The Origins of Cosolargy

Quotes from Gene Savoy, Sr.

"As the Eternal Light+ overflowed his being, a warmth and strength filled him, and he was at oneness with God+. The sun transmitted all the wondrous sounds of the universe at work—a concert of glittering notes that told the story of creation. He was transcended. His eyes had touched his soul with the sun, and, as if his spirit had been imprisoned in the depths of the earth, now it rejoiced, free to raise its wings toward the everlasting Light+ whence it had come.

And the Holy Spirit+, so long at rest within, was revived."

"And across the sun, The Man beheld the faces of the four Angels of Light+ that had appeared to him a year earlier. They spoke as before: "Journey to Peru. There the message of Christ+ will be revealed." Then they left him alone under the light of the eastern sky. Thereafter, it became a ritual for The Man to cast his eyes upon the sun daily at sunrise."

Commentary on the Bhagavad Gita Chapter Four

"The Blessed Lord said: I explained to Vivasvat, the sun-god, this perpetual teaching of controlling the personal energies through yoga. Vivasvat explained it to Manu. Manu imparted it to Ikshvaku.

"Thus, received through a series of teachers, the yogi kings knew this skill of controlling the personal energies. After a long time, here on earth, this yoga application was lost, O burner of enemy forces.

"Today, this ancient yoga technique is explained to you by Me, since you are devoted to Me and are My friend. Indeed, this is confidential and is the best teaching. ... Even though I am birthless and My person is imperishable, and even though I am the Lord of the creatures, by controlling My material energies, I become visible by My supernatural power. ...

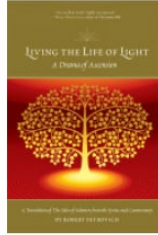

"Many whose craving, fear, and anger are gone, who are totally focused on Me, who are purified by austerity and education, attained My level of existence. As they rely on Me, so I relate to them, O son of Prthā. All human beings, everywhere, are affected by My course of action.

"Wanting their ritual action to succeed, people in the world worship the supernatural authorities. Quickly in this human world, there is fulfillment that comes from ritual action. According to the distribution of habits and work tendencies, the four career categories were instituted by Me. Know that I am never required to participate.

"Actions do not entrap Me. The desire for payoff is not in Me. The person who understands this is not entrapped by action." ~The Bhagavad Gita

A new Climate Change Page has been added to the Cosolargy website. Here is a short excerpt.

Climate Change and Global Warming

The Perspective of Cosolargy International

A new energetic state of the universe exists. Cosolargy teaches of this transforming condition.

There can be no doubt that our planet is undergoing environmental change. There can also be no doubt that we as a species have been and are disrespecting the planet, the result being Mother Nature in rebellion. Earth was never meant to be disrespected, polluted and essentially destroyed by Man.

While we should not be treating the planet in such a deplorable way, humankind should also realize that a major cause of climate change and global warming is attributable to changes happening within our parent sun that have their origin in spiritual realms beyond third-dimensional existence. The effect of the sun's radiation and heightened energy, force and power streaming down to us and throughout the entire solar system cannot be underestimated.
