

Cosolargy Online Pilot Program Ready to Launch December 23, 2013

Dear Community Member,

At the General Assembly of Cosolargy meeting on October 2 our technology and business consultants, Empower Consulting Group, introduced those in attendance to the idea of online learning as part of our new global community outreach plan, and at the 4th Annual Conference on the Spiritual State of the World held October 4-6 in Reno, University Chancellor Sean Savoy announced the upcoming launch of the pilot for the first online educational program: *Project "X" Course on Ancient Solar Cultures–Level 1*.

"This program is being planned to involve not only new methods of teaching Cosolargy and presenting our learning materials online but also new ways of reaching out to the world via the Community's web sites. Global outreach and online learning will be a new focus as we take our Community further into the digital communication and information age," said Sean Savoy.

"For The Community, reaching new levels of global outreach is paramount to our future success as an organization with a universal, global Teaching to impart. It is within our mandate to reach people, to take the news of the New Light with its inherent intelligence and information to greater numbers. Using the internet for Community services and programs as well

as for our educational programs is quite a complex proposition—but an exciting one.

“We have much work to do as we convert our vast library of educational services and programs, including The Academy, Project ‘X’, and advanced sacred programs in Theology, Divinity and Liturgics.”

Since July, members of the Jamilian University staff have been on the path of creating a test program—our **“Pilot Project”**—to see how best to present some of the basic solar techniques and theory to new students of Cosolargy. Over the next few weeks, a test group will be introduced to “Week 1” of the online program, based on Project “X” research into ancient Solar Cultures, specifically, the Solar Teachings of the Americas, and will give us their feedback on its design and function.

In the meantime, we would like to share with you a short presentation that is intended to provide background to the undertaking of the Pilot Project— to give you an understanding of the how and why online education will help us deliver and evolve the Teachings and the body of work of The Community and our founder, Gene Savoy Sr., for the global community. The presentation is delivered by one of our consultants from Empower Consulting Group, Carol Vickers.

< [To watch the presentation, please follow this link.](#) >

NOTE: You will be asked to download the presentation, which may take several minutes (depending upon your internet speed). Or you may save it to your Drop Box if you use that program and then watch it from there.

To view the presentation, you will need to have Power Point viewer on your computer. If you do not currently have Power Point, [you may download the program by following this link.](#)

(If you have any problems following these instructions, don’t ask me. Speak to a young family member or friend.)

“Achieving Transformation”

“To achieve transformation, you first have to make a profound shift in the way you know things. How you make your world real to yourself must undergo deep revision. You can’t just keep processing data the way you’re doing it now—with an almost desperate need for speed. You need a new methodology that lets you naturally and effortlessly jump into expanded perception. This transformation shift, or leap of perception, requires new pathways through your brain, new habits of sensing and knowing, and seeing that your ‘brain’ actually included your heart, body, cells, and even the field of energy around you.”
~Penney Peirce

“I recently used a quote from Albert Einstein about how you need to rise above a problem, and the type of thinking that created the problem, in order to solve it. In order for the caterpillar to become a butterfly, it must stop thinking like a caterpillar, spin a cocoon, and then slowly transform. When that transformation is complete, there is very little left of what was the caterpillar. The butterfly doesn’t move like a caterpillar, doesn’t eat like a caterpillar, doesn’t look like a caterpillar, doesn’t think like a caterpillar. It has transformed.”

“Biophotons: the Human Body Emits, Communicates with, and is Made from Light”

PHOTO: HealthAeon.com

“Increasingly science agrees with the poetry of direct human experience: we are more than the atoms and molecules that make

up our bodies, but beings of light as well. Biophotons are emitted by the human body, can be released through mental intention, and may modulate fundamental processes within cell-to-cell communication and DNA.”

This article about sunlight reminded one of our newer Consociate’s very much of the research being done in Cosolargy. She says: “Conventional science may be catching up.” The article also drew out some interesting commentary from some of our science-minded Consociates. (See their remarks below.)

□

< [Read the entire article online at healthaeon.com.](http://healthaeon.com) >

link submitted by Estee Sabourin

□

Ron Theriault made these remarks on the article:

The article left me wanting to know how the ultra weak photons are measured. That aside, if we regard the human body as a complex ecosystem, it is not surprising, even expected, that by products on one process will be taken advantage of by other processes. But are bio-photons merely byproducts of biochemistry or something more fundamental? The piece implies the latter, but also mentions that they seem to be associated with free radical activity. What about interaction with the organizing field of the body? The article raises more questions than it answers, but seems to be in general agreement with Cosolargy.

