

“AI reveals cosmic anomalies in Hubble’s archive”

A team of astronomers has used a new AI tool to comb through archived data from the Hubble Space Telescope, revealing hundreds of strange, previously undocumented objects.

The team analyzed nearly 100 million Hubble *cutouts*, or cropped Hubble views measuring just a few dozen pixels a side.

And within 3 days they had identified some 1,300 unusual objects, over 800 of which had never been documented by scientists.

The Ancient Temples Taught Spiritual Wisdom

Ramesseum – Egypt Tours Portal

“In the old books, it is said that the Old Motherland was ruled by the Queen of Light, who was supreme above all. The temple tales tell that the lesser gods came to dwell among mortals when the Mistress of Brightness ruled in Kelathi, that they were sheltered in temples, and priests were appointed to minister unto them. It is said that places of instruction were setup within the temples, but few men were taught the inner knowledge. It was rightly held that it would be a danger to those without wisdom, and it had

to be safeguarded. Is this not the tale told in the Book of Beginnings? It is said that Kelathi lay within the borders of Kahemu, but could it not have been the land of similar sounding name outward from Pontas beyond Godsland?

“Is it not said of both that they were engulfed in fire and water? In the Book of Beginnings, it is said: The generations passed, and a vast amount of knowledge and wisdom was accumulated and preserved in purity. It was the heritage of mankind, but though man had learned to cherish the

light of Truth and walk wisely with it, nevertheless then as now, false priesthoods flourished. They pandered to the carnal desires of the undeveloped and exploited the weaknesses of the ignorant. Their iniquity built up a vast weight of evil in the Netherworld, which projected itself into the material of Earth, so that the powers which upheld it became unstable. This caused all the southern part of the Old Land to sink down into heaving waters.”

-The Kolbrin Bible(MAN:31:7-8)

Queen of Light

Since this part of the Kolbrin Bible was written by ancient Egyptian Priests, we can assume “the Old Motherland” was Egypt. It is not clear who this “Queen of Light” was, but it makes sense that at a time when Egypt had many mystery

schools, or temples, that they would be ruled by a person of Light. In other words, she was a very advanced spiritual person.

Lesser Gods

While the author calls these beings “lesser gods,” they were probably not gods at all, but highly advanced spiritual people.

Few Were Taught the Inner Knowledge

Just as Jesus taught basic moral teachings to the public and limited the advanced teachings to his apostles and disciples, the ancient mystery schools didn’t teach advanced spiritual knowledge to just anyone who asked. In most such schools, students were accepted on a trial basis for a period of two or three years. During that period, they were taught only the basics. At the end of the trial period, the teacher would decide if they should move on to more advanced teachings or not.

