

“Buddy James : Magnetohydrodynamics”

Magnetohydrodynamics is the branch of physics that studies behavior of electrically conducting fluids in the presence of magnetic fields.

Examples of such magneto fluids include plasmas, liquid metals, salt water, and electrolytes.

To understand the predictive analytics of the Dougherty set and how it applies to the Electric Universe Model of Cosmology, Interdisciplinary Geometer Buddy James illustrates ten real-world validations of magnetohydrodynamic currents, flows and patterns.

Cosmology of the Spirit

Jesus said, "Come here so I can teach you what no person has ever seen, for there exists a great and boundless realm whose horizons not even a generation of angels has looked upon. And therein is the great invisible spirit, which no eye of an angel has ever seen, no thought of the heart has ever comprehended, and it was never called by any name.

" Then a luminous cloud of light appeared. The spirit said, 'Let an angel come into being and he will become my attendant.' A great angel, the enlightened divine self-generated, emerged from the cloud. Because of him, four other

angels came into existence from another cloud, and they became attendants for the angel, the self-generated angel, who said, Let Adamas come into being,' and Adamas emerged into being.

"Adamas was in the first luminous cloud that no angel has ever seen among all those who are called 'god.' He was after the image and after the likeness of the angel. He made the incorruptible generation of Seth appear to the twelve luminaries, twenty-four of them. He made seventy-two luminaries appear in the incorruptible generation in accordance with the spirit's will. Then the seventy-two luminaries"

"The worldly multitude of those immortals is called the cosmos-corruption, inviting decay-made by the father and the seventy-two luminaries who are with the self-generated and his seventy-two aeons. In the cosmos appeared the first human with his incorruptible powers. And the aeon who appeared with his generation, the aeon in whom are the cloud of knowledge" ~The gospel of Judas

A Great and Boundless Realm

The Great and Boundless Realm is the Realm of spirit. It is boundless because it exists outside of the limits of space and time. It has no size, no beginning and no end. It is great because, in that realm, there is no death, no disease, no old age, and no suffering. It is the place the soul yearns for and seeks to return to once it is awakened. It is not possible for the mind to know this realm except in vague generalities. It can be truly known only by the soul. I think Judas is wrong, however, in saying that no angel has looked upon this realm.