Ron T.

Gary Buchanan responded to Ron Theriault’s remarks and to the information in the article:

Seems to me, and this is the principle upon which we base the Sonotherapy, is that the entire body is vibratory. All is held together via specific wave front patterns of phonons and photons, e.g., within the morphogenic fields...internally and externally.

“Wave Front BIOresonance” is a term owned/trade-marked, by us! (At Rev. Gene Sr.’s recommendation years ago.) No one else is allowed to use or define that term.

The 4th-phase vicinal waters determine the ionic charge, i.e., more or less positive or negative. The latter state is supportive of healthy function and creates within the fields up to a million impervious layers, especially if strengthened with infrared and ultraviolet wave lengths. (Pollack) Importantly, these vicinal waters (99{1fa2ef75e2e78439128d99df03acfe1d8ee3047374abe3d4676fe3470ff8b909} of the body’s material make-up) apply to all structures, e.g., tissues, sheaths, cell walls, mitochondria, ad infinitum, right down to the quantum and torsion field levels.

It is at the boson and/or soliton levels of pressure/thermal phonon chain interactions that biophotonic emissions occur. This is a natural ongoing process without which there would be no life to begin with (Neils Bohr Institute). Thus, there is a frequency interdependence between phonons and photons.

The body is not “electrical.” It is “vibratory,” making use of wave fronts of light and sound (Savoy). The techniques of Cosolargy allow for introduction of vibrating light and pressure waves. Within the aethers this is also “sound” (Vedas). It is the proper absorption and emission that is critical. In Cosolargy, generally, inflection and reflection. Such supports the “light body” and improves overall functioning.

Increased biophotonic emissions give rise to the impression

of electromagnetic flows. However, absent the phonon activity there would be no biophotons. So, the “body electric” theory is basically nonsense.

Alkalinity improves negative ionic processes; whereas, acidic states impede healthy functioning. Therefore, in ancient terms, the Yin (negative ionic state/earthy) is receptive to and supportive of Yang (Solar Energy – Basis of Shinto).

This is a “key” in the teachings of the Therapeutae and Essenes (others), namely that water is important in a great many ways. Baptism and numerous mikvah baths each day were only the tip of the iceberg, so to speak. Not only are the vicinal waters within the determining media through which light (both radiation and pulsed waves) phonon and photons intermingle, but enhanced states of those waters can regenerate and improve the entity and its fields.

The divine “waters” of light link with the material “waters” within. This also gets into hexagonal and snow-melt waters, the molecular geometry (Synergetic) of water in multiple states (not just plain water, 4th-phase, vapor, and ice,,,but many other organizational patterns). Vibratory receptivity is conditioned upon the abundance of “living waters” within. Another reason we are taught to stay properly hydrated, especially if taking the sun.

Via the pleomorphic functions (Rife), with water and sunlight one can live for a very long time. The internal waters with phonons and photons can morph through at least seven stages of transformation...producing whatever nutrients and regenerative processes are needed. Food is, and will increasingly become, unnecessary...as Buddhists have long demonstrated via higher states of solar meditation.

In Cymatics we can see not only how water carries phonon chains more rapidly (4.3 times faster, or more in 4th-phase waters), creating sacred geometries, but also that certain

frequency combinations, within both light and water, can create low biphotonic discharge... or higher. All a matter of proper frequencies and combinations. For example, in my latest video I demonstrate how Golden Mean, or PHI, ratios between frequencies can produce significantly greater photon emissions...in the body biophotons:

<http://www.youtube.com/watch?v=osmUvKwpGeQ>

Of late I have been corresponding with Gerald Pollack at the University of Washington (my alma mater). In January he will be assigning his researchers to begin studying these processes in the lab, e.g., the effects of phonons and photons on EZ water in the body. The plan is to use microscopic observations while applying sound and light to the waters, etc. An exciting undertaking I have been encouraging him for several years to consider.

“PATH TO LIGHT: Robert Roy”

Robert Roy presenting at 2013
"Spiritual State of the World
Conference" PHOTO: Stephan
Fuelling

*Thoughts presented at University of Reno, Nevada, 2013
Conference on the Spiritual State of the World, "Awakening
Your Light."*

How does one sum up a lifetime of learning in 10 minutes? It's not really possible. I have read many books by many great authors, visited and experienced the minds of many knowledgeable teachers in over sixty countries and found their spiritual knowledge to be severely lacking in great spiritual truth and, at times, even somewhat boring—like tasting sixty different types of vanilla ice cream and realizing that there must be more than vanilla out there.

