WEEKLY MESSAGE: October 17, 2018

CŌSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

October 17, 2018

Hello and good morning. I hope you are well. I apologize for the delay in writing to you. However, I have been occupied with some travel of late. Two weekends ago, my wife, Radheka, and I accompanied our Reverend Canon Gary Buchanan and his wife, Reverend Amanda, to San Francisco where Gary was presenting at the Global Sound Healing Conference. The conference was held at Temple Sherith Israel, the oldest Jewish congregation in California (established in 1850). Gary gave a wonderful presentation on Sonotherapy, Cosolargy, and our healing work at Steamboat Hot Springs.

Before that, on September 24th, I left for Los Barriles in Mexico which, as you know, is where The Community has land for a proposed Center. I was there for several days meeting with people closely involved in our project for updates on the same. I was also able to get a better idea of the annual expenses in maintaining the property and moving the project forward, which I will be sharing with you soon in order to not only keep you informed but also to ask for your support. There are some minimal expenses, such as property taxes and fees for the accountant, etc., that need to be paid. Again, I will write to you in more detail concerning this very soon.

During this trip, I had the opportunity to drive from Reno to the southern end of the Baja peninsula where Los Barriles is located. This is something I've always wanted to do, and I'm glad I had the opportunity to finally do it. It was a very

fulfilling four-day journey with overnight stops in Del Mar, California; Catavina, Baja California; and Loreto, Baja California Sur.

In addition, I would like to share with you these inspirational words from the Prophecy to the Races of Man:

“Men have heard that the Word of God is that written word put down by ancient prophets and holy men of former ages. And they believe that God spoke to these men and inspired them to write sacred writings which would be an inspiration and a sacred commandment to all the faithful forever. And so it is that people read scripture, believing it is the written word that illuminates and guides their souls.

“But I say unto you, and men and women of every religion in the world, that the Word of God is manifesting in the Light of the Sun of Righteousness. And the language within that Light which can be taken into the being of every person is a dialogue that can be understood by the Spirit.

“The religion of Light is living, in that it allows men and women to have direct contact with their Creator by means of that Light sent to Earth by God the Father.

“It is good that holy ones inspired of God write their prophecies. And these prophecies can be understood by men and women and used as guides for greater development of mind and soul. But the Word of God manifesting in the Light of God’s Sun is the singular source of Man’s inspiration and illumination. And herein is a mystery.

“God would that everyone know Him. For this reason He has sent the Word in the Light. It was this same Light that created the world; and it is the same Light that restores man and woman to their rightful positions as immortals of God.

“The written word in scripture and sacred literature was given to the ancients for their instruction in the ways of God. But

these writings and holy books given to preserve knowledge of God have been abused; for men and women of ministry believe and teach that all knowledge of God is found in books, and not in the Spirit of God. They preach that God manifested to the ancients in remote times in a very special way that is no longer possible. And they repeat the same words over and over to themselves and to their children. And by these means the blind lead the blind and scripture becomes a stumbling block to the spiritual.

“It is good for people to read of the statutes and judgements of God given to the ancients for social law and order. But I say unto you that the faithful have become instruments of material powers because of the written word. The words in the books have entrapped Man; and his Spirit has withered because of it.

“Man’s spiritual nature can be illuminated by means of God’s Word within the Light of the Sun. It cannot be illuminated by the written word. Therefore, scripture is not the Word of God as generally believed.”

Next week, we will review in more detail the Mysteries of Illumination.

2018**

CÔSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

September 19, 2018

Hello, and good morning. As you know, last week we concluded our annual Convocation here at the Community's Center in northern Nevada. The highlights, in my opinion, were the beautiful sunrise services we had at the Sanctuary and the several ordinations I was privileged to perform for Consociates advancing in our System. I believe our Community is stronger after the week's events and our fellowship.

One of the main themes I tried to get across in my presentations to the assembly is the notion that the sole purpose of the Second Advent is the restoration of the Creation to its original state, which is Light. As all races, languages, and religions stemmed out of a single Source, God's purpose is to reunite the races of Man into a single body for the common good of humanity, of the planet, and of the Universe, all being of one body, one mind, and one Spirit.

In times past, God did send into the world holy teachers and sacred teachings to instruct people that they can be partakers of their divine Nature. This was the message of Jesus and was exemplified by him during and after his life in this world. He not only fulfilled the religion of the Jewish people, he also brought forth a teaching that was meant for all peoples in the ancient world. This is important to understand. His was truly a universal teaching.

Sadly, his teaching was perverted, corrupted, and eventually lost due to his crucifixion and the martyrdom of the early apostles and disciples. False apostles and false disciples led the people astray. What was to become Christianity became nothing more than an amalgamation of the beliefs and practices scattered throughout the Roman Empire. His teaching was corrupted and perverted. And thus, the Light that Christ brought into the world was withdrawn.

Yet we know that God, through a self-manifestation in Light, has now assumed the Office of Christ Himself and is now the direct Mediator between Himself and Man. This manifestation in

Light has created a New Sun unlike any other sun before. It is increasing in intensity to shine brighter manifold. Eventually, this New Sun will create a new Earth wherein dwells all righteousness so that all righteous people may have a dialogue with God.

God's Sun of Righteousness gives the living bread of which Jesus spoke. God's Light is given to the world for the sustenance and nourishment of our immortal bodies of Light. We must, therefore, eat of this Light , which is divine Food, if we are to attain our spiritual immortality.

It is our charge – each and every one of us – to build a Community of Light from people brought out of all the races on the planet. It is also our charge to teach those individuals seeking, hungering, and thirsting for spiritual enlightenment, awakening, and consciousness. Those communing with the Light under the metanoic blessing of the Community receive a special grace. This special grace is extended so that they may receive a blessing from God's strong Light and not be burned up, as the wicked will be. For God's Light comes to judge the world by its brightness .

This Teaching is as an ark carrying the faithful over the Sea of Light which is flooding the world in order to bring about the New Creation. Knowing this, reflect to God's Sun in Love and Peace. By so doing, we oppose the Powers of Darkness who do marshal against us.

Once again, please feel free to ask me any questions by calling 775-786-7432 or emailing me at messages@cosolargy.org. I am always at your service.

Sun Pillar Display

PHOTO CREDIT: David
Mitchell

The photograph here was taken at the Sanctuary on 2 September 2018 by Consociate David Mitchell. He is using it in a university class on atmospheric physics he is teaching, since it is a perfect example of a sun pillar. Sun pillars occur when the Sun is near or just below the horizon (in this case it has just barely peeped above the horizon). Horizontally oriented hexagonal plate ice crystals produce this display. But science aside, he thought it was a nice picture of possible aesthetic interest.