Book of Beginnings

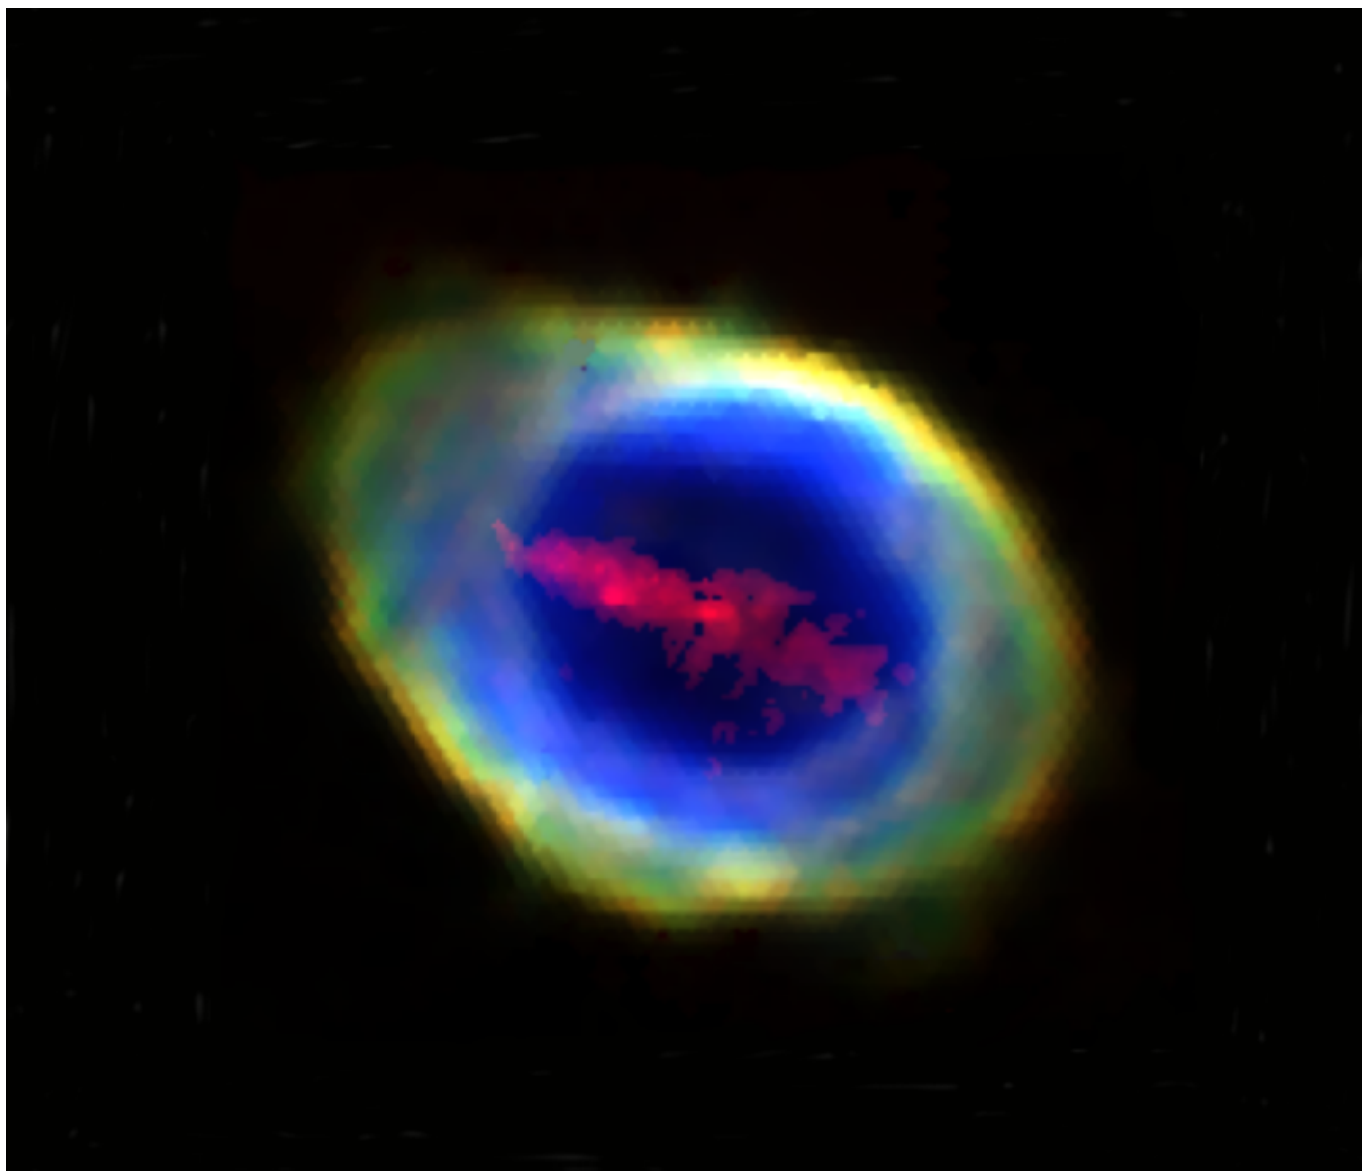

This Book of beginnings seems to be both a book of spiritual knowledge as well as a book of the history of the mystery schools. A great amount of wisdom was accumulated and preserved. Whether it was preserved in books, or only shared orally is unclear, but it is known that these temples forbid writing down much of that knowledge, unless it was written in allegory to prevent the wrong kind of people from learning such knowledge.

False Priesthoods Flourished

We see much of this today. In fact, nearly all churches and religions today do not teach the spiritual truths at all. Some churches today don’t even teach spiritual development, but just moral and social rules for existing in the material world. While such teachings are useful, they do nothing for

awakening and developing the Spirit.

