

Pharaoh Disclosed Some Spiritual Mysteries

“It was the wife of Pharaoh who influenced him to disclose some of the mysteries, which, since the time just mentioned, had been completely withdrawn and very carefully hidden. Thus, though the forces of evil had prevailed in the land they had not uncovered the Inner Shrine of the Sacred Mysteries. Such mysteries as they had discovered proved of little value to them and were soon so distorted and perverted as to be useless. The great secret of how to penetrate the barrier between the two spheres of mortal and spirit was

still completely secured. If nothing else, its very dangers would have safeguarded it.

“Actually, though it is said that Secret Mysteries were disclosed, this did not happen. All that did happen was that Pharaoh used the knowledge he had to try and give the people a greater insight into the way of light, the True Way. As is ever done, he veiled the all-consuming brilliance of Truth, leaving just sufficient glimmer to light the way, to become a beacon. Nabihaton, himself saw the Truth but dimly, for though he tried, he failed to meet the tests of an Enlightened One. Perhaps it was this that inclined him away from the faithful. How many, when they discover what the knowledge of Truth entails, falter on the path?”

-The Kolbrin Bible (MAN:34:36-37)

His Wife Influenced the Pharaoh

The fact that Pharaoh's wife influenced him to reveal some of the spiritual secrets that he had learned from the mystery schools indicates that she was probably initiated into some of those mysteries herself. If not, then it is likely that the pharaoh had revealed some to her. This does show, as the quote says, that the Great Knowledge of Spiritual development was withdrawn from the people and hidden, as it remained until quite recently.

Forces of Evil Prevailed

The Forces of Evil are those who practice materialism and consider it superior to spirituality. The demons and devils know better, but when they whisper into the ears of men and women, they lie to promote the material realm where they maintain some limited control over people. They also tried to uncover the Sacred Mysteries, but only succeeded in learning the most limited teachings, such as chanting and meditation,

which are useful, but do not awaken and develop the Soul.

Barrier Between the Spheres

The barrier between the spheres of matter and spirit is a real thing. It is sometimes called a veil, or veils, and the original story of the Phoenix had that bird flying up over the sun each morning, and spreading its wings to block out certain frequencies of light. The good news is that the barriers are being lifted in this age so that more can awaken to their spiritual Self, and the need to develop it.

The Pharaoh Gave Insight

The Pharaoh did not reveal the mysteries to the general population, but he did give them enough information to encourage them to seek the Way of Light, the True way. Today, we can reveal that the Way to the True Light is in a Spiritual form of sun-gazing, where one looks primarily at the Spiritual Sun rather than the physical one (never stare directly at the sun). You do have to be a student of a legitimate Spiritual School, such as Cosolargy, to know how to do that correctly. You also need to have the proper attitude of love and humility.

