VOLUME 16

NEWS REPORT

AUG 1972

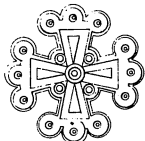

LECTURE TOURS A series of public lectures has been held in the San Francisco-San Jose area of California. These talks were advertised and well attended. Now that a nucleus has been formed further talks will be held in private homes. Attendance upon special invitation.

We are beginning with California, but will spread eastward in the fall and winter months. We want to visit all 50 states. Any information that ICC Associates may have including places to lecture and suggestions, as well as availability of their personal services and lodging for Gene Savoy and assistant during the tour, please send along to ICC LECTURE DEPARTMENT

NEW COURSE STYLE All research papers--Introduction to the System to Christogenics II--are being revamped and printed in a new 4-page style. Old papers will be replaced as new ones come off the press. We will keep you notified.

ICC ASSOCIATES MONTHLY PLEDGES The 36-month program has been reduced to 18 months, which means every ICC Associate is receiving standard material in one half the time. Mailing and handling charges have increased at the Center, and inflation has hurt. Quick submission of monthly pledges makes our bookkeeping much easier and is a real cost saver. All Associates are urged to send their monthly pledge on time.

DREAM & VISION BOOK We have had many requests to include the latest findings in EEG experiments and archetypal symbols in the Dream Book. Publication is being delayed pending inclusion of sketches and drawings.

We request the ICC Associate send in any symbols observed in dreams or while applying techniques--in color if possible. They may be taken as is for publication, or be redrawn by ICC's Art Department. Hurry.

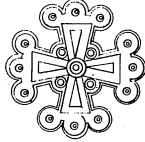

ICC'S HOT LINE We have included in our services to ICC Associates a telephone hot line so that everyone may call the Head Overseer when questions are not answered through regular correspondence. (Our schedule is demanding and sometimes correspondence piles up). Those who have legitimate questions or are in need of counseling may telephone: Gene Savoy, area code 702-786-7827 (Reno, Nevada). Calls may be made Friday through Monday; evenings only.

VISITING ASSOCIATES ICC Associates wishing to visit the Center in Reno should give expected date of arrival at least 2 weeks in advance, and clear it through the staff, to assure personal attention.

COSOLARGY/3 ICC Associates receiving Cosolargy/3 series will note that pages are numbered consecutively so that papers may be put into a binding book later on. At present, papers are being mailed every two weeks.

SOLAR FLARES The world, and science in general, has been astounded by the explosion of so-called hot gasses on the surface of the sun between August 2 and August 8 (the days of our first public lectures). These magnetic storms occurred at the low period of the sun's 11.5 year cycle.

Cosolargy has explained that solar phenomena of this kind could be expected in our New Age and that mutations of the human species would take place. The object of Cosolargy's techniques is to permit the individual to react favorably to such solar phenomena, in such a way as to form a positive variation in the species, as opposed to an unfavorable mutation which could--and some scientists suspect will--eliminate the species.

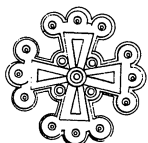

This solar radiation caused by a "new sun" will be accompanied by cosmic radiation through the star systems. This means that man is presently experiencing a new period of evolution of planetary life. Millions of years ago similar explosions on the surface of the sun and within galaxies created mutations on the planet. For example, the dinosaurs, among other living things, perished because they could not adjust to changing planetary conditions (it is interesting to note that over 98% of all living things have disappeared). New and changing conditions on the planet will result in the elimination of some animals. Man's fate will depend upon his reaction to the radiation bombardment. Cosolargy, as we have so often pointed out, is a scientific religion of survival. It teaches man how to go on in changing environmental conditions on the planet while existing with cosmic/solar radiation in a most favorable manner. (Refer to techniques).

A special report will be available to Cosolargists which will explain in detail the reactions we can expect in the species as a result of cosmic/solar radiation.

AMAZON EXPEDITION The second phase of the Amazon El Dorado Expedition has been scheduled for October, 1973. Those interested in participating in the 21-day Amazon Expedition are urged to make reservations now.

Fees are: \$2450 per person. Land, air and river transportation, and all accommodations included. Rate includes cabin shared with second person. (\$3500 for single cabin). ICC Associates have first choice of 9 cabins onboard our Amazon El Dorado riverboat--72 feet long. Good food, prepared by an old Cosolargist, is in store for everyone. Ray Willingham of Renzo's Continental Restaurant will be our chef.

Tours of archaeological remains, river explorations and jungle probes are offered. The Expedition will be recorded for book publication and color film. For reservations write: Andean Explorers Club Foundation, Amazon Expedition, Suite 238--100 N. Arlington, Reno, Nevada.

BOOK ANTISUYO--Search for the Lost Cities of the Amazon by Gene Savoy is still available, in first edition, from Simon & Schuster, Rockefeller Center, 630 Fifth Ave., N.Y., 10020. Copies are priced at \$8.95 and delivery requires 6 to 8 weeks.

This volume is illustrated with maps and photographs in oversized form. It catalogues the author's archaeological explorations in the jungles of Eastern Peru and is recommended reading as an introduction to the man who heads Cosolargy International, and the adventures he went through while exploring for the remains of lost civilizations.

We are pleased to send autographed sticker, upon request, for all books purchased. Few copies remain of what is rapidly becoming a collector's item. Hurry.

PLEASE DO NOT FORGET TO INCLUDE COMPLETE NAME, ADDRESS AND CLASS NUMBER WHEN CORRESPONDING. PLEASE PRINT. THANKS.

MOVING?

If you're planning to move, please let us know at least 2 weeks before changing your address. Attach current address label and fill in your name and your new address. This will serve to insure prompt service