“Iconic Ring nebula holds a mysterious iron bar, study finds”

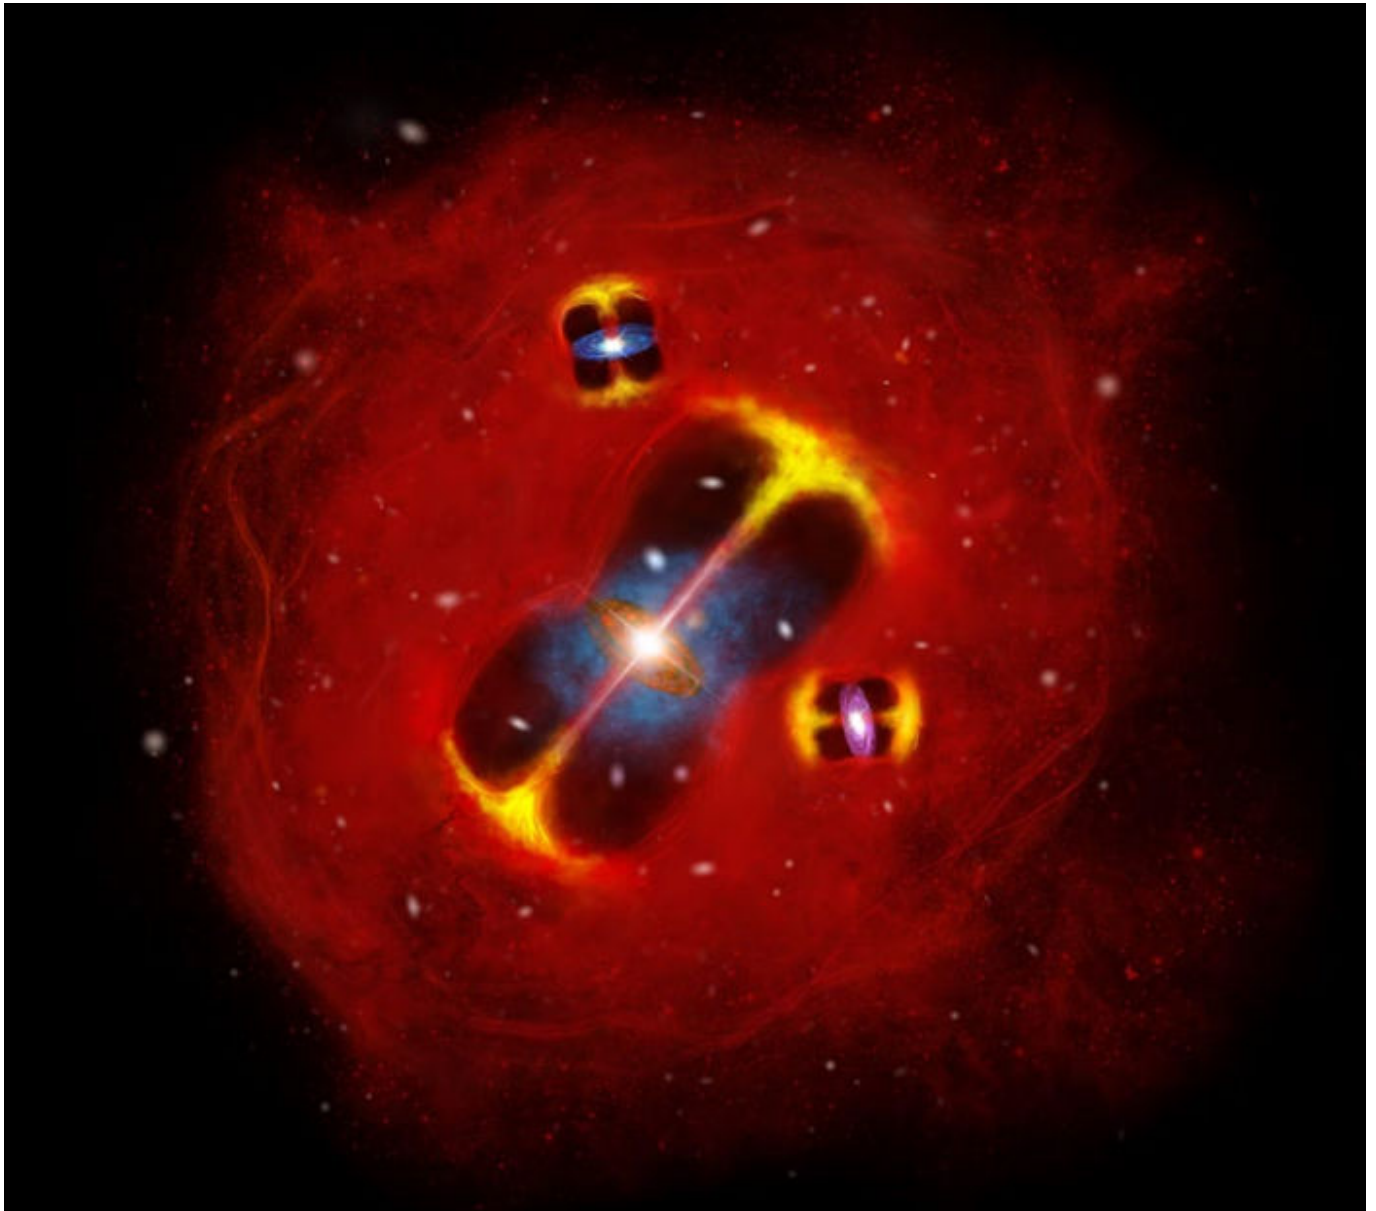

The iconic Ring nebula has been thoroughly studied by professional and amateur astronomers alike for centuries. And now, researchers say it's been holding a secret all this time.

The Ring nebula is a vast ring of gas and dust blown off by a star as it ran out of fuel, leaving behind a tiny white dwarf. And at the center of this ring, the new study has revealed, is a mysterious bar-shaped cloud of iron.

**“Astronomers spot a hot
galaxy cluster that defies
existing cosmic theory”**

Researchers at the University of British Columbia and Dalhousie University have found a young galaxy cluster that appears far hotter than theory allows. The international team, working with the National Research Council of Canada and using the Atacama Large Millimeter/submillimeter Array, reported the discovery in the journal Nature.

**“Milky Way’s central black
hole erupted surprisingly
recently”**

The supermassive [black hole](#) at the center of our galaxy, [Sagittarius A*](#), is far dimmer and less active than most other supermassive black holes we've studied. But new research says this wasn't always the case.

Scientists say that not only was Sagittarius A* once shockingly explosive, but this violent activity could have

been seen from Earth as recently as a few hundred years ago.

Glorify God with Thoughts and Deeds

“These writings are dedicated to The Great God Who is Eternal. May they live forever among things that survive to serve man. May they be an enlightening lesson and a warning to those who follow, for now a dark night of ignorance and fear overshadows the land. Your servant bows to Your will, O Great God Who is benevolent towards those who serve with purity of intent.

“We who remain loyal glorify You, not with mere words, for

the time of hypocrisy has passed, but in our inmost thoughts and in our deeds. We remember You as the sun rises to Your glory in the morning and, as in the evening, it sets into Your peace. Teach us that there is joy in being Your servants. Keep us under Your protecting wing.