Now I make that statement as a student of life and the humble son of Doreen Roy, a woman of simple birth in the land of New Brunswick, Canada, who brought nine children into the world and still had time to heal many around her. What she had, different from most people, was, I would call, a knowing. She was our mother, our teacher, our healer, as we never went to doctors. She preferred using herbs from her garden to keep our health perfect along with the most gentle love a mother could give. She never had ambitions to write about this gift that

she was blessed with, never wanted to teach, instead she put this gift to work every day helping others—with childbirth or with sick children, in a way we call holistic healing today. Our religious background was Roman Catholic, and at the enlightened age of six, I told my parents that I would no longer attend Sunday Mass at our church, and when asked why, I told them simply that God was not there.

After I left home and started my world travels at the age of nineteen, I spent the next twenty years trying to understand this gift my mother had. It was not psychic ability or a mental attribute but best described after all these years as, simply, a Blessing. My travels at one point landed me in Europe with a family of my own still trying to unravel the secrets of what is Spiritual and how to experience perfect health without effort. Fate brought me a magazine with an interesting story of a Community of Mystics in Reno, Nevada, who were bringing forth new teachings using an ancient system. I ordered three of their books, and they arrived just before my departure for India.

The books were fascinating, I had never encountered or experienced information of this nature, along with techniques that were truly new to this world of ours. I spent three months in India, which gave me ample time to experience this new system and apply the techniques outlined in the study portion of the books. By the time I returned home to Europe something had changed inside me; I looked at the world around me in a different way.

I started my correspondence studies with the International Community of Cosolargy with the knowledge that my destiny was with this school and these new teachings. Within two years I was on my way to Reno and a new life. My first meeting with the Man who was to be my Teacher for the next twenty-seven years was a very powerful moment indeed. My mother's aura came to mind, but this Man's presence was a millionfold greater in every sense. The knowing, that had been passed from my mother

to me, helped me understand that I was in the presence of a true Spiritual Teacher and envoy of God.

My spiritual studies started along with an urge to Heal, as the illnesses I saw around me in society seemed simple to remedy, yet people still suffered from these illnesses due to a lack of knowledge and guidance. With the International Community of Cosolargy I learned that although the body suffers needlessly from illness, the cause is situated deeper within consciousness. I followed this cause through the mind into consciousness itself. Now when I speak of consciousness in this context, I do not mean Spiritual Consciousness but more of what in Cosolargy we call 4th-dimensional consciousness—what we know as the psychic realm, a very complicated realm indeed.

Trauma and mental illness seems to affect this psychic consciousness by impression and in time will, by gifting an elevated psychic level to the individual, steer the person into a belief system based on the original experience of the trauma or mental illness. For example, if a person is religious and has a strong belief in the Virgin Mary, and this person suffers a difficult trauma, he or she could in time start to experience visions or communications with an illusion of the Virgin Mary, emanating from psychic consciousness, and with an elevated psychic level could even perform minor healings. Quite harmless until other people start to believe that this person actually communicates with the Virgin Mary. These traumas or mental illnesses can come from a near-death experience or from losing a family member or from being in a car accident.

The positive side of psychic consciousness is that it can be trained to work for you in a constructive way. When I started my studies in Reno in 1980 after leaving Europe and my own serious trauma, I had to work hard to retrain my thoughts with positive affirmations; otherwise, I knew that a serious

illness would befall me. At that time I thought I was programming my mind, but later on, with study, I learned that I had been influencing my psychic consciousness in a positive way. As an example, one of my daily mantras was simply that "illness does not exist," and to that effect I have not suffered any type of illness in over thirty years. (Now, of course, some of my friends may argue that I may have left out *mental* illness in that assessment!)