Adamas in the First Luminous Cloud

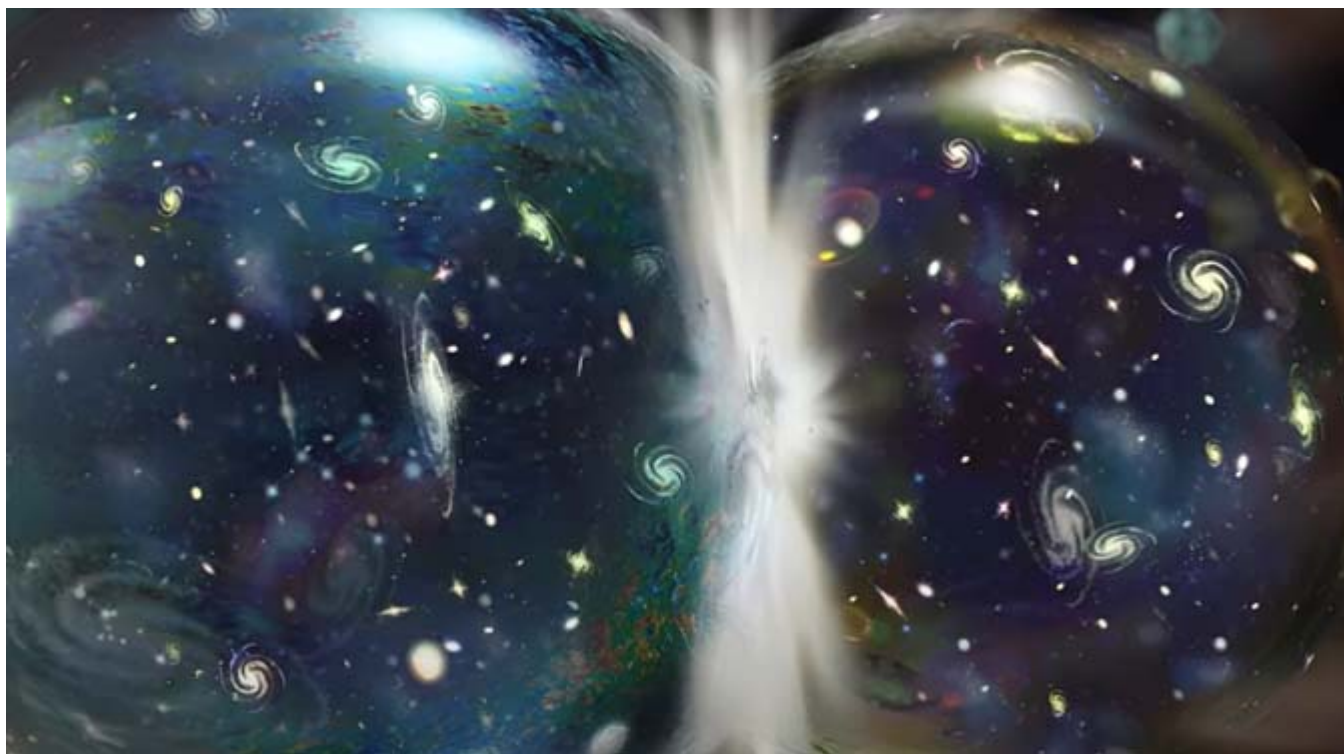

Adam as the symbolic representation of the first human was created in the First Luminous Cloud" which is the realm of spirit. Adam was created in that realm, therefore Adam was spirit, not matter. It was only after the Great Fall of Adam

and Eve into the lesser realm of matter that Adam and Eve took on physical forms.

Adam in the Cosmos

Adam started as a Spirit living in the spiritual world. He “fell” to the material world after he and Eve ate of the Tree of Knowledge of Good and Evil, which is to say that he ate material food and material light. As spirits, Adam and Eve were immortal. After they became physical, they became mortal. The physical can never be immortal. But they still had a soul that is immortal, however, it is necessary to awaken the soul and develop it while still in the physical world if we are to enjoy immortality in the next world.

“Ghada Chehade: Criteria for a New Model of Cosmology”

Given the current crisis in the Standard Model of Cosmology—plagued by mounting anomalies and contradictions this model cannot resolve—many scientists find it is no longer a reliable guide to problem-solving.

These scientists believe the Standard Model will eventually will be replaced by a different model speaking a fundamentally different language—making the old and new models irreconcilable and incompatible—which means that they cannot coexist.

Ghada Chehade, PhD, an accredited discourse analyst, establishes the criteria—using Thomas Kuhn’s paradigm shift cycle—for a new model of cosmology, and explores some alternatives to see if they meet this criteria.

“Gareth Samuel: Electrically Stressed Stars”

Conventional science says the largest stars are near the end

of their life—and will expel vast amounts of material to form a planetary nebula. In an Electric Universe, these stars are deprived of electrons which forces their outer plasma sheath to expand. A planetary nebula is not the remnants of a dying star but is connected and lit up in glow mode due to a pinching event around the star itself.

Gareth Samuel, EU advocate and creator of “See the Pattern,” examines the rings and jets of V Hydrae—a carbon red supergiant 2,000 light-years from Earth—and why it’s launching balls of plasma into space.

A Prayer From the Soul

“I, a poor unworthy creature, come before thee, o Great and

Holy God, and lift up my eyes to thee. Though I am not worthy, yet Your great Mercy, and Your faithful promise in the Word, have now encourages me to lift the eyes of desire of my Soul up to You. For my Soul has now laid hold of the Word of Thy Promise, and received it into itself, and therewith come to You. And though it is but a strange child which was disobedient; and does now infold itself with its desire into that Word which became Man, which became flesh and blood, and has broken sin and death in my humanity. Which has changed the anger of God into love unto the Soul, and has deprived Death of his Power, and Hell of its victory over Soul and body; and has opened a gate for my Soul to the clear Face of Thy Strength ad Power. O Great and most Holy God, I have brought the hunger and desire of my Soul into this most Holy Word, and now I come before You, and in my hunger call unto You, the Living Fountain, through thy word. ... I receive it firmly into the Desire of my Soul as my own life and I pierce into You with the Desire of my Soul through the Word in Christ.” ~[Jacob Boehme](#)

Unworthy Creature

Boehm starts his prayer by saying he is an “unworthy Creature”. This seems more than a little harsh, but it makes the point that we should approach God with humility, not as if we are the masters asking a servant to do something for us. We need to recognize that God is the greatest being that exists and individually, we humans are not as important as we like to think we are.