“Great Spirit Who made the Nile to flow, the great water, which never wearies or ceases from its journeying. Its movement is as everlasting as the wind. May the stream of my life be filled to overflowing with the waters of righteousness. Loose the shackles of wickedness, which hold me captive. Let not the string of my lute be broken while I play, and let not my labors be ended before their fulfilment. Though men hail me for a greater thing than any that has been done before, it will not be my memorial. Time will eat away my name, but let many mornings dawn on my waking, that I may complete the task entrusted to me. Remove the fears that lurk about me in the solitude. Cut off the bonds of affliction that bind me down. Let my spirit roam free. We who remain loyal know Your laws and the Great Law, which is as firm as the hills of immortality. In the days to come great songs will be sung unto You, even as they were sung in the days of old.

“The priests can no longer be held in restraint by Umotif, and dark days threaten us. It is a time of foreboding, yet there is peace throughout Kahemu. The state of men in high places is such that the beauty of Truth has to be concealed from them, lest they profane even her purity.”

-The Kolbrin Bible (MAN:31:1-4)

God is Eternal

Foolish people will ask, “Who created God?” or “What existed before God?” If you understand what God is and what the Realm of Spirit is, you would know those questions are foolish. No one created God. If some being did, that being would be

greater than God. You can say that God is self-created. Likewise, nothing could exist before God, nothing could exist without God. God is the source of all creation. Even the fallen realm of matter was part of the spiritual realm created by God before the Demiurge altered it and changed it into matter.

We Glorify You

Those who remain faithful to the true spiritual teachings of the ancient Mystery Schools remain loyal to God and glorify God, never placing the Demiurge, or any other false god, ahead of the true God of Light and Spirit.

