

COSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

COSOLARGY NEWSLETTER

April 2020

Greetings!

Welcome to our monthly bulletin with information of interest to friends of Cosolargy International. In this issue we bring you up to date with current and future events and provide a little background on our founder, the late Gene Savoy Sr, and his explorations into solar cultures, along with some uplifting words of inspiration.

If you are curious about the solar techniques and activities of our Community, contact us by using the Contact Form on the [Cosolargy International website](#). It will be forwarded to the appropriate representative for your area.

History has shown how religions, like governments, become oppressive when power is invested in the hands of a few and men are ruled not by just law but by unjust men. The longing for freedom of person and the right to know God resulted in the founding of America. The Christian Church of Europe had become too restrictive, just as the national or civil religion of Israel had been in the time of Jesus. History repeats itself.

Modern times have seen a resurgence in religious feeling and expression. The individual is interested in religion. However, unfulfilled by the established and more formal churches and religious institutions, the greater number of seekers have turned to metaphysical or esoteric groups which were once thought to be occult, pseudo-religious, or off-beat. The dark arts, black magic, spiritism, shamanism, demonology, theosophy, and Rosicrucianism have been, and continue to be, examined to one degree or another. There has also been a renewed interest in Eastern religions. In an effort to find greater meaning in their lives and to open new vistas of human understanding, large numbers of curious and interested persons have investigated and become involved in meditation, mind or body control, brain altering systems, human engineering, and personality expansion programs. Not knowing where to turn, the disenchanted, who yearn for deeper spiritual experiences, seek some expression in the numerous cults that have sprung up of late - the offshoots of the established churches and metaphysical sciences. These so-called cults are, for the most part, syncretisms or eclecticism, each choosing the best features from a number of sources or systems including philosophy, psychology, religion, physics, and communication sciences.

What Does it Mean to be Spiritual in Cosolargy

"The meaning of spirituality has developed and expanded over time, and various connotations can be found alongside each other" ~Wikipedia

"Spiritual - relating to deep feelings and beliefs, especially religious beliefs." ~Cambridge dictionary

Spiritual or Material

In Cosolargy, we see ourselves, the world, and even the entire universe and all its dimensions as being basically divided into two areas: the material (or physical) and the spiritual. In between the purely physical and the spiritual is the mental or psychic area. We are not going to get into that area much in this post, as that isn't the point of the article. The important thing to remember about it is that the mental/psychic level is not the same as the spiritual. Developing your spiritual self may increase your psychic abilities, but that is not the goal.

One View

In 2017, the online magazine, *The Conversation*, published an article titled ["What Does it Mean to Be Spiritual?"](#) Here is a brief quote from that story.

"I believe when people call themselves spiritual they are basically signaling three things: first, that they believe there is more to the world than meets the eye, that is to say, more than the mere material. Second, that they try to attend to their inner life — to their mental and emotional states — in the hopes of gaining a certain kind of self-knowledge. Third, that they value the following virtues: being compassionate, empathetic and open-hearted."
~[Galen Watts](#)

So you can see from this quote, and from the definition of spirituality above, that many are defining being spiritual as believing that there is more to reality than the physical world, that they attend to their "inner life," and that it means being compassionate, empathetic, and open-hearted. While those are all attributes of a spiritual person, they do not define being spiritual. Knowing what spirituality means doesn't make you a spiritual person.

In The News

In the News: Steamboat Hot Springs Healing Center & Spa

"From one spring the boiling water is ejected a foot or more by the infernal force at work below, and in the vicinity of all of them one can hear a constant rumbling and surging, somewhat resembling the noises peculiar to a steamboat in motion." — Mark Twain, 1863

Steamboat Hot Springs and Healing Center in Reno is a subsidiary of Cosolargy International. It is so historic that Mark Twain himself is responsible for its name. The springs themselves have been active, and soaked in by early pioneers and those responsible for making Nevada a state, all the way back to 1857.

Last month we reported on some online articles about steamboat. An additional article was recently added to the Hot Springs of America site. [Click Here](#) to read the article.

Why Join Cosolargy?

Will Cosolargy Help Me Advance on My Spiritual Path?

Anyone who is drawn to Cosolargy recognizes there is more to existence than the material – they sense the intangible part of the self that, while unseen, is very real. That component of our authentic self is called by many names, however, let's use the word 'spirit'. Many of us are seeking to reconnect with our inner self and describe ourselves as being 'on the spiritual path'. While we might aspire to serve our fellow humans, we must first embark on the most important task at hand: our own personal spiritual work.

One question that will legitimately arise as you explore Cosolargy is, "Is this right for me?" And if you have devoted part of your life to another spiritual practice, you may well experience some inner reservations as to whether our solar techniques will contradict the teachings you have followed up until now.

Cosolargy International today has members from all parts of the world, anchored in diverse cultures and religions. Our school comprises residents of Japan, India, Africa, Central and South America, Europe and Oceania. They mostly have their own religious backgrounds, such as Hinduism, Buddhism and Shintoism, not to mention the Abrahamic religions, including Christianity and Orthodoxy.

We all know that the physical Sun is the source of life, light and warmth on planet Earth. Many of us on a spiritual quest seek a connection with our inner source of light and life. If you are looking for a way to connect with your spiritual goals, you will not have to abandon your existing beliefs with us. You will always be welcome to join our academy and, if it feels right, our church as well. Or, if you feel more comfortable, you may choose to simply start out by just trying out the practical techniques that Cosolargy teaches you.