Faithful Promise

Again Boehm says he is not worthy but God will listen to his prayer because God has promised to do so. God listens to those who pray with humility and are seeking spiritual growth rather than material things. It is fine to ask God to help you solve your money problems, or to heal the illnesses of the body, but not to just ask him for a car or a new house simply because

you want one. Those pleas will be heard by Satan, the god of matter, and he may provide what you ask, but will demand payment at a later time.

My Soul Has Received the Word

Only the awakened soul can “hear” the Word of God. Only an awakened soul can reach the high level of consciousness that allows it to communicate with God and the Angels. And the true Word of God can only come to us this way. It can’t be found in any book or scripture. It can’t be gained by intellectual development. It must be gained by the awakened and developed Soul.

Anger into Love

Boehm says that the awakened Soul that has received the Word of God, changes God’s anger into love. That isn’t exactly what happens. When the Soul becomes enlightened, it simply knows that God was never asgry with it, but always ha love for the Souls He created. God may bee disapointed when we don’t follow a path of spiritual growth, but He isn’t angry about it. It is the false God, the Demiurge, that gets angry and jealous, not the true God in Heaven that created our Spirits and Souls.

My Hunger Calls

Once the Soul is awakened, it hungers for God, it hungers for Heaven. It is never satisfied with the material world. It hungers to bathe in the waters of the Living Fountain of God. The Living Fountain of God is theLight that God sends out to us through the Spiritual Sun to awaken and nourish our spiritual faculties. Once that light awakens the Soul, it must be feed Light regularly so that it will grow and become the fully enlightened Soul that it has the potential to be. It is something that we have to work at for one time. It is the only way to become truly immortal. That is why Boehm wants us to pray in this way. It isn’t necessary to memorise his prayer and repeat it regularly. What needs to be done is to pray

according to the spirit of this prayer while we take in the Light of the Spiritual Sun at dawn.

“Inside the world’s largest crystal ‘cave’”

Discovered in 1999 inside an abandoned mine in Southern Spain, Pulpí Geode is the largest crystal ‘cave’ of its kind in the world.

But what exactly is a geode and how do crystals form inside them?