Now, Spiritual Consciousness, not recognized or understood by the lower psychic or mental consciousness, has not been experienced on this earth since the great masters such as Jesus or Buddha and, more recently, one more Enlightened Being, whom I will touch upon later. Spiritual Consciousness is from a Realm of Light far removed from this physical dimension and absolutely not concerned or interested with us in this lower realm of existence, unless we, through a system of Spiritual Healing, can reach out to this realm of Light and appeal to this Light to Heal us of our false beliefs and attachments to this false reality we live in. The International Community of Cosolargy has been given the means, the Spiritual Formula, if you will, to Heal our false sense of reality. The Community, using an ancient Spiritual technique, can teach students to view and experience the Spiritual Sun, which can open an individual to the incredible power of LOVE, only experienced by great teachers of time past. We are as sleepwalkers bouncing off the dreams of the many around us who continue to amaze and dazzle us with new inventions, new lower forms of healing, or the teachings of this or that guru. I, personally, want to wake up completely from this dreamworld. I seek only the One True God. I want to BE like Jesus; I want to BE like Buddha. I want to see and experience what they experienced. I want to walk through that Cosmic door into a higher, eternal life. I believe this was the message that every enlightened teacher brought to this world and that was only understood by a few.

I would like to leave you with a story concerning the time we are in. Many years ago I had the opportunity to read the books *Power vs. Force* and *The Eye of the I* and other material by Dr. David R. Hawkins, an interesting compilation of tests and experiments in Applied Kinesiology. Dr. Hawkins had done over a million sessions with Applied Kinesiology all over the globe. The sessions that formed the basis of his writings involved working with small groups of people in his office to working with large auditoriums of thousands of people at a time. He devised a method whereby, on a scale of 1 to 1000, he rated historical personages, using Applied Kinesiology according to the power of their existence on this earth, or if you will, the impression they manifested while in this dimension. The part of this experiment that caught my eye was his statement that when enlightened people were on Earth the consciousness of society (people living on Earth) was raised by that enlightened person. The greater the person, the greater society benefited. He pointed to Jesus as one who had the greatest effect on society by His Presence. I believe he mentioned a rise of 25 points on his grand scale of 1000 points for society while Jesus was among us. Then he made a statement that I found most interesting. He stated that he had only recorded one other time in the last two thousand years when there was a similar rise in the consciousness of society, and that was in the year 1960. Now he states that he did not know what happened in the world at that time to create this rise in consciousness, but I felt that I knew the answer. We, in The Community believe that a Christ Being was born into this world at that time. This recognition has been the bedrock of our Community since that time. There isn't time for me to say more on this personage, but there is more on Him in our study material. The Community also has a system of Healing using Color therapy, Sound therapy, and of course the Spiritual techniques relating to the Sun. Enough to fill a lifetime, for anyone, with treasures from a Higher realm of Truth.

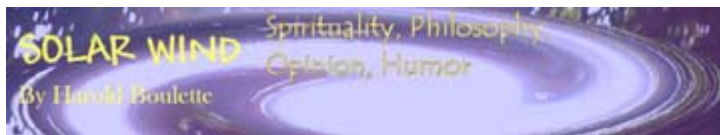

Well, this ten minutes is a “blink of an eye” in my life, but I have enjoyed sharing these thoughts with you and thank you for your kind attention, God Bless you all.

“Evolution & Its Control”

“How is it, we may ask ourselves, that any individual should come to step out of the march of evolution? We notice, in the first place, that it is only men of advanced character who take this step. What is it that causes this abnormal development of character?”

“Esoteric science has its traditional explanation of this problem also. It begins by premising that the evolution in which we find ourselves taking part is not unique, but was preceded by other evolutions and will be succeeded by still others. It also declares that evolution is not a blind, mechanical, material process, explicable in terms of physics and chemistry, but is essentially a mental process.” ~Dion Fortune

“Evolution is an interesting subject. It is reasonably proven

with regard to animals and plants that they have evolved in a generally slow, steady pace, but with some interesting exceptions. It is not so obvious with regard to human evolution.”

PATH TO LIGHT: Zatiti Ema

I have been on a plant-based diet for most of my life. I also work with living foods when I am feeling sluggish or on the doorstep of illness. I feel it is better to have some exposure to the discipline of making/eating certain foods before you are compelled to by destiny and/or an unsettling diagnosis.

To this end, I began a regular regimen of making and drinking green drinks. I lost weight, my skin improved, my energy level improved, and I felt younger. I began teaching and writing about my experiences and even selling blenders.

Then one day while in bit of a trance while outside in the sun, it occurred to me that these plants are absorbing sunlight and then this light is being transferred to those of us who eat them. So why not just go directly to the sun.

