

WEEKLY MESSAGE: December 16, 2020

CŌSOLARGY INTERNATIONAL
THE SACRED TEACHINGS OF LIGHT

HEAD OVERSEER'S WEEKLY MESSAGE

December 16, 2020

This portion of the commentary of the Seventeenth Saying of

Jamil continues to treat on the state of health of our sun and moves into the realm of the cosmic battle between the Powers of Light and the Powers of Darkness.

The Seventeenth Saying (Part 6)

“And the Second Mariner posed a question: ‘Are the physical manifestations of the disease in the sun related to solar flares and increased sunspot activity observed for a number of years by members of our own Order and by secular scientists?’

“And The Man thought deeply for a long while, then answered saying, ‘Astrophysicists have observed regular blemishes on the surface of the sun as a result of solar flares in eleven and twenty-two-year cycles. In recent years these cycles have become unstable. Observers of our own Order have been measuring these solar disruptions for more than twenty-two years*, noting that the disruptions are the result of deeper causes within the sun which can be related to the earth’s state of affairs: or perhaps the reverse is true. In any event, the sun and the earth are interrelated, and sunspots and solar flares reflect this interrelationship.’

“And again the Second Mariner spoke, ‘Is the deeper cause of solar activity perhaps related to the allegorical celestial war between the Sons of Light and the Sons of Darkness; that is, the battle between the fifth- and fourth-dimensional levels of being as suggested in the scrolls of the Dead Sea that appear to describe the ideas and beliefs of the Essenes of Israel?’

“And The Man answered the Mariner saying, ‘The nature of the sun, or its state of health, reflects conditions upon the earth and within the sun itself. The Essenes realized this and wrote of it. Often our adepts look at the sun seeking light and energy, love and peace, and oftentimes they receive the opposite, which indicates that the sun is ill at times. It is like looking at a healthy flower that gives beauty to the eye

and a pleasant aroma to the nostrils. If the flower is dying, it appears ugly and gives off a putrid smell.

“The best way to answer your question is by saying that adepts of the sun have observed that the health of the sun is affected by the Darker celestial beings that control the movements of the earth, or at least affect it with negative and disruptive thoughts which cause wars and social upheavals. Their influence upon the earth is enhanced by Man's loss of the sacred teachings and inability to resist the Darker influences. Even if an ordinary person, who is not trained properly in how to combat the adverse effects, were to look at the sun, as do members of our Order, the sun would continue to be brutalized by the Dark thoughts generated by Dark beings within the sun who influence its life, and therefore influence all other bodies within the solar system that depend upon this energy for light, heat, and thus life itself. It would seem from all that has been revealed to us, and by what has been written in the sacred scripture of holy orders of ancient times, that a cosmic war between the Powers of Light and Darkness actually takes place within the sun and upon the earth. Sunspot activity has been related to economic upheavals, social unrest, wars, revolutions, plagues, famines, floods, and drought. The planet and Man are regulated by cycles and by forces outside of his world, just as animals and all other living things respond to the environment as determined by conditions not of their making.

“If the adepts are not taught how to properly combat the Darker influences from the sun, they are not going to be able to overcome them in order to restore the sun to a state of health. Therefore, the existence of our School has a reason – to train adepts in the proper way to bring about favorable changes in the sun. We affect the sun through Christ Consciousness – not by mind, or emotion, or the psyche, nor by the rational, logical reasoning processes – only by developed spiritual Consciousness. As we know from our study of

theology, Christ Consciousness governs energy and light.'”

Please pay special attention to the last paragraph. It is of the utmost importance. We will continue with these themes next week.

*Note the year this Saying was delivered was 1979.

Again, if I may be of any personal service to you, please do not hesitate to contact me.

Very truly yours in Light+,

Gene
