Volume XVIII No. 3

COMMUNITY CENTER: The Reno Center has expanded its office space to include a Council Chamber for the recently activated Board of Regents. We have also added a lithographic printing machine to our list of publishing tools; and plans are being made to expand our publications into the field of magnetic tape recordings.

Our staff has been reinforced by the presence of full and part-time volunteer workers, and the DECODED NEW TESTAMENT, Codex II, is being readied for the presses.

Like all true spiritual institutions, Cosolargy is destined to fulfill the need of a School of Light in every respect, as refined and noble as those which preceded it in Israel, Egypt, Persia, and other places of the ancient world. In other words, here at the Center, we are doing everything in our power to publish and distribute The Sacred Teachings of Light to as many seekers throughout the world as possible. However, you must be aware that Cosolargy's programs and activities, designed to further our goals, have increased administration and maintenance expenses substantially. Receipts to meet our expanding budget must be obtained from contributions. It would be regrettable if Cosolargy's great endeavor were to wither from lack of economic nourishment.

We realize that not all can come to the Center and offer their services as workers but you, our Correspondent Associate, can become personally involved in the Community effort by maintaining your donational pledge on a regular basis. This small effort on your part, coupled with our earnest efforts at the Center, will help guarantee the fulfillment of our respective goals, benefiting you, your fellow Cosolargists, and in the long run, all of humanity.

COLOR ANALYSIS: Cosolargy has made available to Associates a research project dealing with religious technology. Up to now Associates have been limited to studies in religious arts and sciences. The extension of our research and study into technology is necessary, because of the technological civilization that has developed over the past 50 years. We believe technology is a vital part of religious philosophy and has replaced metaphysics which has failed to solve the many problems of the seeker in today's world.

Cosolargy teaches that religion, in the highest sense of the word (not to be confused with dogmatic religion), is a vital part of man's inner inclination which cannot be answered by empirical scientific technology. Western technology has claimed that traditional religion cannot meet man's needs. While this may be true, technology cannot meet these needs either. In view of this, modern man needs a superior religion that is both scientific and technical while at the same time meeting man's natural inclinations. Science claims that God is dead. If this is taken to be literally true, then man is dead; for man is (we are taught) created in the

COMMUNITY FORUM: Two years ago we asked our Associates for literary contributions in the form of prose or poetry in harmony with the Teachings of Light, spiritual awakening, and the unfoldment of higher Consciousness. The purpose of the project was to: (i) provide the Associate with a means to express his or her spiritual experience; (ii) create a source of inspiration and spiritual recreation within the Community, and (iii) establish a bond among Cosolargists through involvement in Community projects. Although pressing publishing obligations temporarily delayed this program, we are now happy to say that with the expansion of our staff we are now in a position to activate it.

The following poem is a contribution from an Associate who prefers to remain anonymous. We hope you will not only enjoy it but will consider making your own contribution to this project in the future.

GREAT ONE VIRACocha

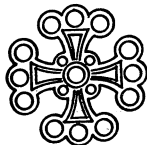

High above the Andes,
On pinions of Light it stands
Glistening in the Sunlight,
Thy Temple, not built by hands.

Linked by a golden stairway
Descending from the Sun,
Great One Viracocha!
We kneel, as Thou dost come!

Bearing gifts of Wisdom,
Bejeweled in robes of gold.
Man, learn thy source of being;
The Truth must now be told.

Great One Viracocha,
Come once again to earth.
Raise mankind forever
To the Sun and Light's Rebirth!

—Desiree—

EASTER SEASON: Once again we are offering the beautiful card featuring the illustration of the Child:Christ and a short history of His significance to Cosolargists. We suggest you order your cards now before the limited supply is exhausted.

FUTURE EVENTS: The Community of Cosolargy has made many trips to South America, Mexico, and recently Hawaii, for special advanced Seminars and oral teachings. This year we would like to have as many Associates as possible attend a Special Desert Seminar at the Center in Reno. The Rt. Reverend Gene Savoy, Head Overseer of Cosolargy, has designated the 8-week period from August 15 to October 20 as the ideal time for these Seminars. Interested Cosolargists should reserve these dates on their calendars, and write to the Center now for more detailed information. Each Seminar will be limited in attendance and all arrangements, lodging reservations, local transportation and conference seating should be made well in advance.

GOOD NEWS: We have begun the reprinting of lessons in a more readable 8 point type. The **INTRODUCTION TO THE SYSTEM** and **ANTHROPONOMY** series are now available in an 8½ x 11 format, soft covered book. Associates wishing to upgrade their lesson material may order them now. We request a \$10.00 contribution for each book to help offset additional cost of material, printing, handling and mailing. Your new copies will be mailed to you immediately upon receipt of your contribution.

THE CHILD:CHRIST: If you have not received your copy of the first edition. . .we will hold the remaining copies of this volume until April fifteenth.

INTERNATIONAL COMMUNITY OF COSOLARGY - P.O. Box 3279 - Reno, NV - 89501

Enclosed is my contribution of \$_____ to help defray cost of the material ordered and further the work of Cosolargy. Please send items as indicated below.