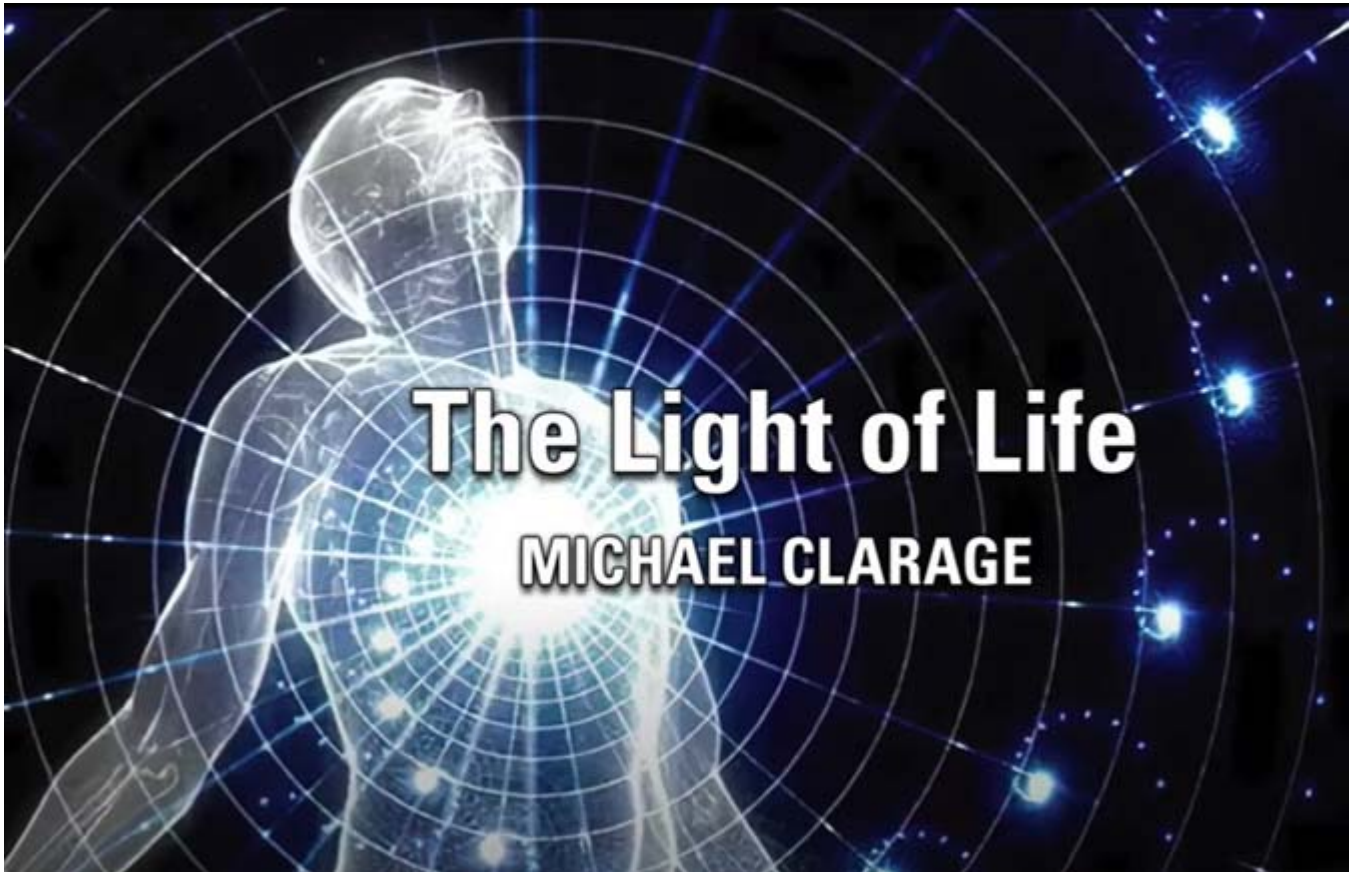

Discover and be amazed by this wonder of nature.

**“Michael Clarage: The Light
of Life | Thunderbolts”**

Life emits light. There is even proof our eyes emit light. To a physicist this is possible since all receivers are also transmitters—a radio antenna can send or receive the same signal. The rhodopsin molecules in the retinal cells absorb and emit the same visible light.

Michael Clarage, PhD, Astrophysicist and Lead Scientist of SAFIRE, explains how we could not have organic life without cells, chemicals, light, electricity, or the ecosystems of the Earth and Sun—all levels of the hierarchy communicate and exchange energy.

Pray with Love and Music

"Love, this is the first impulse of Genesis, the first impulse of life. Love is the Divine impulse. It is the nicest thing. It is the first thing that comes in life, the first thing that creates the universe.

"We all have to love God. Without love of God, we will be foreign to one another.

"There are teachers now who say, 'Pray to the Lord and He will listen to you.' If you pray to Him according to all rules of music, He will listen to you, but if you do not, your prayer will remain here on Earth, It won't go to the other world. In other words, your prayer must be sent to God with Love. Without love, you cannot get the right tune.

"Musical love must take part in the prayer. These things you do not know. You think you can get to paradise without music. No, no. You cannot get into paradise without music. A person

who is not musical cannot get into paradise. He can catch a glimpse from the doorstep, but won't be able to cross it."
~Biensa Douno

Pray with Love

Many people pray to God, asking Him for various things, or to help them in various ways, but have no love for God. Real prayer is expressing your love for God, not begging Him to give you things. For starters, God has already given you the greatest gift He has to offer: eternal life in the spirit. He has also shared His creative power with you, although you probably don't know how to use it wisely. In addition, asking god for material things is pointless because matter is the realm of the Demiurge, not the realm of God. If matter is what you want, talk to Satan.

