

“New model reveals how supermassive stars shaped the early universe”

For decades, we have been taught that the universe is expanding faster and faster. That belief has influenced our view of distant galaxies, how cosmologists have built their theories, and how researchers have described a mysterious, repulsive force we reference as dark energy. This idea even won scientists the Nobel Prize in Physics. Recently, however, new evidence suggests that this narrative could be more complex and much more personal than we may have once thought.

The Wise Children of God will be Protected

"These are God's words on the Hidden Portal, struck by one who slept within the temple and who knows the will of God. If they be heavy, they are also sound:

"'My children shall pass across the wilderness and sea, and my wisdom shall go with them. The whirlwind shall not strike them, nor shall they be consumed by the sea monsters. When all this generation and its children shall be as swathed

*bodies in their coffins, my children shall not be
at rest.'*

"'They shall come to a land of many waters, where gold is found and there is copper in abundance. There they shall erect a temple to the glory of God, and they will prosper and increase. Their women shall be honoured by the water beast and rejoice in their good fortune.'

"'These are the words they shall remember and strike on marble at the temple gate. These are the words they shall engrave forever:

"'Good deeds must outweigh wicked ones on the Great Scales; otherwise, the spirit is doomed to darkness.'

"A man is expected to strive for perfection on Earth, but not to achieve it. Let him be judged according to his efforts.

"Bewail not if prosperity departs from you; it passes from the good, for they have passed its test.

"The day of the Destroyer will come again and the land shall be laid waste."

-The Kolbrin Bible (Man:26:2-9)

The Hidden Portal

We in Cosolargy know that the real Hidden Portal is the Spiritual Sun, or the Sun of Righteousness, from which the Light of God streams forth to all of us. While this Light reaches all people and all beings, very little of it is absorbed unless one actively prepares to receive it. The quote may be referring to a lesser portal, which was probably the entrance to a secret temple in ancient Egypt.

Wisdom Shall go With Them

This paragraph is saying that some of those who are students of the great wisdom schools of ancient Egypt shall travel to other lands and bring the teachings with them. That doesn't mean that the teachings would be revealed to the general public, but that secret wisdom schools would be established in other lands. When the quote says these travellers will not be struck by the whirlwind or consumed by monsters, it is an allegorical way of saying they will be protected from the forces and beings of evil.

Land of Many Waters

This description of their destination could apply to Greece since a large part of this country is islands. We know that temples of wisdom were built in Greece and that ancient Greece became a land of wisdom and prophecy. If one visits Greece today, one can still find the ruins of some of these centers of prophecy, such as the one at Delphi. It is also true that copper and gold was found in Greece. In fact, large deposits of both of those metals have recently been found in Greece.

Good Deeds

It is true that anyone who wishes to save their soul must engage mostly in good deeds. That doesn't mean that one can engage in evil acts, then overcome the karma by doing good. Once a person has awakened to truth, they should avoid evil deeds as much as possible. Evil deeds of the past may be forgiven, but the karmic debt must still be paid.

Strive for Perfection

It is good to strive for perfection, especially spiritual perfection. It is true that it is almost never achieved during our physical life, but we should try anyway. Contrary to popular belief, the search for "perfection" continues after physical death if we have made sufficient effort to awaken and

develop our spiritual faculties while physically alive. If you decide to wait until you die before developing your spirit, it will be too late.

Day of the Destroyer

Spiritual leaders say that we are close to the beginning of a new Golden Age of Man. Unfortunately, as we approach that period, the beings and forces of darkness will fight tooth and nail to maintain their control over the Earth. Those who are following the True Teachings of God will be protected from the worst of it, but we may still have to deal with some suffering and hardship. When that happens, we must remind ourselves that better times are to come.

“Universal expansion may be slowing down rather than speeding up”

For decades, we have been taught that the universe is expanding faster and faster. That belief has influenced our view of distant galaxies, how cosmologists have built their theories, and how researchers have described a mysterious, repulsive force we reference as dark energy. This idea even won scientists the Nobel Prize in Physics. Recently, however, new evidence suggests that this narrative could be more complex and much more personal than we may have once thought.

“A Natural Laboratory Of Spiralling Dust Shells”

In multiple ways, the JWST is opening our eyes to the Universe. It's enriching our understanding of the cosmos by showing us things we didn't think were possible, and by uncovering more details in things that have been observed many

times by lesser telescopes.

One of these subjects is called Apep, a triple star system about 15,000 light years away.

“Devastating Stellar Storm Seen on Red Dwarf Star”

On Earth, Coronal Mass Ejections (CMEs) like the one we

experienced earlier this month are aesthetic, even disruptive events, sending aurora southward and interrupting radio signals. But around other stars, they could prove lethal to life.

This point was driven home by a recent CME detection from an M-class red dwarf star.

Journey Towards the Light

"We journey towards a light we cannot reach and fall into a pit of darkness to find it at the bottom. We gaze on the beauty of the stars and think them high above, when, behold, they are within our hearts."

"Man is not born to play, but to labor. Life is a basket,

which must be filled with sustenance for the future. The fool fills it with empty, unwholesome things; the wise man fills it with things of substance.

“Earth is a place of unreality. That, which seems substantial here may have no true substance. That, which seems desirable here may not be wholly desirable. That, which serves here may not serve everywhere.

“Man is born to live, but he is also born to die. It is no more natural for him to live than it is for him to die. Death is no harder than birth. It is no more difficult than life.

“The best of today is gone; we console ourselves, better will arise tomorrow. The Earth gets better or it passes away. Men improve or perish; that is the Law.

“May you find eternal springs of strength and courage welling up in your soul at the time of your testing.”