The Sun Rises to God's Glory

While the author of this chapter of the Kolbrin Bible doesn't say so, it should be clear that when he says "The sun rises to God's glory, he is talking about the Spiritual Sun.

Loose the Shackles of Wickedness

At the time this was written, Egypt was under the control of evil and wicked leaders. We are seeing much of this in our world today, so we can empathise with the author asking God to help save those who serve God from the evil ones.

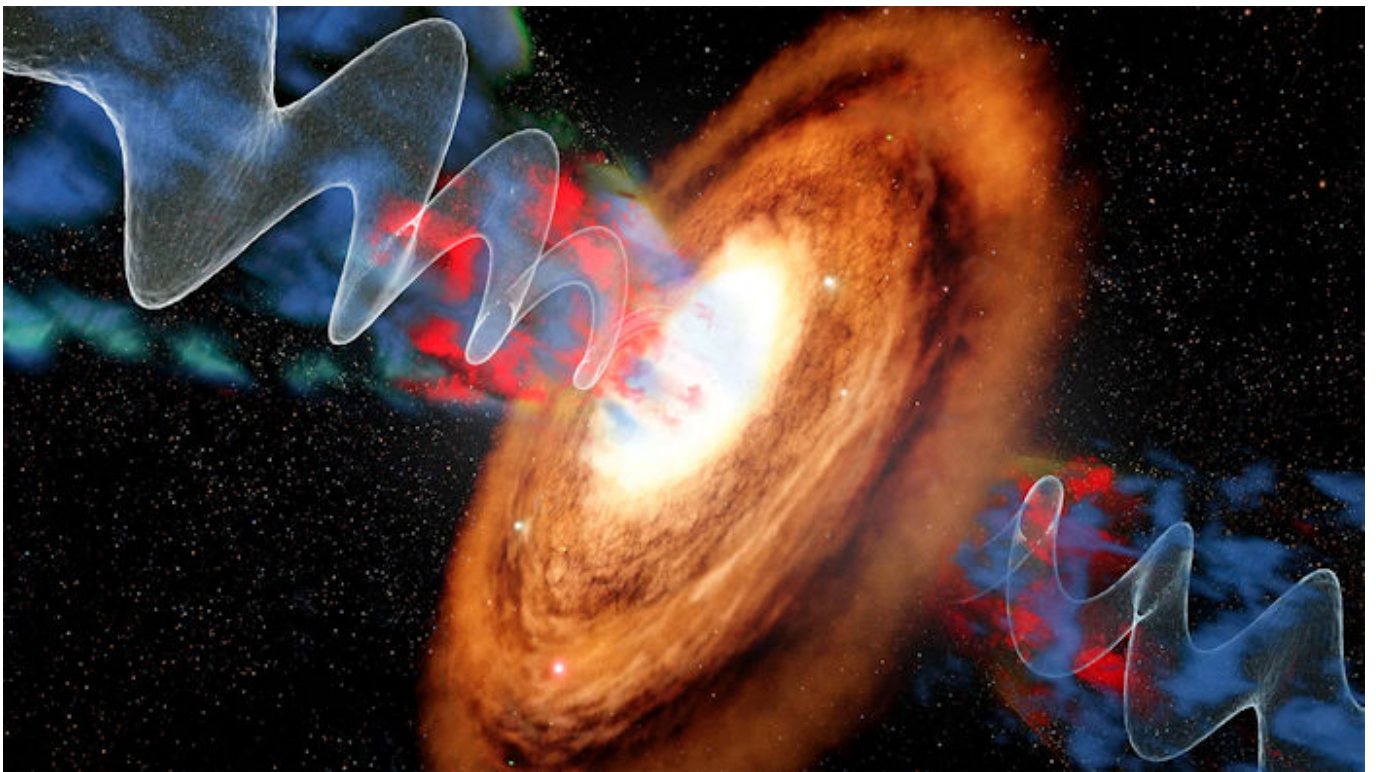

Let many Mornings Dawn on me

The author is asking God to give him a long life in the physical realm. He understands that the longer he lives here, the more he can help to achieve God's Goals and spread the Truth and Wisdom of God to those who are ready to hear it.

Great Songs

In the coming Golden Age of Enlightenment, great songs will be sung to God, as the Powers of Light finally defeat the powers of darkness forever, and the dark realm of matter will become Spirit again. So glorify God, who is the only one who can save us.