Love Creates

It is true that love creates and the universe, the spiritual one anyway, was created by God's Love. Man sometimes creates out of greed, desire, or simple need. God has no needs and no greed. He creates because for Him, creation is an act of Love.

Without Love of God

Douno says that without the love of God, we are foreign to one another. What he means is that we cannot truly know others without love and we cannot truly know ourselves if we do not love ourselves. I am not talking about the narcissist who cares only for himself. That isn't real love. We need to have a real love for ourselves and others, and the only way to get that is to develop a true love of God. In order to have a real love for God, we must know God, we must connect with God. We do that by awakening our spiritual faculties with the Light of the Spiritual Sun. Then we continue to develop the spirit and soul until we reach the high level of consciousness known as Christ Consciousness or Universal Consciousness. When that happens, we truly know God and we will truly love God once we

know Him.

“Listen to Eerie Sounds from Echoing Black Holes”

How black holes can swallow stars

Millions of elusive black holes hide in plain sight across the Milky Way galaxy, only giving away their presence occasionally through bursts of X-ray light when they feed on stars.

Astronomers have been able to pin down the locations of eight rare pairings of black holes and the stars orbiting them, thanks to the X-ray echoes they release. Previously, there were only two known pairs emitting X-ray echoes in our galaxy.

Black hole binaries occur when these celestial phenomena are orbited by a star, which they sometimes use to siphon gas and dust as a snack.

The echoes have been converted into sound waves that just may keep you awake at night.

Babel of Confusion

"If we consider now (in the Light of Nature) of Man, the Image of God, of his beginning, and of his eternal enduring being, and then of the breaking of his body, how body and Soul part asunder, and whither the Souls go, when the spirit of their breath does break in them, and the moving in the tincture of this world does cease, then we find the ground of the Unquietness of the Soul, when it is separate from the body, being unregenerated; from whence lamentation and desiring arise; from whence then the Babel of Confusion has risen, so that many things have therefore been invented to ransom Souls. Many of which things have no foundation in the Light of Nature, but were rather invented for covetousness, and for a filling of the belly, and for deceit, upon which the antichrist kingdom is founded. From thence is a right Babel of Confusion come to be, out of which then also the fierce, cruel enmity and hatred has arisen." ~Jacob Boehme

Body and Soul

It seems that what Boehme is saying here is that the body and soul (or spirit) were initially a single whole, but have been separated into two different things. Exactly what caused that to happen, he doesn't say, but we know that the answer is man's sinking deeper and deeper on the physical level into materialism, and moving further and further away from the spiritual. Yet despite this division, the body and soul remain connected in most of us. Only when someone commits a horrendous crime such as murder does the soul completely separate itself from the body and mind, leaving the person as a kind of spiritual zombie.

The Babel of Confusion

Even without a true separation of body and soul, nearly all of us have lost the ability to listen to the soul and hear only the limited intelligence of the mind. Unscrupulous people have taken advantage of that situation to make up tales of how the soul is lost, or how it may be regained. We have all read stories or seen movies in which a person sells his soul to the Devil in exchange for fame and glory. Such tales undoubtedly originate with those who are jealous of the success that others have. Others say that if you join a specific church or religion, your soul will be saved. None of this was taught in the ancient mystery schools. It isn't necessary for the Devil to barter for souls, he gets enough of them by default.

The ancient schools, and a few modern ones, taught that the only way to get to Heaven and get out of the Babel of Confusion is to awaken and develop the spiritual faculties. This hasn't changed. Some new schools of spirituality think such schools were overkill, and that simply desiring to be spiritual and meditating regularly will get you to heaven. No legitimate school has ever taught such a simplistic path to enlightenment.

Enmity and Hatred Have Arisen

It is true that this loss of communication between the mind and Soul has resulted in much enmity and hatred. We wage war against our brothers and sisters (all of humanity is our brothers and sisters,) we claim ownership of things that rightfully belong only to Nature, we take what is natural and good and turn it into things that are unnatural and unhealthy. We get diseases, and spread them to others. We feel we deserve something that others have, so we attack them and take it. This is not the way God wants us to Live. It is not the way we should want to live. If we make the effort to awaken and develop our spiritual faculties, and learn to communicate with them, we will leave the Babel of Confusion, and learn how to live together in peace, health, and harmony.