-The Kolbrin Bible (Man:25:7-12)

Journey Towards God's Light

We in Cosolargy know the importance of moving toward God's Light. It is not a physical movement, but a spiritual one. As we practice our sun-gazing techniques, we gradually raise our level of consciousness closer and closer to the level where God is found. It is not, as the quote says, found at the bottom of a pit of darkness. The lower dimensions are the location of darkness, the higher ones are where God and Angels are found.

Beauty of Stars

Physically, stars are far away. Even our sun, which looks fairly close, is millions of miles away. When the quote says they are within our hearts, that is allegorical, not literal. They are in us because the light of stars—and especially the

sun—fills our energy centers (chakras). With sufficient practice of spiritual techniques, those energy centers grow to the point where they touch each other, and energy can then flow completely through our body. And as our physical energy centers grow stronger, so do the spiritual centers. So the light of stars is in us on both the physical and spiritual levels.

Man Must Labor

It is true that men and women must labor. Indeed, a line in the prayer we read at second services on Sunday says that we must labor in this world and the next. That doesn't mean we will work in factories or offices after leaving the physical world. It means we will continue to work on the development of our Soul until we reach the Divine state of Oneness with God.

The Unreality of Earth

Some people misunderstand when spiritual teachers say that the physical world is unreal. They don't mean that it doesn't exist, but that we see it in a distorted way. The reality of it is very different from what we see. Recent scientific discoveries tell us that objects such as a rock, that seem quite solid, are made up of atoms that are mostly "empty space". But they seem solid because the "empty" space is full of energy, so not really empty at all. An atomic bomb works by releasing that trapped energy.

Born to Live and Die

This is true of the physical body. Just as the physical self is born, so must it die. But if you are spiritually awake, you need not fear death, since it is only the temporary physical body that dies.

Better Tomorrow

We are living in very dark times now, and it will probably get worse. But we can take solace in knowing that better times are

to come. We are on the cusp of a Golden Age of Enlightenment. Naturally, the forces and beings of darkness are doing their worst to stop it, but they will fail, and darkness will be pushed out of the world, and indeed the universe, forever.

“The Ultraviolet Mystery Inside Newborn Stars”

Star formation should be a relatively straightforward process. Dense clouds of molecular hydrogen collapse under gravity,

fragmenting into cores that grow into protostars. These infant stars are cold, deeply embedded in their parent clouds, and shouldn't produce ultraviolet radiation. They're not hot enough. Yet when astronomers used the James Webb Space Telescope's MIRI instrument to observe five young stars in the Ophiuchus molecular cloud, 450 light years away, they found clear evidence of UV radiation affecting molecular hydrogen in outflows around these protostars.

“Scientists finally explain why the Sun's corona burns millions of degrees hotter than its surface”

For decades, scientists have wondered how the Sun's outer atmosphere – the corona – burns millions of degrees hotter than its surface. A new study led by Northumbria University physicist Richard Morton offers a major clue: the Sun's heat may come from tiny magnetic waves that twist and ripple through its outer layers like an invisible dance.

Always Try to do Your Best

“Strive always to be the best in your calling, whatever it may be, and let not your energy be consumed in the envy of another’s achievements. Strive always to improve your own abilities, so that you may

take your place among the masters of your craft.

“Seek not to take advantage of your competitor by any underhanded methods, but overcome his opposition only through your own superiority. Thus, even though you fail, nevertheless the blow will be softened by the retention of your honor.

“Success is good and desirable, but of itself, it plays little part in the development of the soul. It is the manner, in which success or failure is met that leaves its impress there.

“Consider carefully the causes of success in others; what they can attain is not beyond your reach. Be not one of those who marvel not when others remove mountains but consider it beyond themselves to carry a pebble.

“Diligence will always be duly rewarded by the wise master.”

-The Kolbrin Bible (MPR:23:14-18)

Improve Yourself

The quote suggests that we should strive to be the best in our chosen field, whatever that may be. That is both unrealistic and not beneficial, especially with goals that are not spiritual. Not everyone can be the best in an earthly profession, and trying to do so can lead to frustration and disappointment. In addition, it has us competing against each other when we accomplish much more by working together towards goals that benefit all. Instead of competing against others, we should strive to improve ourselves. When it comes to spiritual development, we want to continue to develop always, but we must each do so at our own pace and by helping others rather than competing with them.

Success is Good

The quote says success is good, but it doesn't help develop the soul. That depends on what you are successful at. If your success is in spiritual growth and development, then it definitely helps the soul. Even earthly goals can benefit the soul if they are done with love and by always obeying the Law of God. The quote does say that it is the manner in which success or failure is met that leaves an impression on the soul, and that is true. If you realize that your success is not just because of your own efforts, but also because of your God given gifts, then you will have humility with your success, and that is good for the spirit. On the other hand, if you meet failure with anger, you harm your soul if you meet failure instead with the idea that you can succeed on another day, and don't allow anger to take over, then your failure will not harm your spirit.

When Others Remove Mountains

Jesus said that with faith the size of a mustard seed, a person could command a mountain to move, and it would move. While that is true, it is also true that the contrary thoughts of others prevent us from doing such things. Eventually, some of us will become Spiritual Masters and will be able to perform such deeds, although literally causing a mountain to move seems pointless to me. But it is known in spiritual circles that highly developed spiritual people have been able to turn away tornadoes and block wild fires. As we change and become more spiritual, the world around us is also changing in the same direction. We will reach a point where we will all be able to work what is now considered miracles, because there will be no materialistic people to counter those events. So while you probably can't move mountains now, you should always try to do your best in whatever you do.
