthpiece of God speaking divine oracles. For their minds were filled with God's Word.

Today's world, under the influence of temporal science, technology and social materialism, has lost sight of the value of spirituality. Please don't misunderstand. These things unto themselves are not bad. However, materialists, technicians and natural scientists have become leaders of a dark religion – a religion of unbridled materialism and commerce. They have assumed the role of priests whose words and theories are believed by the unsuspecting masses. They see the Sun merely as a ball of fire, or an atomic furnace, only sending out light and heat into the solar system. They cannot understand that it is a living thing – the center of Intelligence and Divine Reason!

To them, God has no existence and all things are to be explained by their concepts, which are limited to physical nature. Priests of the old churches and religions scoff at those who regard the Sun as an instrument of enlightenment. They speak of God as a supreme being beyond all material things. But they have not seen God nor communed with Him for they know not how to attain an understanding of God, having shut themselves up in dark buildings and temples away from the glory of God's Image. Because of limited reasoning, scientists, materialists and even the so-called ministers of God have separated themselves from the true religion of God.

A Religion of Light is not of this low and limited order. Nor are the scientists of Divine Religion (who are we) content to study only the material things which perish. Instead, we look to the cause, to origins and to permanence, seeking the divine and the spiritual. For we know that the ancients who knew of the Logos – the Divine Reason pervading all things – gave the world teachings that have laid the foundation for the world's social orders, religions, and sciences. But the human race collectively has set itself up as an insolent child, disobeying the supernatural reason of nature that comes with the rays of the Sun.

Because America is a great nation of many peoples, representing all the races and religions of the world, God has ordained that the new Religion Light be born in America – not Jerusalem or Rome or some other place. He ordains that all people everywhere should know of the existence of the Word, which is God's Divine Reason manifest in all of Creation. And this Divine Reason enlightens those who seek it. And the Divine Reason generated within the spirit of the peoples of America shall bring forth a New People. And the material shall be wedded to the spiritual for a great Nation of God. This state of being is the destiny of America. And from America, the Light shall be spread to all the world. And that is the mission of this Community.

Once again, if I may be of any personal service to you, please do not hesitate to contact me.

Very truly yours in Light+,

cordially invites you to

HEARTS UNITED WITH
CHRISTCHURCH
AND THE MUSLIM COMMUNITY

Wednesday, March 20, 2019

6:00pm-7:15pm

NNMC Center
1857 Oddie Blvd.
Sparks, NV 89431

"THE SIMILITUDE OF BELIEVERS IN REGARD TO MUTUAL LOVE, AFFECTION, FELLOW-
FEELING IS THAT OF ONE BODY; WHEN ANY LIMB OF IT ACHES, THE WHOLE BODY ACHES"
-SAHIH MUSLIM

In light of the horrific events that took the lives of 50 Muslims in two mosques in Christchurch, the Northern Nevada

Muslim Center hosted an event to remember them and to show solidarity. The event, called "Hearts United with Christchurch and the Muslim Community," was held Wednesday, March 29, 2019 at the center on Oddie Blvd in Sparks.

The President of the Center, Sherif Elfass, said the event "intended to show solidarity through action. In 2015, nine of our African American brothers were killed in their place of worship, few months ago, ten of our Jewish brothers and sisters were killed in their place of worship and now 50 Muslims. Time of action is now. In my remarks, I plan to talk about actions we will be taking to combat hate and I hope you will consider the same."

Bishop Gene Savoy Jr addressing the assembly
at Northern Nevada Muslim Center

Mr. Elfass invited Bishop Gene Savoy Jr to speak with other clergy at the program. Bishop Savoy delivered the closing address:

On behalf of the International Community of Christ, let me express my sincere condolences to all of my Muslim brothers and sisters. I am very honored to be here at this service of prayer, solidarity and coming together in the face of violence against people of faith and in the name of religion.

But I am also very sad. I'm upset. I am sad, of course, about why we are gathered here today. But I am even sadder at what I see happening in our world today.

It seems that no place on earth, save Antarctica, is safe any longer from this creed of hate which has achieved a new life on social media. Muslims were attacked and killed last week in New Zealand. Four days before that, 52 Christians were attacked and killed in Nigeria and 153 of Christian homes burned to the ground. Last October, Jews were attacked and killed in Pittsburgh. And it goes on and on.

We should all be outraged. Let me say that again: we should all be outraged! Because the key to understanding today's terrorist threats are not merely to be found in the online underground, which has become a breeding ground for contemporary extremists of all kinds, but to understand the profound and blatant evil and darkness manifesting in today's world in great magnitude. Let's make no mistake about it: What we are witnessing the world over is evil and Darkness.

Is this the world in which we want to live? Is this the kind of place we want to bequeath to our children? It will be, as long as we turn a blind eye to the vast amount of pain and suffering that goes on in the world around us. We can no longer choose to remain silent or be oblivious to this profound evil and darkness that is permeating the world. And that is what this is. Let's make no mistake about it. This simply is profound evil and darkness. And it is now targeting people as they go into their places of worship – their sacred and quiet places. There will be no place for refuge any longer if we continue along this path. What is next? Our homes?

But, we come together to offer hope. We come together to say that we will not be driven from our places of worship – none of us. Let us be reminded that the spirit is strong in the human race and sometimes we, each and every one of us, needs

to be reminded of the immense power we have to do good or to do evil. If the peoples of the earth were to realize this, they would turn from the ways of ignorance and submission to evil and darkness and embrace the good and the light with all of their might.

And that, perhaps, is what we are here to do: to encourage people to break from the hold of evil and darkness. If we see it, don't turn a blind eye. If you hear it, don't be silent. Life is too precious and time is too short for the human family to play this deadly game of unending strife, war, instability, and hate.

The peoples of the earth cry out for peace. But peace begins with the individual who lives god's way. When we collect together in peace, of whatever religion or spiritual community, we then become people of peace and fellowship with one another.

My heart, my thoughts, and my prayers go out to everyone who has suffered from this evil and darkness. Thank you for having me.

Community Celebrates Diamond Jubilee

2019 marks the 60th anniversary of the founding of The Community in 1959. It also marks the 60th observance of The Child Jamil's physical birth on March 16, 1959 in New Smyrna Beach, Florida.

Bishop Gene Savoy, Jr. had this to say about the anniversary, "We know from our studies that after receiving three omens in 1948, 1955 and finally in 1956, The Man – Gene Savoy, Sr. – also known in our Community as the First Apostle and Prophet, journeyed to Peru to begin his ministry in 1957. Later that year, in October after a grave illness, he experienced a

visitation from an Angelic Being who announced the coming of the Wondrous Child into the world. My father later would realize that the Angelic Being was none other than Jamil himself in angelic form. Nevertheless, while The Man's ministry began in 1957, the Community was founded with the birth of The Child in 1959. The full story is recounted in Jamil: Child of Light."

On Saturday, March 16, Bishop Savoy read from The Prophecies of Jamil: Prophecy on the Golden Age of Light and the Nation of Nations. The Candle of Remembrance was also lit during the Communion of Fellowship Service on that day.

Additional celebrations and observances will be held throughout the year, specifically during this year's Annual Convocation (September 3rd-8th, 2019), which will include readings of the 25th, 26th and 27th Sayings of Jamil – never before published . Discussion of these Sayings will be recorded and compiled in order to help complete the seventh and final volume of The Secret Sayings of Jamil , which is planned to be published later this year.