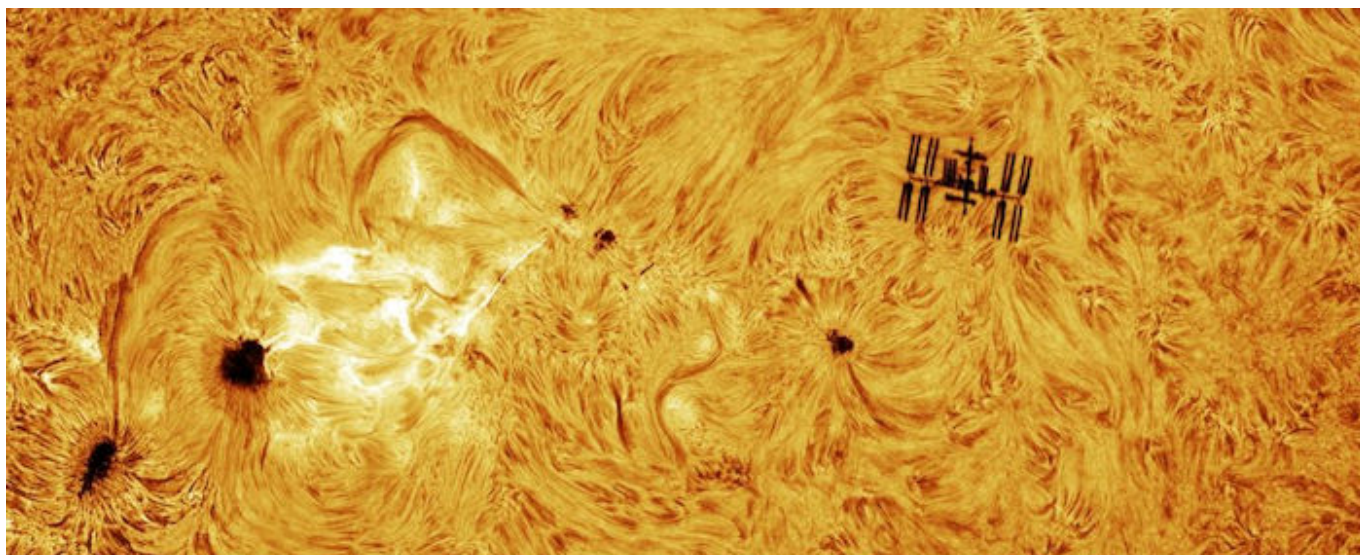

**“Double detonation supernova
destroyed this star!”**

For the first time, astronomers have obtained an image of a star that met its end by detonating *twice*. Scientists used the European Southern Observatory's Very Large Telescope ([VLT](#)) to image the centuries-old remains of supernova SNR 0509-67.5. They announced today (July 2, 2025) that they've found patterns confirming its star suffered not one but two explosive blasts. This discovery shows some of the most important explosions in the universe in a new light, the scientists said.

“Solar Flare Photobombs The ISS in Perfectly Timed Photo”

Pictures of the International Space Station as it passes in front of the Sun or Moon are a bit of a feather in the cap of space photographers – but Arizona-based astrophotographer Andrew McCarthy bagged a real prize.

When he headed out to the Sonoran Desert and set up his equipment to attempt to capture an ISS transit, he was surprised by a medium-sized solar flare in the background. The resulting image captured not just the space station as it whisked past the surface of the Sun, but the transient appearance of a solar eruption.

“Introducing Scorpius the Scorpion and its legendary

Stinger”

With a little imagination, you can see the stars of Scorpius tracing the shape of a scorpion. The bright red star Antares marks the Scorpion’s Heart. There’s even a Stinger. Think constellations don’t look like their names? Meet the Scorpion! Night sky veteran Deborah Byrd has details.

**The Enlightened Gained
Strength in Egypt**

“Nabihatton rose to rule while still very young, and though it is said that he died in the grip of a demon, with blood welling up from within his mouth, the other version, that he died a tombless wanderer, seems more probable, for it is so written on the Tablets of Amon.

“In the days of his father, the Enlightened Ones had regained strength in the land of Egypt, though they remained a hidden force, and all their deeds were secret. Nevertheless, they were not unknown to the

priesthoods, which were then strong, though they were regarded with much disfavour. In those days, the charges made against the Enlightened Ones were that they stirred up the

lowly against the powerful. That they tried to turn the land over, to change that, which had ever been. Therefore, those who knew

The Great God dwelt in seclusion and hiding. Their names were unknown, their faces unseen.

“The mother of Nabihatton was Towi, one of the Chosen Ones. In those days there were still four ranks of the faithful: the Twice Born, the Enlightened Ones, the Chosen Ones and the Dwellers in Light. Among the Dwellers in Light, there were Seekers in Light and Laborers in Light. Even then as now. The wife of Pharaoh, though of high blood, was no more than half Egyptian; her ways were strange. While he had still not come to manhood, the mother of Pharaoh taught him the ways of light. She revealed many of its secrets, probably without proper authority, though this cannot be known. However, though the Leader of Light in Egypt was never far removed from the Pharaoh, only during days in the far distant past were the kings numbered among the enlightened. Only in the days of true greatness, days long gone down into dust, days long forgotten in the land.

-The Kolbrin Bible (MAN:34:33-35)

Nabihatton

Who this leader was is unknown. A Google search for the name turns up nothing. It is interesting that there are two conflicting stories about his death. The tale about him dying in the “grip of a demon” is probably made up by his enemies and the enemies of enlightenment. As the author of the quote says, the most probable story is that he died a wanderer. There is no explanation of how a Pharaoh became a wanderer.

The Enlightened Ones

Here we suddenly jump back a generation to the time of Nabihatton’s father. The enlightened people, those who are

today called “woke” by materialists, had regained strength but remained secret. Until just a few decades ago, that is how it remained. Mystery schools operated in secret, and their teachings were never to be written down or spoken of in public. The author adds that they were well known to the priesthood of that age, which tells us the priests themselves were probably among the enlightened, unlike the vast majority of priests and preachers today.

They Stirred up the Lowly

That sounds familiar, doesn't it? Today, we see many who are opposed to the “woke” people because they think they will stir up the masses into rebellion. They don't understand that the Enlightened are all about peace and love, so while they may not like certain governments or elected officials, they never promote violence against them.