This led me to books on sunlight and the benefits of sunlight to one's health. I when I ran into HRM on YouTube, I jumped into his practice, working my way up from 10 seconds to 25 minutes per session. I felt an increase in energy, but also my eyes started to heal. I formerly could not see very well, especially at night. But in a very short period of sun gazing my night vision returned. I have returned to driving at night without fear and trepidation. I am waiting for the sun to turn my gray hair back to black. (Ok, I would settle for dark brown, and it could be thicker as well. I know it is a stretch, but nothing beats a failure but a try!)

I was involved in a head-on car event, and this caused a major shift in my cognitive abilities. Some returned, but my attention span (especially while reading) and writing abilities loomed in a backward motion. Now I feel those skills strengthening again.

When I got up to about 15 minutes a session, I ran into the work of Dr. Mitchell Gibson, who spoke about Gene Savoy. In fact he credits Savoy as one of his major teachers/guides.

This sent me into research on yet another luminary. I ordered *Project X*.

I found that I shared some common threads with Mr Savoy. I have gone to many archaeological sites and museums. My attention was focused in Mexico, including Mexico City, La Venta, Palenque, and Mérida to name a few. I was especially attracted to the so-called Olmec and Mayans. Not having the skills or language to decode much of what I saw, I could not take full advantage of those excursions. But I kept going, knowing at the right time the teacher would appear. Seems they have indeed appeared.

I feel I have been traveling on a horizontal path with the Jamilian School without being aware of it for several years. I am glad finally to be in the same orbit and in class!

“Cultivate Patience”

“A particular effort must be made to cultivate the quality of patience. Every symptom of impatience produces a paralyzing, even a destructive effect on the higher faculties that slumber in us.” ~Rudolf Steiner

Patience is not only a virtue, but for those seeking spiritual enlightenment, it is one of the most important virtues.

“Issues with Self-esteem”

“Our seventh struggle is against the demon of self-esteem, a multiform and subtle passion which is not readily perceived even by the person whom it tempts.... The vice of self-esteem, however, is difficult to fight against, because it has many forms and appears in all our activities – in our way of speaking, in what we say and in our silences, at work, in

vigils and fasts, in prayer and reading, in stillness and long suffering. ... When it cannot seduce a man with extravagant clothes, it tries to tempt him by means of shabby ones. ... When it cannot puff him up with the thought of his luxurious table, it lures him into fasting for the sake of praise. ...

The person who wants to engage fully in spiritual combat and to win the crown or righteousness must try by every means to overcome this beast that assumes such varied forms.” ~The Philokalia

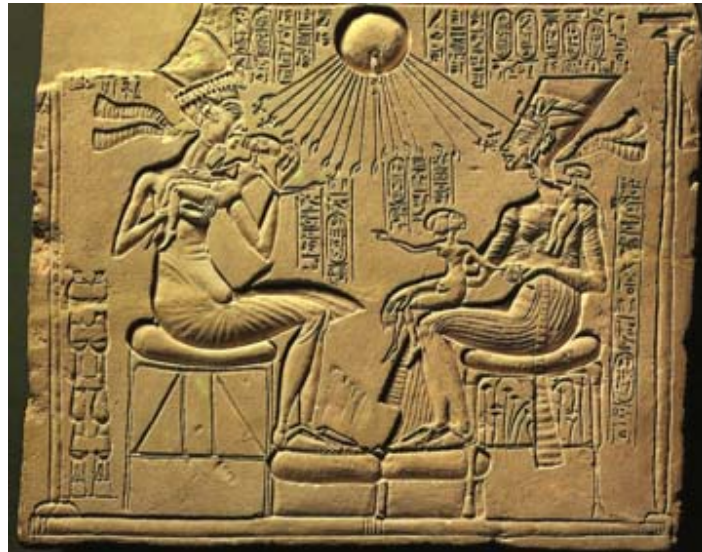

“This seems like an odd complaint to many of us today because our modern society has pushed the idea of self-esteem as a virtue. Our public schools in particular have pushed the idea that self-esteem is such a wonderful thing that we all need lots of it and every student in their schools is given piles of it for virtually nothing.”

PATH TO LIGHT: Emanuel Ratliff

Akhenaton and Nefertiti

This magical story begins in the deep south of Louisiana; particularly, the 9th ward of New Orleans. A little boy named Ernesto and his siblings were playing among themselves in the hot summer Sun. While playing marbles with his siblings, Ernesto suddenly stood up and decided to look at the Sun. The moment Ernesto glanced at the brilliant and scintillating light of the Sun, his life was immediately changed forever. To the boy's surprise, the Sun actually answered him! The Sun told Ernesto that his uncle had just passed away and that he should tell his mother the sad news.