“Astronomers Discover the First Galaxy-Wide Wobbling Black Hole Jet”

Supermassive black holes play a key role in the evolution of galaxies, generating powerful jets that can quench or encourage star formation in their surroundings. Astronomers have found a galaxy with jets that extend up to 20,000 light-

years from the center, and seems to be stripping star-forming gas away from the galaxy equivalent to about 20 solar masses a year.

“Astronomers watch a supermassive black hole X-ray flare ignite an ultra-fast galactic wind”

A supermassive black hole in the spiral galaxy NGC 3783 just delivered an X-ray surprise that astronomers have never watched unfold so quickly. Using the European Space Agency's XMM-Newton and the JAXA-led XRISM mission, researchers saw a bright flare rise and fade, and then saw a burst of ultra-fast wind appear within about a day, racing outward at roughly 60,000 kilometers per second, near one-fifth the speed of light.

“Blue-white Rigel is Orion’s brightest star”

Rigel is one of several brilliant stars that grace our night sky this time of the year. It’s also the brightest star in one of the most beloved of constellations, [Orion](#) the Hunter. Rigel appears blue-white to the eye. It’s a stunning contrast to red Betelgeuse, Orion’s second-brightest star. Classified as a blue supergiant, Rigel is in the latter stages of its

stellar lifetime and will someday explode as a supernova. Hidden in Rigel's brilliance are at least three other fainter companion stars that can only be detected using large telescopes.

Few Can Be Trusted In a Land of Darkness

"To Ohsirahes from your servant, Panubis; may The One God grant you long life and contentment. May Nebetnif be your everlasting joy. May strife ever depart before your shadow.

"Your servant writes with difficulty, for his heart has

become small within him, and few are those whom he can entrust with tasks of importance. In considering the events occurring in the land, few are the words of assurance that can be written. Things do not get any better; from year to year they get worse.

“The secret writings remain with us, but they are lightly regarded by those who should cherish them. Few still walk in their light, and in all the land the right way of life is avoided. The path of righteousness is spurned; it is beyond the strength of men today. Here, at its heart, the land is

distressed. Better by far to dwell at the edge of the pool, where none but the strongest ripples reach, and they as no more than a slight disturbance.

“Men cry aloud with sorrowful hearts, for their lives are turned over. No longer are their institutions respected, and like wild dogs, man seeks to snatch the sustenance of man. Contentment and trust have departed; peace has gone, and hope is no more. Mornings come and men rise to greet them with anticipation of change, but this passes with the early mists and the sun goes down on despondency and despair. Your servant is heavy-laden with care; he is burdened with sorrow but adjusts his life to the times. Better by far would it be if he were many days journey away.

-The Kolbrin Bible (MAN:30:1-4)

May Strife Depart Before You

This is a great thing to say to anyone. We should not wish for strife or difficulties for anyone, even those who have earned it by their deeds, because if we wish such things on others, we are becoming hateful people ourselves. Instead, we should want that such people have a revelation and awaken to the truth.

Few Can Be Trusted

It is true now, and always has been, that few can be trusted with the truth. Not just basic truths about the world around us, but the Truth about God, and the power that resides in that truth. Those who have learned that Truth are always very careful about who they share it with. We are now living in a time where we see much darkness around us, and it will likely get worse before it gets better, so it is especially important not to give Divine Knowledge to those who would use it for evil.

The Secrets are Lightly Regarded

We see this today, especially in the United States, where being “woke” is considered evil and the government turns against anyone who is considered woke, even though many of those they considered woke are not really awakened in the spiritual sense. It is strange to consider that if these people are opposed to being awake, that means they prefer to be asleep and trapped in a kind of hypnotic trance where they are controlled by evil beings and forces.

Dwell at the Edge of the Pool

This line is allegorical. It means that we should try to dwell as far away from the centers of evil and darkness as possible. When that isn't possible, we should at least visit such places regularly. Our sanctuary in Reno is well away from heavily populated areas for that reason.

Adjust to the Times

There was a time when holy people were respected and had little to fear from the general public. There have always been evil people around, but not like today. So to some degree, we need to adjust to the times by tolerating things that we shouldn't accept and taking jobs that are not really good for people. In short, we may need to hide our spiritual nature to

avoid persecution by the Dark Ones. But we should also continue to make every effort to bring more Light into the world to push away the darkness.