Four Ranks

The mystery schools of this period had four ranks within them. The spiritual schools of today may differ, but most have a hierarchy of ranks. In Cosolargy, because we are a church as well as a spiritual school, we use the ranks that are common in Christian churches. Some exceptions are in the highest levels, where older men and women can be chosen to be part of the Order of Matriarchs or the Order of Patriarchs. The people in those levels are known as Reverend Fathers or Reverend Mothers.

The Mother of Pharaoh Taught Him

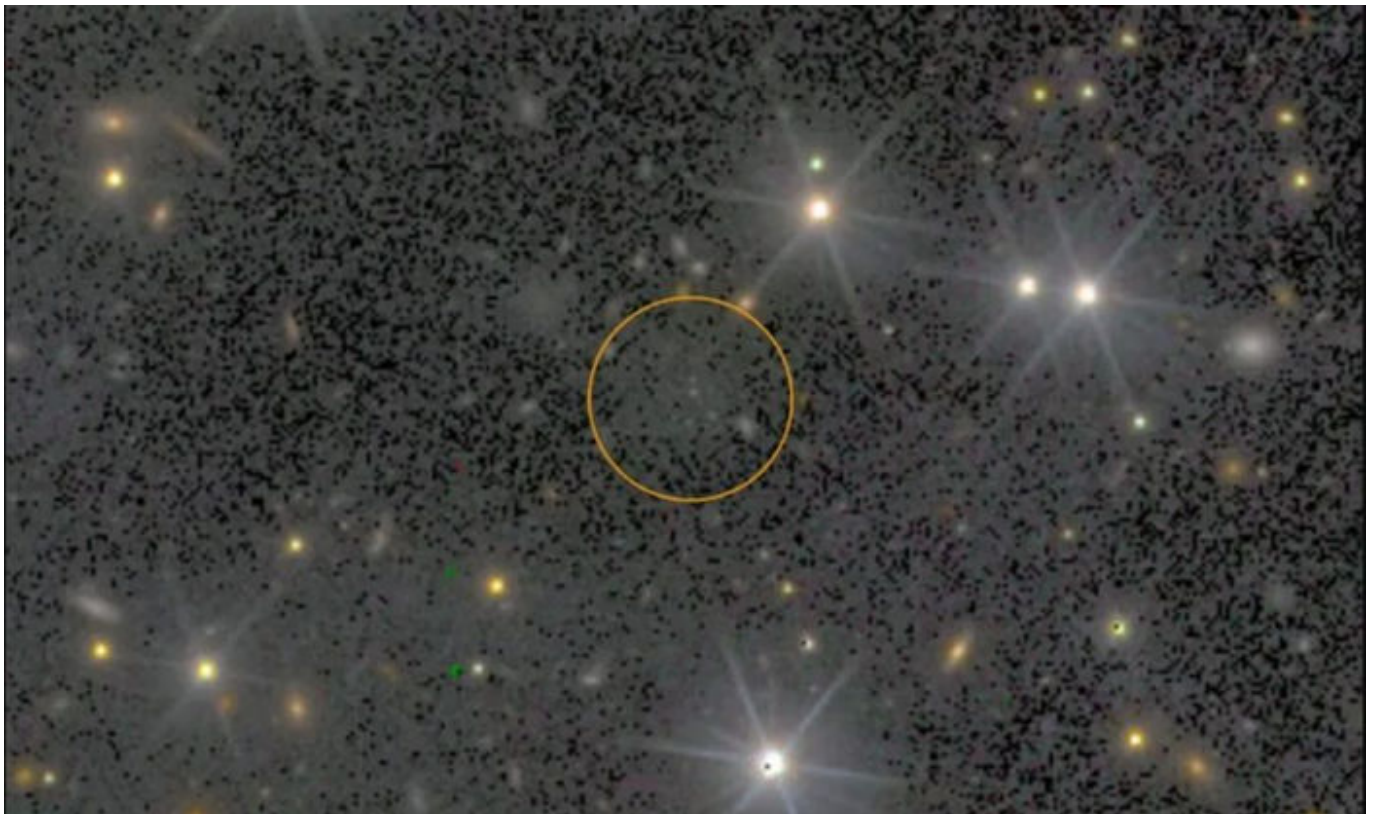

The quote says the mother of Nabihaton taught him some of the teachings of the Mystery Schools. This is a proper thing to do, and is part of the teachings of Cosolargy. Each generation of enlightened people whose parents were also enlightened is more spiritual than the one before. That is why Bishop Savoy Senior chose his sons to succeed him rather than other individuals who had been in the community longer but were

first-generation.

Enlighten Kings

Not only in Egypt, but in other ancient civilizations, the kings were often among the enlightened. In many cases where they were not enlightened, they had advisors who were. This allowed such rulers to rule justly, honestly, and with love, rather than with greed and hatred.

