

# “Israel Suite” Now on YouTube

*Israel Suite* was composed by Gary Buchanan in 1988. The Hebraic music was composed for a documentary film produced and directed by Gene Savoy, *Mystery of the Essenes of Old Israel*, a 1992 Project X release.

The 1991 Project X tour to Israel and Jordan visited a great many ancient sites—Jersusalem and the Mount of Olives, Wadi Qumran, Masada, Beth Shemesh, Capernaum, Mount Gerizim and the excavations taking place there, Mount Hermon, Tiberias, and multiple cities on the coast of Galilee, Caesarea Maritima, and many others. The entire time in Israel the crew was filming and keeping records of their discoveries. Upon their return to Nevada, they began editing the footage and assembling the documentary. A great deal of the film was synchronized with the music Buchanan had already recorded in the studio.

# Solar Teachings of Greece and the Mediterranean published

Reproduction from the Palace of Knossos. PHOTO: Gene Savoy Jr.

*Solar Teachings of Greece and the Mediterranean*, the ninth in a series of Project X Symposia lectures on ancient solar cultures, has now been published and is being made available to Consociates enrolled in or graduates of the Academy Program who wish to obtain a personal copy.

The lectures were originally delivered in 2009 by Bishop Gene Savoy Jr. on location in Greece during the Project X seminar

tour that year. Later, during Convocation that year, technique lectures were revised and repeated for the general membership of the Community who were not able to attend the seminar tour. This collection of lectures is the first in the Project X Symposia series to be authored by Gene Savoy Jr. rather than by Gene Savoy Sr.

The transcript was prepared and printed only days before the 2012 Convocation opened and was made available first to Convocation attendees.

Gift copies are available to Consociates through the Jamilian University Press for a donation of \$49.50.

Members of the 2009 Greece tour will receive a copy of the transcript with no further donation requested.

At the upcoming conference Emergence 2012: Light Consciousness and the Sounds of Healing, to be held October 12–14, 2012, at the Steigenberger Hotel in Lake Konstanz, Germany, members of the Jamilian University Faculty will be joined by celebrated presenters from Germany to speak on vibrational and alternative healing, Cymatics, Sonotherapy, and Cosolargy, as well as the newly manifesting solar conditions upon the planet and its inhabitants. The presenters at the conference include James L. Oschman, PhD; Sean Savoy; Gary Buchanan; Alexander Lauterwasser; Gene Savoy, Jr.; Mark Abadi; and Siranus von Staden.

Four of the speakers from the 2012 Spiritual State of the World conference being held in Nevada September 27–30, 2012, will be presenting at the conference in Germany. The members of the ICC named above will be featured at the annual three-day conference in historic Konstanz, a town lying at the base of the Alps at the headwaters of the Rhine River.

The Festsaal Room where the conference will be held

On Saturday, October 13, James Oschman, PhD, will be giving the keynote address titled "Cosmic Thinking & Being." Dr. Oschman is one of the foremost authorities on alternative healing in the world. He will be followed on that day by Sean Savoy with a presentation titled "Linking to the X-Sun for Activation of a Conscious World." Savoy will be followed by Dr. Gary Buchanan, who will speak on "Sonatherapy & Cosolargy: The Future of Healing." Friday's closing presenter will be the celebrated Cymatics author and photographer Alexander Lauterwasser. He will present "Cymatic Photography & Discussion," a talk covering his decades of research in Cymatics and recent books and articles on that subject.

Sunday's opening presentation, "Syntonium Holistic Therapy," will be delivered by Mark Abadi. ## **KYOTO IMPERIAL PALACE**

Imperial Palace, Kyoto. PHOTO: Jim Elliott

Kyoto Imperial Palace (Kyoto Gosho) is an imperial palace of Japan, although the emperor of Japan has not been in residence there since 1869. The palace is situated in a rectangular enclosure that contains gardens and numerous imperial halls and residences. The palace has been destroyed and rebuilt eight times; the version currently standing was completed in

1855 and attempts to reproduce the original Heian Period architecture.

## **SIGHTSEEING IN KYOTO**

Notable sites in Kyoto are the canal-lined older streets, the Arashiyama District with its picturesque mountain lake, the Gion and Pontocho geisha quarters, and the Philosophers Walk, a cherry tree-lined pedestrian path that passes many temples and shrines and takes about thirty minutes to complete.

The Gion District, famous for the preservation of forms of traditional architecture and entertainment, remains dotted with old-style Japanese townhouses and teahouses where the patrons of Gion—from the samurai of old to modern-day businessmen—have been entertained by geisha in an exclusive manner for centuries.