Ernesto quickly ran inside the house to deliver the sad news to his family. Ernesto's family questioned him as to why he was not playing with the rest of his siblings. Ernesto

exclaimed that he had important news to deliver to his mother. All ears were on the boy waiting to hear the important news. Ernesto stated with a sure and calm voice, "Uncle just passed away today."

Ernesto's mother was deeply saddened by the news because she believed her brother was still alive in the hospital. She asked Ernesto who told him this news. Ernesto explained that the Sun in the sky told him the news. Suddenly, the neighborlady across the street called Ernesto's mother to her house because she had had a phone call from the hospital where Ernesto's mother's brother had been admitted (during those times, not everyone had a phone in their house). The doctors told Ernesto's mother that her brother had just passed away about an hour or so ago. The voices in the room fell silent as they could not believe what they have just heard. From that moment on, Ernesto's life changed dramatically because he had the "gift."

In New Orleans, it is assumed that when a baby is born with a veil (caul) over his\her face, he\she will have supernatural powers. Mostly in African American culture, it is an omen that the boy will be able to speak to invisible entities. Ernesto happened to be born with a veil over his face but didn't show signs of psychic prowess until the age of three. Ernesto was able to communicate with the so-called dead and could foretell events before they occurred. Ernesto became an exceptional, gifted child and excelled in any activity he put his hand to. Throughout his life, paranormal activities never ceased to happen to him and actually became stronger as he matured.

Ernesto became very confused about his life and why he was given this "gift." Christianity couldn't answer any of his pending questions. He therefore went to find his own path. He studied different cultures who used the Sun and discovered that the Christian Bible did in fact contain truth about a solar culture. Ernesto studied vigorously throughout the night, attempting to break this code for the purpose of inner

truth. His bones ached terribly, and his feet began to swell from sitting in the same position for a long time. Ernesto persisted, and he did finally find the answer he was looking for.

Unfortunately, no one would believe the wonderful news he discovered buried in the texts of the New and Old Testaments. Ernesto was viewed by his fellow men and women as a lunatic and false prophet. He was disdained by the same society he grew up in. Although he received resistance from his community, he still persisted, unnerved by their comments. Ernesto believed that the true "Sun God" would reveal himself again as he had when Ernesto was three. Sure enough, the Sun would appear to him in the form of a spirit.

While sleeping next to his wife, Ernesto was approached by a spirit concerning the birth of his third son. The spirit informed Ernesto that the child would be born out of the "word." The baby's birth will be mythical since he will be born on the same day as his mother. Ernesto quickly awakened his wife to alert her to the news. Ernesto's wife, Joanie, could not believe that the dream was really a prophecy. Joanie rubbed her stomach and said, "I believe our next child will be a girl, because I've been waiting on this one. I can feel it!" Despite Joanie's beliefs, she did have a son on the 24th of June, which is her birthday. The child's birth was normal like any other child's. His pigmentation was lighter than most African Americans, but that was a common occurrence in Ernesto's family.

As soon as the new baby was brought home, Ernesto dedicated his new child to the Sun of Righteousness. From that day forward, the child's life would be directed by the will of "spirit." Although the names have been slightly altered, the story is true. This is my story and this is how I found the Jamilian University of the Ordained. I was called to this school by unexplainable circumstances that are too difficult to explain because of the limitations of human speech. I am

not concerned with how I came into being but more or less how I can further my knowledge about the universe around me. I would rather live in the now than obsess over a divine birth. As most people have come to know, even Jesus (Yeshua) had to learn a thing or two in the so-called "mystery schools" before he could perform miracles. From living on this Earth for such a short time, I have come to find out that we are made up of this divine cosmic stuff. God, for lack of a better word, is in us all. It shines light on all of us, rich or poor, black or white. Of course this is obvious and well-known information. Nothing is new under the Sun, as the saying goes. I look forward to my journey and accept any challenges that await me. With every defeat, there is victory and understanding that emerges from the tears of failing.

I would like to thank the editor of the *Community Communiqué* for allowing me to publish my thoughts. I would also like to thank all of the readers who took the time to hear the words from my heart. God bless you all.

With the deepest love,

Emanuel Ratliff