“Star clusters reveal possible dark matter galaxy”

When you look at the night sky, all the light you see is what astronomers call *ordinary matter*. It represents only 15% of the matter (mass) in the universe. A mysterious substance called dark matter makes up the other 85%. So when you look at a galaxy through a telescope, all the light you see is ordinary matter. But is it possible to have a galaxy made out of dark matter? On June 20, 2025, the University of Innsbruck in Austria said researchers have discovered a dark-matter galaxy candidate in a cluster of galaxies some 240 million light-years away.

“Behold! World’s Largest Camera Snaps Millions of Galaxies in First Pics”

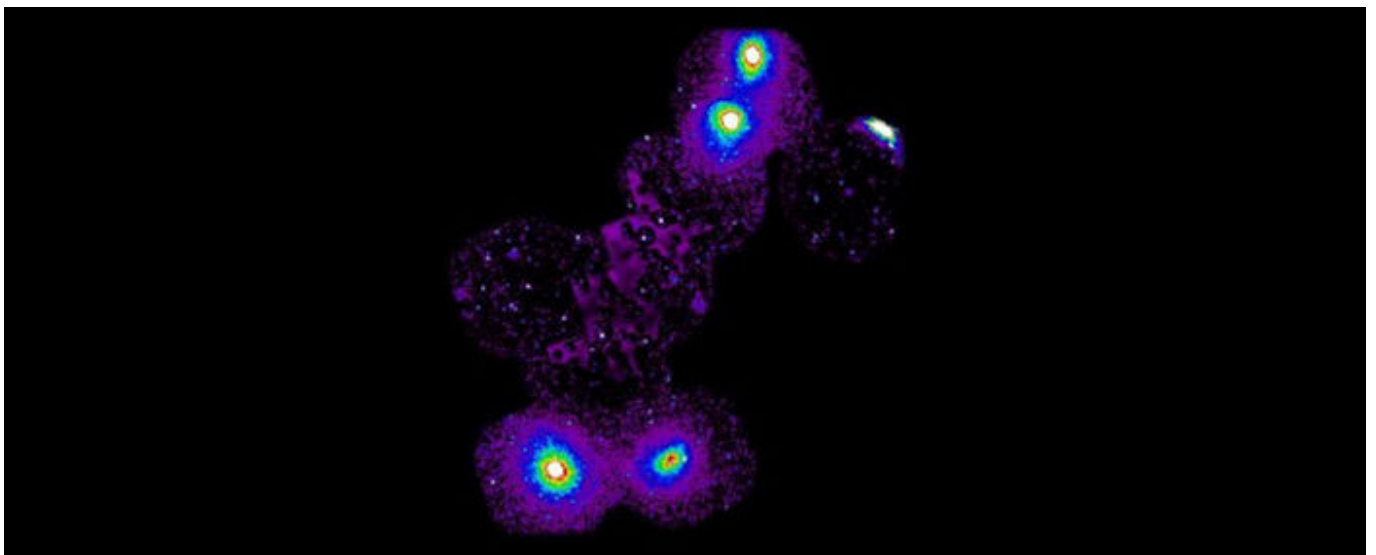

The Vera C. Rubin Observatory has just dropped its very first images. Expected to revolutionize our understanding of the Universe, the new eye on the sky hasn't disappointed.

For 10 hours, the US National Science Foundation and Department of Energy facility stared deep into the cosmos, using its powerful camera to record in near-ultraviolet, optical, and near-infrared wavelengths. The result is a tantalizing and exciting set of observations that bode well for the years to come.

“Astronomers Uncover a Massive Shaft of Missing Matter”

Another clue about the whereabouts of the missing matter in the Universe has just emerged from amid the largest local cosmic structure.

X-ray observations have revealed a massive filament of hot gas, measuring some 23 million light-years in length, in the space between four sub-clusters of galaxies in the enormous, 8,000-galaxy strong Shapley Supercluster.

“Sculptor galaxy pops in new 1,000-color image”

On June 18, 2025, astronomers shared a 1,000-color image of the Sculptor galaxy from the European Southern Observatory’s Very Large Telescope ([VLT](#)). The rich colors of the galaxy come alive in this image, which took more than 100 exposures and 50 hours of observations. The details in the color help

astronomers understand what is happening inside the galaxy, which lies 11 million light-years away.

“Listen to the Sun like never before | BBC”

The sun is the brightest object in the solar system, and also the loudest. It emits a low-frequency hum in the range of 140 decibels. We don't hear it because there is no air between the

sun and the Earth to carry the sound.
